REGULAR COUNCIL MEETING

I. Announcements, Correspondence, and Proclamations
II. Public Comment:
Topics not listed on the agenda 5 Minute limitation per person
III. New Business
a. Petition for a tree protection ordinance (Guest Andreea Ghetie)
b. Parks and Commons Commission Greenspace survey and request
IV. Ongoing
a. Inclement weather nighttime use of Pavilion update
b. Council goals and December agendas
c. City Manager recruitment and expectations of City Manager
V. Reports
a. Financial
b. Council
c. City Manager
VI. Other Business
a. Mayor
b. Council Staff
c. Staff

The Yachats City Council meetings are open to the public and interested citizens are invited to attend. These are open meetings under Oregon law, but a work session is not a community forum; audience participation is at the discretion of the Council. Meetings are audio-recorded. Public meeting minutes are available for review at City Hall. The meeting place is accessible to persons with disabilities. For accommodations, please call (541) 547-3565, or Oregon Relay 1-800-735-2900 TDD) two days in advance. City of Yachats does not discriminate on the basis of race, color, religion, creed, gender, national origin, age, disability, marital or veteran status, sexual orientation, or any other legally protected status.

In accordance with ORS 192.630, City of Yachats will make a good faith effort to provide accommodations for any person desiring to attend a public meeting, if the request is made at least 48 hours in advance of the meeting time. The meeting room is physically accessible to persons with mobility devices; a sign language or foreign language interpreter may be available, with advance notice. Call City Hall at 541-547-3565 or Oregon Relay 1-800-735-2900 (TDD) two days in advance. Posted 11/12/2021

Petition

October 15th, 2021

To: City of Yachats and the Planning Department

We, a group of concerned Yachats residents...

The residents of Yachats propose a tree protection ordinance, one that is enforceable. We are alarmed of the fast and frequent removal of large trees, most of them perfectly healthy, within the city limits. Big trees are removed due to an aphid infestation which can be treated by a knowledgeable arborist, clear cuts of lots for sale are commonly done by real estate agents just to showcase a lot that might be sold shortly or in few years (clear cuts leading to erosion and aggressive growth of invasive species,) and most of the large trees are removed for building purposes despite the fact the trees can have a construction protection zone.

In this time of rapid climate change, we need the trees desperately. Climatologists refer to each tree and each group of trees as "the lungs of the earth" and "effective carbon sequestering agents". The trees are also an important part of the view-shed and natural beauty of Yachats. The removal of these large trees impacts all of us and the wildlife that we must protect. We, as concerned citizens, sign this petition to expedite the creation and adoption of this tree protection ordinance. We are also aware that there is not a state tree protection ordinance and we've looked at all the ways large trees are protected. There are cities and counties that have already set the precedent for such an ordinance. Our research regarding tree protection ordinances already in place and effectively administered includes: The tree code ordinance in the City of Lake Oswego. Lake Oswego successfully implemented an ordinance to protect trees including enforcement procedures. (The Lake Oswego Municipal Code is current through Ordinance 2876, updated September 21, 2021. The Lake Oswego Tree Removal Ordinance is a municipal precedent that is carefully and thoughtfully explained on their website. The purpose is stated below:

‘’Article 55.02.010 Purpose

The purpose of this chapter is to regulate the removal of trees, encourage and assist property owners in managing large forested properties, and prescribe preventative protection measures to avoid damage to trees during site development in order to preserve the wooded character of the City of Lake Oswego and to protect trees as a natural resource of the City.’’

Oregon City also has a comprehensive, elegantly stated official plan regarding "Trees in Oregon City" . The plan is thorough and articulate. It includes the following statement:

‘’Benefits and Costs of Trees

Trees provide environmental benefits, such as stormwater retention, shade, wildlife habitat and reduced energy consumption. Trees help to bolster property values in residential and commercial areas, and improve the aesthetic appeal of urban streets.

DID YOU KNOW? Planting a street tree can provide an abundance of benefits to those streets they occupy. For example, a recent study by the City of Portland found that a tree with a canopy cover of 312 square feet (the average for our study) adds $7,593 to the house it fronts. However, it also positively

influences the prices of houses within 100 feet. On average, there are 7.6 houses within 100 feet of a street tree. Therefore, a tree with 312 square feet of canopy cover adds, on average, $9,241 to the value of neighboring houses.

Street trees also help to calm traffic and provide separation between car traffic and pedestrian areas.

If properly selected and planted with sufficient space to grow, urban trees can provide all of the above benefits at little cost. However, trees do have a life span. Sometimes an inappropriate tree species is planted or grows in the wrong location, which may result in lifting sidewalks or cracked curbs. In this situation, the city may issue a permit for the tree to be removed as long as it is replaced with a more appropriate species. Similarly, trees that are dead, diseased or hazardous, as verified by a certified arborist, must be replaced."

Oregon City is also pursuing "Tree City USA status" through the National Arbor Day Foundation." The Tree City USA program provides communities with a four-step framework to maintain and grow their tree cover".

These are the primary reasons we have signed this petition to motivate our City Council and The City Administrators to move as quickly as possible to protect remaining trees and the preservation of all the environmental benefits that trees and forest provide.

Yachats has the capacity, motivation and resources to be a model municipality (even more so than Lake Oswego, City of Portland, and Oregon City) who cares diligently about Nature, our Natural Resources that visitors and residents value so greatly.

III. Planning Goals and Policies

In March and April of 2006, the Planning Commission and City Council advisory committee members conducted community discussions on the core values of City residents. In May, the City conducted a mail-back and web-based survey, open to all City and surrounding area residents. The results of that survey, a June open house, subsequent Planning Commission work session, community discussions and public hearings are reflected in this comprehensive plan update.

Goal A. Protection of Natural Resources

In conjunction with county, state and federal agencies as well as area residents and landowners, The City shall work to protect and enhance its rich natural, scenic and historic resources. Forests, beaches and water areas, wetlands, air quality, fish and wildlife habitats, historical and archaeological sites, and, in particular, open space and scenic views all contribute to the high quality of the City's environment. These resources are Yachats' main assets in that they make it a beautiful place for people to live in and visit.

Policies

1. The City shall ensure that the quality of air, water and land resources is maintained.
2. The City shall protect significant marine habitats, as identified on the City's adopted Natural Resources map and inventory data, from proposed land uses that will, or might, modify their indigenous characteristics.
3. The City shall preserve existing open space and identify new areas appropriate for designation as open space.
4. The City shall encourage orderly development of land through zoning, land use codes and the timing and placement of public improvements in order to conserve natural resources.
5. The City shall assist the State and County in protecting the County Road 804 right-of-way and the prescriptive easements accepted by the Oregon Supreme Court as established by the Lincoln County Surveyor (Survey 11,905 12/18/87) from alterations that would prevent the establishment and maintenance of this segment of the Oregon Coast Hiking Trail within the public right-of-way.
6. The City shall concur with all pertinent and legally authorized agencies, both federal and state, in a mutual effort to retain the character of those natural qualities identified in the adopted Natural Resources Map and Inventory Data.
7. The City shall consider the quality of the resources areas as shown on the adopted Natural Resources Map and inventory data in adopting land use designations or in undertaking land use actions or decisions.

8. The City shall direct its growth so as not to encroach upon public or commercial forestlands.

9. The City shall protect significant archaeological and historic resources through survey identification, recordation and adoption of preservation codes, consistent with the standards of the State Historic Preservation Office (SHPO), affected tribes and federal laws. Specific sites for protection include, but are not limited to, the Little Log Church, Yachats Middens, Native American villages and other identified recorded or unrecorded archaeological or historic sites.

10. The City shall not support offshore oil and gas development and associated facilities due to potential conflicts with existing ocean fisheries, impacts on aesthetic and recreational values, and degradation of the marine environment. This includes leasing, exploration, and oil and gas extraction within the state territorial sea and federal waters.

11. Established trees contribute to the aesthetic and environmental quality of the City. Significant trees and groves of trees shall be protected through a tree protection ordinance or other voluntary mechanisms to ensure their health and retention.

12. View sheds and corridors are unique characteristics of the City. They contribute to the community identity and aesthetic values of City residents and visitors.

13. The City shall protect streams and creeks.

14. The City shall provide educational material regarding the responsible use of chemicals.

Proposed actions:

a) The City shall incorporate soil capacity analysis into the land use code for protection of prime forest soils.

b) The City shall develop a methodology to designate archaeological and historic properties to the City inventories.

c) The City shall conduct archaeological and historic resource inventories consistent with Goal 5 and the SHPO and rank significant properties for protective measures. Priority sites shall be identified on the City's Natural Resources map or separate archaeological and historic resources map consistent with state law.

d) The City shall explore actions to preserve trees and establish a tree protection ordinance.

e) The City shall identify and rank significant view sheds and corridors.

f) The City shall conduct a City-wide urban growth boundary natural resources inventory and assessment.

Excerpts from November 15, 2021 email from Craig Berdie

Leslie Vaaler <Leslie@YachatsMail.org>
Tue 11/16/2021 5:58 AM

I recognize that there will need to be a supplemental budget.

Before the budget process started, PCC had discussed and provided estimates for multiple investments to keep the Commons in good repair and competitive as an event location. Specifically, we requested that the following: external painting, internal painting, Greening the Commons Open Space, safety mitigation with the sidewalk to the. east of the Commons and making the north entrance more attractive and weather sheltered as it is often the primary entrance. Only a few of these were mentioned in budget committee discussions. Additionally, the Pocket Parks were not planned but funded this year. Note that all of these can be considered visitor amenities – a fund that is well endowed at this time.

I have included a mini spreadsheet showing anticipated costs. Note that the north entrance project is more complicated than originally envisioned as the current ramp is not ADA compliant and the kitchen exhaust vents where we had envisioned the portico roof. It should be budgeted over several years. The sidewalk safety issue now includes a set of stairs that will also complement the north entry project. As is typical, it is hard to predict costs of items like engineering and design so they are best guesses and hopefully overestimated.

Commons Capital Project	Yr 1	Yr 2	Yr 3	Yr 4	
Greening Commons Open Space	60000	40000	25000	12000	
Pocket Parks	15000	5000			
Interior Painting	69000				
Exterior Painting and Gutters		27000			
Bike Racks	5000				
North Entry Improvements (Sub Total)	**130000**				Economic Development Grants?
Stairs + Railing	20000				
Landscaping / Retainage		5000			
Portico and ADA Compliance		30000	75000		
Totals	**169000**	**107000**	**100000**	**12000**	

Survey Results

GREENING THE COMMONS

Overview

Why: Follow-up to Citizens requests and 2011 Master Plan lack of implementation

Highest marks to planting and gathering area

Middling to Low for specific uses like horseshoes, dog park, ball field

Yachats citizens are generous! 35% are willing to donate (a few conditionally)

Yachats citizens are creative. Suggestions include bocce (vs horseshoes), pickleball, tennis, wiffle ball, parking, community gardens, more dog waste receptacles

Dog park and ball field scores varied between ranking and total item scores

Little difference between full-time and 2nd homeowners.

Methodology

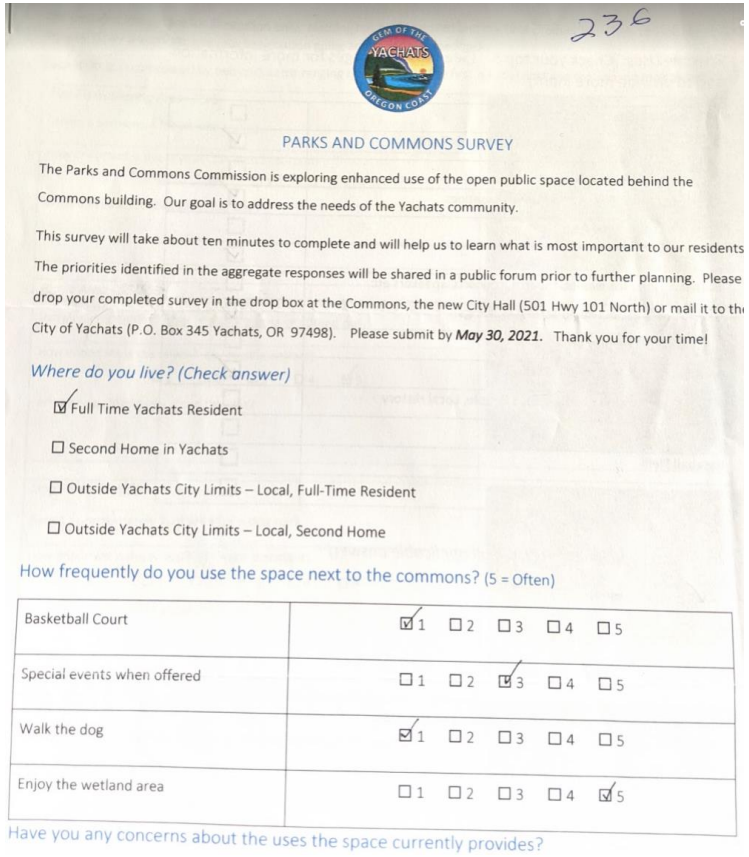
224 Returns out of approx. 900 sent = 25% return rate

All surveys received a number for tracing / quality control

Surveys received and processed in five tranches (one per week)

Comments transcribed for first tranche: others available to review

Rule: No answer = lowest score



236

PARKS AND COMMONS SURVEY

The Parks and Commons Commission is exploring enhanced use of the open public space located behind the Commons building. Our goal is to address the needs of the Yachats community.

This survey will take about ten minutes to complete and will help us to learn what is most important to our residents The priorities identified in the aggregate responses will be shared in a public forum prior to further planning. Please drop your completed survey in the drop box at the Commons, the new City Hall (501 Hwy 101 North) or mail it to th City of Yachats (P.O. Box 345 Yachats, OR 97498). Please submit by ***May 30, 2021.*** Thank you for your time!

Where do you live? (Check answer)

- ☑ Full Time Yachats Resident
- ☐ Second Home in Yachats
- ☐ Outside Yachats City Limits – Local, Full-Time Resident
- ☐ Outside Yachats City Limits – Local, Second Home

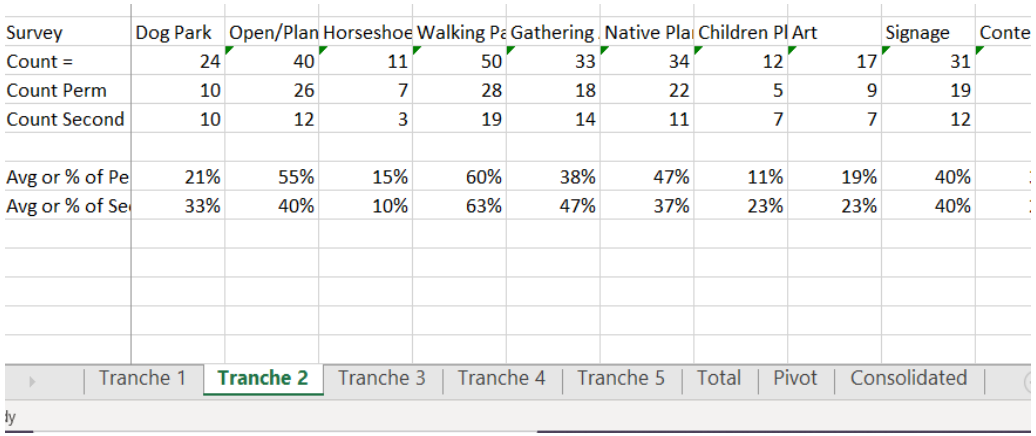
How frequently do you use the space next to the commons? (5 = Often)

Basketball Court	☑ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
Special events when offered	☐ 1 ☐ 2 ☑ 3 ☐ 4 ☐ 5
Walk the dog	☑ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
Enjoy the wetland area	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☑ 5

Have you any concerns about the uses the space currently provides?

Excel Spreadsheet Available (Locked)

- Data manually entered weekly
- Each tranche tabulated weekly
- Weekly totals transferred to Total sheet
- All data in Consolidated sheet
- Analysis for totals (counts or total), average, primary/secondary, variance (consolidated only)



Survey	Dog Park	Open/Plan	Horseshoe	Walking Pa	Gathering	Native Pla	Children Pl	Art	Signage	Conte
Count =	24	40	11	50	33	34	12	17	31

Count Second	10	12	3	19	14	11	7	7	12	
Avg or % of Pe	21%	55%	15%	60%	38%	47%	11%	19%	40%	
Avg or % of Se	33%	40%	10%	63%	47%	37%	23%	23%	40%	

Tranche 1 | Tranche 2 | Tranche 3 | Tranche 4 | Tranche 5 | Total | Pivot | Consolidated

Survey Opportunities to Improve

Better equivalence between sections

Show current costs of mowing and maintenance

Seasonality and coastal environment issues

Dog Park picture. (Note that Florence dog park is built on sand)

Note that we had considered 2011 Master Plan

Kids play area is for older children vs current area which is focused on younger children

Current Thinking

Emphasize general use versus specific uses

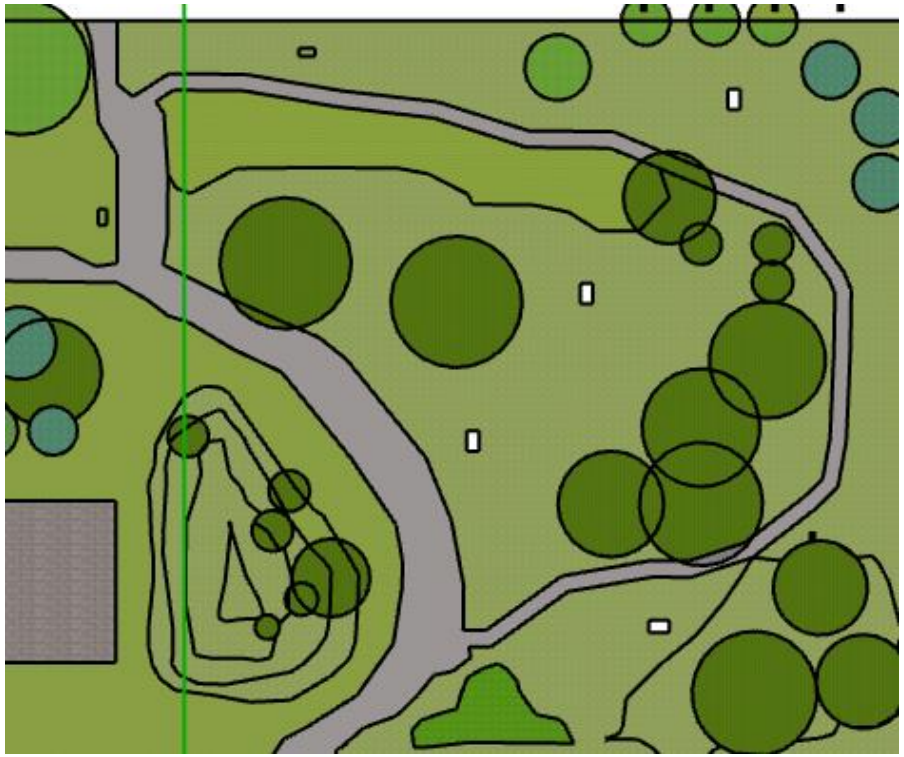
Add texture via plantings and elevation variation (berms)

- Incorporate native plantings
- Use broadleaf evergreen trees of limited size

Create bermed open space for gatherings, music, and informal presentations near pavilion

Vegetation might mitigate wind and odor.

“Friends of” to evaluate hardcourt, dog park, bocce ball opportunities



Design Principles to Consider*

Ecologically and Environmentally Sound
- Natural diversity to withstand climate change

Species appropriate to site including water, wind and sun
- “Of the place”
- Plants that reflect the environment and attract wildlife

Visually Rich
- A suitable level of complexity in plants and paths
- Make use of movement and aroma

Dynamic: varies with the seasons
- Plants will ebb and flow, flower naturally
- “Landscapes are four dimensional”
- Does not preclude pruning and maintenance

*Darrel Morrison

Specific Concerns

Safety and Security

- Bench and Table “dividers”
- New Oregon Statue re. homeless camping

Maintenance: 2 – 3 years of weeding and care. Less after plants established

- There will still be areas of lawn
- Current “Lawn” requires maintenance

Questionable if area was naturally flat

Next Steps

PUBLIC PRESENTATION AND FEEDBACK

VISIONING OF SPACE

LANDSCAPE DESIGN, HYDROLOGY, ENGINEERING AND MAINTENANCE PLAN 2021/22 CALENDAR YEAR

GIVEN CURRENT REALITIES: STAGED IMPLEMENTATION STARTING FALL 2022

Written Comments Parks and Commons Survey

How Frequently use space next to Commons?

107: We loved special events at the commons – plays, entertainers, etc.
139: Most Surveys include a self-addressed and stamped envelope! (see comment in additional suggestions)
150: Used to before she died

Concerns re. current space use

103: No
107: We loved the exercise class that ran for years and years in the Commons! Leaders were volunteers who loved to exercise – People paid $2 per person – Music came thru the speaker System!! The class was M,W,F and leaders were locals. Some Waldport people came also!
112: No real concerns
126: We would absolutely love a dog park – maybe with a picnic table or two! A great way to meet other locals!
127: Why isn't there baseball (listed)?
129: Invites the homeless to hang out
131: Attended solstice, other community events. Used to go to the ball games on Saturdays in the summer. Afraid of loose dogs running up to me when I walk through
133: Do we still need a skate park? Why does the picnic shelter leak? Could it have space heaters and more plexiglass near the roof? When will we have more public parking and picnic facilities?
143: Better lighting at parking between Commons and City Hall
147: The wetlands space is a treasure. Please keep it protected.
148: My biggest concern is that not everyone picks up after their dogs. Even with the bags provided. Maybe some encouraging signs would help? More disposal location in and around town?
151: Doesn't feel safe to let kids go unsupervised with strangers in town. – Especially covid issue. Dog poop. Is there a specific space unhoused people could stay with support services?
154: P.S. It's also a good cell service area . Transients parking at night and day.(We encountered a very angry and violent couple!) Careful not to create welcome space to tourists / transient use - Locals already getting squeezed out by travelers...
167: Love it
170: Love the musical events

Possible Uses

105: Whole area should be designed as one appealing attraction not a bunch of different things. Perhaps done over time
126: Yes please (Dog Park)
130: No Mention of adding in any of public restroom in any of these new areas (No Change)
131: Baseball, kickball, horseshoes, bocce, adult exercise equipment (Baseball field – only vote)
132: City has money to start this and develop a 5-year plan. Do it – and pay for it. (Donation)
136: No way (Dog Park)
138 : So far so good – hope this survey helps.
141: Would attract homeless people to cook and get warm (Fire pit)
143: Native plantings (Open space) Expand existing?/New? (Children's play area)

151: Might be fun to have neighborhood teams adopt some maintenance jobs.
157: Last year Yachats City Council voted to ban part time residents without reduction in water/sewer bill nor taxes. Some full-time residents still promote this divisiveness. I continue to donate to Yachats, but hesitate to commit to additional at this time, as we've taken on volunteer opportunities to Waldport now.

Fire Pit

103: Great idea since we don't have anything like this now. Maybe it could be combined with a small screen area for movies. (Dual Use)
105: +Cozy -limited use. Could fire pit be part of gathering area for events.
108: Fire danger outweighs this idea
111: Close to the shelter and commons (like)
112: Not likely to be used very often
117: Easy access to beach for fires. Save this space for a different use.
120: Looks nice for medium sized groups
121: Redundant: people have fires on the beach
122: Keep things natural
127: +Community, -Hokey
129: Dislike smoke and could attract homeless
130: No mention of public restrooms being added in any of these areas
131: Depending on size it prevents activities
133: I like the idea of a place to gather with the community, but it would need good rules.
138: Would serve as an inviting gathering place for community and leave space for other additional uses around it.
142: Fire danger during warm months. Trash and half burned logs (Just like the beach)
144: Open it up. Seating too close together (Ed. referring to picture?)
145: These are often installed but rarely used.
148: It seems nice but I don't imagine it getting much use
149: I like the idea, but windy on coast. Not sure how much it would be used.
151: Concern re. risk from unsupervised fires
154: Dangerous – potentially. And limited seasonal use
160: Love the idea of this but concerned people would a) burn garbage b) leave embers unattended (both of which happens regularly when tourists are here)
161: A safe place for fire pit
162: I like the winter solstice but how many times would it be used
163: Attractive idea. Keeping the area garbage and "butt" free might be a challenge
164: It will not be used real often but if build it might attract interest by renters. The issue will be cleanup after use.
166: Good for solstice bonfire. Weatherproof benches?
167: Locals reserve
168: Localizes a fire area where people could visit, hear planned talks, events

Picnic Area

103: We have a picnic shelter already – waste of money
110: Good idea

111: Need trash barrels. Great for visitors
112: Generally good idea but who will keep the tables clean and remove trash
114: Place for families to gather off the highway
120: Spread out tables. Nice for visitors
121: Tables are already sprinkled around the area. A few more wouldn't hurt.
127: Like as long as within certain area yet spaced
129: Again, attract the homeless
130: No mention of provision of additional public restrooms being added in any of these areas
131: Very few eating events happen outdoors here
132: Gathering spot away from crowds, restaurants. Can be used for local or outside groups
133: This is something we lack, which makes it a good idea – especially for restaurant take-out.
138: Rather have them in the covered area already there
141: I think people would use it to picnic especially with dog park
143: Small grouping and some individual tables in other areas
144: Need Bar-B-Que sites!
Folks need place to sit and gather and eat – with Covid lots of take-out
149: Mostly too windy on the coast to enjoy
151: Nice place for friends/family to gather safely
154: Careful not to block open space
161: It would be a safe place for families to get together
163: Spread out
164: Outdoor space for families to be comfortable. Garbage will be an issue.
165: Just a few, maybe 2-3. Again with rain and our north wind, will not be used. Suggest put in two and test. Also, will become a sleeping space for homeless
166: Best alternative to open spaces
168: "Captures" families passing through who might shop after have a picnic. Promotes local food buying also.
170: Would be nice for Farmer's Market

Dog Park

103: Too much space for dogs. We have MILES of beach for them!
106: Dislike – encourage off leash dog handling. "My dog doesn't bite" mentality; in the park or outside the park. Dangerous. My dog has been attacked by off-leash dogs.
108: Space better for people not pets
110: I like this because fecal matter would be contained and not a problem for children
111: Will pet owners remove dog poop?
112: Not important. ½ is too small for dog park. What percentage of citizens own and walk their dogs?
116: I think it would become very muddy and unpleasant in winter months. A waste of prime greenspace in the city.
120: Wow, the cleaning and upkeep
122: There are too many dogs around as it is with their oblivious owners
126: Yes!! Love this!
127: Dog parks are unsanitary for dogs. Eyesore. Nuisance
128: Not attractive. I love dogs, but this pic looks like dirt.
129: Would not use as I don't have a dog and would be littered with poop!
130: Nothing mentions about cleaning up dogs leavings and providing signage and facilities to do so
131: Excludes any other use

132: Make it small, fenced. It can work. (See city of Gresham's small park)
133: We have beaches for this, but I'm not opposed. I just don't have a dog!
136: No Way
138: I don't have a dog but many here do and would be a nice to throw a ball or frisbee if fence off.
141: We need off leash area. Tourists would also use. Must be big enough to be useful and stay clean. Florence has a good model.
142: It would become a mud pit
143: Takes up too much space – benefits only a few
144: Too limited space for this
145: Dog parks are desirable – but lots of problems – from waste to interactions
147: Please don't. This will ruin the wetland area. The entire city is for dogs already.
148: I'd love to see an area where dogs can play off leash
149: Not a dog person
151: Like a place dogs can safely play, and random poop piles be reduced. And not-dog people can safely walk elsewhere.
153: I would like less poop around. I also am sad when I see poop bagged but left on the side of trail or road.
154: Limited use by non-dog owners. No, please! Enough dogs already! Invites use by travelers. Need poop patrol?
160: Ongoing maintenance costs seem high. If this happens, leave grass – bark chips are awful.
161: A safe place for dogs to run loose
162: They need a place to play!
163: Poop bags and garbage can would be essential. Signage and a two separate entrances pointing out courtesies and expectations e.g. check with existing users before releasing your dog. Gener open field area should have a poop bag dispenser ang garbage can. It is disheartening to see all the dog poop and the bagged poop.
165: It will be used despite weather; already have a group interested in writing grants and maintaining it. Have an umbrella 501 © (3) to collect donations and write grant applications.
166: Only used by dog owners, not everybody. Area is too small to be adequate or safe.
167: We need it
168: 1) Good to enclose dogs to a space and limit waste in the common area. 2) Protects kids
170: We have many dogs in Yachats

Open Spaces with Planting

101: A park setting for all to use would be great when the beach is too windy
103: Great – like a real park!
111: Signs or labels on unusual plants. Concentrate on native species.
112: Great idea. All citizens and visitors can enjoy this.
114: Everything
120: Complements the areas trails
121: Again, we are surrounded by plants and open space
127: Love it
129: Again, more areas for the homeless
130: No provision of public restrooms being added in any of these areas
131: Upkeep, Upkeep, Upkeep
132: Lots of this around already – The ocean!
133: We have nature all over town – Log Church garden, wetlands, Gerdemann, etc.

138: With the above considerations plantings could still be accommodated around perimeters and strategically placed
142: It would be very attractive.
144: More plants/flowers the better
145: We have lots of visitors who need idyllic stopping places
148: Love all the nature
149: Contemplative area
151: Outdoor places to visit/contemplate: good use of space
154: Please design to keep open spaces available. Native plants with modest signage.
157: Would like more places to sit. I'm old enough that a rest before walking home is welcomed.
161: It would be a place to relax
162: There are a lot of places to sit around town and trails/paths to walk.
163: Do not clutter up the whole park area
165: We have lots of paths – people rather be on the ocean. Again, north wind and rain are deterrents.
166: Contemplative
167: Natives
168: Keep it simple, low maintenance,

Horseshoe Pit

103: Not sure how much this would be used?
111: Who provides the horseshoes? Donation by users?
112: In practice, how often would tit be used?
120: Fun outdoors activity
121: Community activity site
127: Also Bocce
131: The equipment is hardly ever available. A better check-out is needed even now.
133: We have horseshoe pits?
138: Don't see need for this
141: No interest
142: It would be fun to play
144: Who plays horseshoes anymore?
151: Indifferent to horseshoes, but don't mind
154: Could this be a complement to other option (open spaces)
162: As long as it doesn't take any more space than the current one.
165: Will it be used?
166: Never seen the present one used!
168: It's cheap, something for <u>everyone</u>.
170: Would rather have Bocce Ball courts

Screen Wastewater Plant

103: Shrubs along fence – good idea. We already have a boardwalk through wetlands to the library.
105: Love idea if it screens power plant
106: Using bird attracting trees (Pussy Willows are great for migration) – self re-seeding – wax myrtle
110: Good idea to have a clear trail to library to avoid trespass on nearby homes.

112: Good idea
116: I know they are invasive, but please keep "some" blackberries. I harvest.
117: Love the idea of screening the waste water plant using native shrubs and a trail
130: This should be a necessity
131: Keep the existing trail through the wetland from being fenced off now.
133: I think this would be nice for that neighborhood. Now if you could address the occasional odors….
141: Would be easy and cover the eye sore
144: Fine like it is.
145: Just a plain old good idea
147: Great
149: Great! Maybe it will also absorb odor!
151: It'd be nice aesthetically – can library expansion funds help with this?
153 This would be nice.
154: Already lots of trails in area – and a beach!
161: Love nature
162: Hiding the waste plant would be a major plus as would more trails
163: Great idea
165: Containment from wastewater plant and road.
166: A natural area with trails?
168: Ask local business to donate a plant, or individuals to buy one. Inexpensive and inclusively allowing more people to "own" the upgrade

Speakers Area

101: This design looks dysfunctional, but a simple covered stage like we in Sisters would be nice. People bring their own chairs for events.
103: Great – we don't currently have a good outdoor space for speakers/events
111: Should speakers make reservations, passing out flyers
112: There is already too muck talk and not enough action in this village
127: Just, No
128: Not sure about the design here. Looks like a Mayan structure
132: A gathering spot in nice weather is fine. or for music/entertainment?
133: The commons is good and weather proof.
138: Could be done at fire pit area
141: Hard to hear with wind and traffic
144: Need larger concert area (seating?)
145: Will it be used? - Has it been used?
147: Kids will love it (Ed. But rated a 2)
149: Not necessary at all
151: Meh, doesn't seem much call for this.
154: May invite unrest/political noise. No need – easy to set up anywhere already.
161: The Commons is good enough
162: This would be nice for mini concerts
165: Won't be used because of weather. Rain and north wind. Picnic shelter not used until it was enclosed.
166: Not in this climate!

168: “Air” pollution. Although I hone everyone’s right to free speech, I don’t want it happening near “play” areas for the common by proselytizers.

Native Plant Garden

103: Good but we do have community gardens already. Plantings could be incorporated into open spaces/planting areas.
110: Good idea but needs “weeders.”
111: Get garden club help or from members of the community garden
112: Downside is who will look after it or will it be left to become an eye sore
114: Butterfly habitat
117: Maintenance
120: Calming
121: Will help new residents with planting ideas. Add a picnic table or two. Name tags with native uses.
127: Gardens always good
129: Could be interesting
131: Without constant care native plants rapidly turn to weed patches
133: Maybe incorporate this into the signage initiative? Logs of our sidewalk gardens have native plants, as do our state park beach areas.
138: Would rather see this in the existing wetland area.
141: Always nice to have
142: Be very pretty and birds would love it.
143: Identify as a native plant garden and identify plants.
144: OK idea
145: Lovely ---
147: Beautiful
149: Any design that brings in more plants is optimum!
151: It’s be nice: not essential though – unless a list could be generated and people could sponsor the purchase of plants. Maybe create signage about the plant, anything from science to poetry, traditional uses, etc.
153: I would like to learn more about plants that can thrive here. (besides blackberries and ivy)
154: Cost!! Limits use of open space. Could combine native local plant ID (simple signage) with other use option.
160: Seems like a lovely idea.
161: We have native plants all around now!
162: Love the idea but isn’t that what Prospect Park is
163: Love this idea. Weeding however be some work. Combine this with pathways and seeting. Plani in the +mulch to reduce water needs. Given months of notice Coak Creek Nursery (Ed. commercial only) would be a great supplier and offers a discount. Thompsons would be good too. Native plants. Pollinator friendly – seasonal long coverage…(more re. native plants)
165: This could be combined with a few other areas. But who will maintain this?
166: Nice idea

Children’s Play Area

103: We already have a great playground, tree house and skateboard area for kids – enough!

105: Current playground is sufficient
111: Should be supervised by adults on weekends
112: Children already have a fenced play area
114: Everything
121: Don't we have one?
122: The entire area is ideally free of dog waste
126: The kids already have playground?
127: Baseball!
129: Already have this
132: Not really used for that now – but consider it.
133: We already have a playground
136: No Way
144: Take too much space
148: There shouldn't be dog waste if everyone picked up after their dogs.
151: The kids need a secure place fee of poop, glass, etc.
153: Yes, please!
160: There's already a playground and skate park, basketball hoops, and…the beach!
162: The kids need a place to play on the grass
163: Poop dispensers and garbage can could remedy this.
165: If a dog park is built, this concern will be addressed.
166: Already have a play area. Other used could be played in.
168: This is a health and safety issue for children because of some dog owners who don't pick up waste

Art

103: Love this – we don't have enough outdoor art here
105: Sculpture would add a lot.
111: Needs a director
117: Great idea if we could have it along with a ballpark
120: Shows more about the community and the arts
121: Sculpture garden is a good idea as well as a gallery of art given of artistic nature as a community
127: Yes, but in out of the way places
129: The weather could be an issue. Vandalism could be an issue.
131: Rusts, Rots, Recycled
133: Art makes a town rich in beauty
136: No Way
138: Incorporate into design with fire pit etc.
141: Would need to be weatherproof. Vandalism is a concern.
144: Easy to damage or get hurt on
145: Enhances area – promotes local artists
147: Beautiful
151: That would sure help beautify the park and celebrate local art.
154: Too busy. Not environmental. Limits open space and $$$. Local wall art in community, civic buildings best.
160: It's important that we honor the indigenous people
163: Ooh! Please
165: Okay
168: Get funding from Oregon xx(Ed.?) for Art program

170: Rather, more space for activities

Signage

103: We have signage like this already on the many trails in Yachats – overkill
105: This is very important and could it be combined with area are by using Native sculptures.
108: Love this for community and visitors
110: Great idea!
112: Good idea provided signs are well secured and not end up as tourist souvenirs
117: Education opportunity
120: There is a great history here.
121 Prefer a pamphlet with maps and simple number sign referenced therein.
127: Sure, why not. But, not in the middle of the field
129: Interesting information
130: Provides visitors with information about the Yachats community and surrounding areas to visit
131: Signs are fine but they don't need to take up the field
132: Put to side – not in middle of fields, open space.
133: Love the ability to educate about history, culture, plants, stewardship
136: No
138: Can be done around are without much problem
141: Always good
142: Very interesting!
143: There will be more focused interpretive signage along the 804, State Park, and south of estuary. None needed at Commons areas
144: Information about area History
147: Respectful
151: Its important, IMHO, to remember to learn about and honor indigenous people on this land – their ongoing ceremonies, cultural events
153: I do like to learn more about history and I think visitors would too.
154: OK if not dominate space or limits open areas. "sign, sign, everywhere a sign.." Careful
157: Yachats has beautiful commercial area, but always room for more art.
162: This should be able to go along with any/all other ideas
163: Wildlife also – pictures, description, etc.
165: Have two signs that describe local Native People, but most are on trails that public will not see.
166: In conjunction with another use.
170: Important!!

Contemplative

103: We already have lots of quiet spaces in Yachats
106: Would it be practical to dig the pound deeper? At one point someone added fish int the pons. A long GB Heron was very happy for a few days. Ate them all! There was even a young mink for a brief while.
105: A labyrinth would add a lot. Perhaps this is where native plants could be incorporated.
113: Personally, don't care for this design. (Note: scored as a 4, pointed to illustration)
121 What, we don't have enough in our environment already?
128: Like the idea but not this picture
130: Marie Green, a long-time librarian, would have loved this. Should be named for Marie!
131: You saw what happened to the one that was never finished by the library

132: We have the ocean and our own backyard spaces
133: I love labyrinths. Yachats is a spiritual place.
138: Go look at the natural areas all around Yachats already here to contemplate, use and enjoy
143: The existing paths, boardwalk and benches serve that purpose
144: Waste of space. That's what ocean/beach is for
148: Love the idea but we already have it
151: Love the idea of having a labyrinth
154: Narrow target group. Fills useful space
157: Would love a maze here. Not just occasional beach sand maze.
161: You already have this!
162: We have the ocean for that.
163: The wetlands, more plantings, particularly native would provide for this
165: Personally, don't think it will be used when one has the ocean and forest land available. Also rain north wind and smell from wastewater plant will be a deterrent.
166: Already outdated idea.
168: No – go to the beach,Take a walk thru the marsh paths!

Ball Field

103: Wasn't used often before, why spend $$$ now?
106: Good luck with that. (Re. rodent proof) I did the original promotions (interpretive) paintings for the promotion of the ball field. The ball field wasn't used much. Never thought about the moles being a problem – that may account for the lack of usage.
110: We used to use this area a lot – don't know about today.
111: Have teams for age groups. Invite teams from nearby areas.
112: Not important
116: The weekly baseball games were a great community event. It would be great to bring them back.
117: Baseball
121: Maintenance nightmare and many, if not most, residents wouldn't be using enough
122: I like the "rodent resistant" part
126: No – doggy park please!
127: Rodent resistant materials? Not: Artificial turf. Yes Baseball (wiffleball, soft, etc.)
128: Love baseball but would it be used regularly? By whom?
129: Too expensive and too high maintenance
131: It doesn't have to be pro quality Astroturf. Just useable
133: Not sure who's young enough to enjoy this
136: No Way. Not used much B4
141: If it could be done and maintained. The ball games were fun.
144: Yachats is not a "sports arena"
147: Only a few will enjoy this
148: Can't imagine much use?
151: Ball games really reflected community spirit. Would like to see them resume. Need to examine ecological impact of "rodent resistant materials" What are they and how would they affect the ecosystem.
154: No need for elaborate field. Just not tattered. Light clean-up enough…$
157: I enjoyed walking to town and watching the cooperative play for a while and talking to others. Was sorry to see this move to Waldport.
161: If it would be used!

162: The materials are not good for kids to play on.
163: Maintaining a rodent free area???
165: Except for (one person) I have heard no other interest.
168: Love Baseball!
170: Like the idea of sports field – city leagues, etc.

Thoughts and Additional Suggestions

101: I think the wetlands provide a contemplative are that can be used somewhat like a formal labyrinth. More paths and plantings and more seating (maybe even a couple picnic tables on new and existing trails and boardwalks would be nice). It's already charming and special, why not enhance and expand on what we have. Native plants would be low maintenance and informative new-to-the-area gardeners. With no children I don't know the needs we have in that arena.
102: Tennis court/pickleball courts would be my top suggestion. Pickleball courts can fit on 1 tennis court.
105: I would like to see the selected elements coordinated to create an appealing area. I've suggested ideas for combining some of them. This could be really exciting especially if it evokes what is special about Yachats.
106: I've run my little dog on the field but stopped out of fear he would break one of his legs when he hits a mole hole
111: Thank You!! Open the Common's for exercise and cultural events, performance, films. Thank you for the chance to participate in the survey. Good work!!
112: The space in question should be used for the benefit of all citizens and visitors not just a select few. It's an attractive green space in the downtown area and its development should be considered carefully for the benefit of all in particular the citizens who live here.
116: Since I realize a "full" ball field is unlikely, how about a min-ball field? It wouldn't require nearly as much space. And could be used by kids for kickball or other similar games. I guess some adults also play kickballs, now that I mention it. And whiffle ball could be played there as well. No need for a backstop for this type of field
121: Native plant area, Native plant area, Native plant area, Native plant area
123: Dog Park, Dog Park, Dog Park
129: Yachats already has commons grounds plan prepared by a Harvard educated urban landscape planner. This a good start and we should follow that plan. No need to reinvent the wheel.
130: Please put ½ of the available space into public parking. The congestion around the Post Office and C&K and badly designed and very congested with parked cars and RVs.
131: We played ball there. Local kids in Youth and Family played there. Summer visitors, adults and kids played there. 4th of July there were many people played there.
132: 1) Think big, 2) Don't let people nitpick this to death. You will not, and cannot, please everyone. The loudest voices are not always the correct voices 3) Make a plan, fund it it over 5 years. Do it 4) It's the best municipal underutilized open space in miles. Make good use of it.
138: Thank you for providing this opportunity for community input. We love Yachats!
139: This city does not respect "2nd homeowners/nor property managed short term rental owners. Thus, do not expect the support that we have given in the past. Main issues = ability to transfer our STR license to a new owner – we are neighbors not enemies.
141: Indoor swimming pool
151: Also need to consider what water usage would be required to support some of these options. Would any of them (E.G. Firepit) increase insurance risks/costs? Would any of these tend to invite

vandalism? -How can we still nice things. Would additional lighting be required and how would that affect our move toward dark skies? How would the recent Bill (HB3115) to allow public camping potentially affect/interact with suggest upgrades. (could there be designated spots? Even in general, would increased use of park require more access to toilet / handwashing facilities, garbage receptacles and pickup? Dog park would require poop bags and receptacles – waiving responsibility. Is that even Legal? Or specific insurance? – check out dogbitelaw.com (Jeez, I'm thinking like a grownup :`. This all sounds like fun. Thanks for asking. Nice presentation of options.
152: Are you asking us for cost? (two cost items) This statement is in reference to??? In the future, provide clearer instructions, thx. (ED. Did not rate any items, therefore defaulted to score of 1)
153: I wish there was a way to get from 4th to 7th without make a left onto 101 North. I think this is a wonderful place to live. Thank you for sending out this question survey.
157: Thank you for such an excellent survey. Explaining each category, with photos and text, surely increases the validity. Additional parking and restrooms may be needed, even for locals, to enjoy these wonderful features proposed.
161: Don't try to do too much!
162: A place to walk, play, swing, climb where the area is poop free.
163: Thank you for sending this survey out
165: Some of these ideas sound great but not for our weather.
166: The use need to be available to all; families, the elderly, visitors. The city holds and managed that space for the the citizens, not a specific group. It is essential that it is available to the widest possible number (ED.?) of the citizenry. This is the only open space the city owns, of any size – please keep it that way.

Release of Funds for Yachats Common Green Space

Be it resolved that the Yachats City Council release funds of up to $60,000 allocated in the 2021/2022 Commons Capital Reserve budget for the design and engineering of the Commons Green Space area.

- Various groups requested purpose dedicated uses of the Commons Greenspace. Prior to endorsing these requests and following a detailed review of the 2011 Parks Master Plan, the Parks and Commons Commission solicited public input via a survey sent to the 900 entity Yachats mailing list with 234 responses.
- The survey results were compiled, made available to the public and presented in an open forum with opportunity to comment on the results. (Presentation attached). The major findings are that the public would prefer additional plantings, landscaping, and gathering areas.
- This proposal includes topographical and geotech surveys, landscape and furnishing design and layout, plant selection, and construction plans. While not included, the work could be expanded (likely at additional cost) to include a study to determine the status of the wetland pond and associated costs to maintain its health, and engineering evaluation and costs for boardwalk rehabilitation.
- The RFP/RFI will include additional public input following design options and require that local, Central Coastal biologist/plant experts be consulted as part of plant selection.

This proposal supports the following City Council Goals.

Prioritize and demonstrate environmental responsibility in all actions and decisions

2) This project will incorporate native plantings thus protecting the area's natural resources
4) Lawn grass is a monoculture requiring mowing and is ecologically unsustainable. Diverse plantings will positively impact our planet.

Strengthen relationships with Community

3) This project includes public requests to the Commission, surveys to all property owners with 234 returned surveys, a public forum addressing the results and soliciting input. Additional public forums will be part of the detailed design process.

Excerpt from Council Rules

3.1 Annual Goal Setting
In January of each calendar year, the City Council shall hold a public Goal Setting Work Session in conjunction with the appropriate City Department Heads.

3.8.1
Procedures and Objectives
Goal Input. During the preceding November, the City shall solicit comments from Commissions, staff, and the community for additions to and amendments of City goals. Review. The City Council shall consider community strategic needs, review existing goals as they relate to those needs, and revise goals as appropriate.
Scope of Considerations. Goals may be both short-term (1-5 years), and long-term (5-20 years).
Budget considerations. Adopted goals shall serve as preliminary groundwork for proposed budget recommendations.
Timetables. The council shall set realistic timetables for accomplishing goals after consultation with appropriate commissions and staff.
Implementation. Appropriate Commissions and Department Heads shall prepare implementation plans for each City Goal Action and written evaluations shall be conducted every six month to measure programs.
Mid-Year Review. In June or July, staff and commissions shall review progress on goals and make adjustments and recommendations as needed.

Council's 2021 Goals

Improve timeliness, relevance, quality and effectiveness of city service delivery

1. Recruit, evaluate, and hire city manager.
2. Survey residents to identify their experience with and expectations of the City services.
3. Evaluate the responsibilities of the City Manager, as well as those of staff members, to ensure that they meet the needs of the Yachats Community.
4. Improve effectiveness of code enforcement.
5. Bring Accounting Services in-house.
6. Finalize Water Master Plan and work on priority items, taking care to keep water plant running smoothly.

Prioritize and demonstrate environmental responsibility in all actions and decisions

1. Identify priorities relative to water sustainability.
2. Review all city plans and Capital Projects with the objective of preserving and protecting the area's natural resources.
3. Effectively partner with local organizations committed to our community environment.
4. Encourage staff and commissions to act on opportunities that positively impact our planet.

Strengthen relationships with Community

1. Communicate with citizens by providing written minutes, website content, and monthly newsletter, using updated contact information.
2. Develop collaborative relationships with business owners and the Chamber.
3. Organize public forums and surveys to gather citizen input and guidance on city projects and initiatives.
4. Sponsor low-cost events and activities that contribute to the well-being of the community.

Provide a safe environment

1. Monitor and complete Ocean View Drive Project. (Boardwalk Project will not be completed in 2021.)
2. Manage the city's response to the Pandemic using guidance from OHA, CDC and citizens' input.
3. Ensure that intersections and streets have appropriate signage and other modifications to protect citizens and visitors.
4. Prioritize maintaining adequate water flows for fire safety and user needs.

Demonstrate Financial Responsibility

1. Practice long-term planning, making choices that allow the city to build up reserves.
2. Reevaluate the Finance Committee in terms of expertise needed on the committee and the role of the committee.
3. Seek a plan to address and prioritize city projects and apply for grants when available and useful to suggested projects.

Housing

1. Appoint a taskforce to seek and identify avenues to address the lack of affordable housing for moderate to low-income citizens.
