Meeting ID: 896 5449 8587

Regular Council Meeting

- I. Announcements, Proclamations, and Correspondence**
- II. Public Comment** – limited to items not on the agenda
(5-minute limitation per person)
- III. Public Hearing**
 - a. Proposed amendments to Chapter 8.22 Water Shortage
Emergency Regulations of the Yachats Municipal Code
 - i. [Link to the ordinance](#)
 - ii. [Link to suggested verbiage for conditional use](#)
 - b. Chapter 9.04 General Provisions & Definitions, 9.24 R-4 Residential
Zone, 9.28 C-1 Retail Commercial Zone, 9.52 Supplemental Use &
Design Standards, and 9.72 Conditional Uses of the Yachats
Municipal Codes.
 - i. [Link to the ordinance](#)
- IV. Consent Agenda** – vote to approve
 - a. The City Manager and City Staff report

The Yachats City Council meetings are open to the public and interested citizens are invited to attend via Zoom. These are open meetings under Oregon law, but a work session is not a community forum; audience participation is at the discretion of the Council. Meetings are audio-recorded. The meeting are accessible to persons with disabilities. For accommodations, please call (541) 547-3565, or Oregon Relay 1-800-735-2900 (TDD) two days in advance. City of Yachats does not discriminate on the basis of race, color, religion, creed, gender, national origin, age, disability, marital or veteran status, sexual orientation, or any other legally protected status. Sign language or foreign language interpreter may be available, with advance notice. Call City Hall at 541-547-3565 or Oregon Relay 1-800-735-2900 (TDD) two days in advance.

CHAPTER 8.22
WATER SHORTAGE EMERGENCY REGULATIONS

§ 8.22.010. Definitions.

As used in this title:

"Approved City agents" means persons trained by City personnel to read meters and report the readings back to the City for the purpose of reading meters more frequently to enforce this chapter's provisions.

"Commercial large meter" means those users of meters one and one-half inches or larger and billed under the City's water system as "commercial large meter."

"Commercial water" means water used by commercial users with meters smaller than one and one-half inches and billed under the City's water system as "commercial water."

"Flow control nozzle" means any handheld nozzle-type device in proper working condition, affixed directly to the hose and requiring hand triggering to allow flow.

"Gray water" means water from a water system for which a permit has been obtained under the authority of ORS 454.610.

"Hot tubs, whirlpools, and spas" refer to large bathtub-type vessels, jetted or non-jetted, with a capacity greater than 40 gallons.

"Outside City water" means water used by users of residential-sized meters and billed under the City's water system as "outside City water."

"Residential water" means water used by users of residential-sized meters and billed under the City's water system as "residential water."

"Transient water" means water used by users of residential-sized meters and billed under the City's water system as "transient residential water."

"Water shortage" means a status the City Council determines via resolution. Except in emergencies, as defined under Section 8.22.100, the Council's determination of a water shortage results in the water conservation actions set out under each phase in Sections 8.22.030 through 8.22.050.

(Ord. 222 § 1, 2001; Ord. 352 § 1, 2018)

§ 8.22.020. Purposes and determinations.

- A. As the result of a drought and the threat of a continued drought or other condition, the ordinary demands and requirements of water consumers may not be satisfied without depleting the water supply of the City of Yachats to the extent that there may be insufficient water for human consumption, sanitation or fire protection.
- B. The City Council finds and determines that a water shortage emergency may exist within the City's water service area and will likely continue for an unknown period, but that from time to

time, rainfall may provide sufficient water in the reservoirs to temporarily suspend the water conservation measures provided in this chapter.

- C. The City Council finds, determines, and anticipates that a situation or situations may occur or exist from causes beyond the control of the City that are not related to weather, that will result in limited quantities of water being available and are likely to exist for a prolonged period that requires extreme measures to maintain the absolute minimum of treated water for human consumption, sanitation, or fire protection.
- D. The City Council, to protect the health, safety, and general welfare of its citizens in the public interest, finds it necessary to adopt regulations to mitigate any water shortage emergency.
- E. During such time that the City Council of the City of Yachats determines that there is a water shortage, as declared by the City Council, no person or entity shall use water supplied by or through the City's water system for the reasons stated under each phase. The water conservation actions required by this Chapter shall not apply to gray water and water obtained from sources other than the City's water supply.

(Ord. 222 § 1, 2001; Ord. 352 § 1, 2018)

§ 8.22.030. Water conservation warning

- A. The City may issue a water shortage warning when, subject to Section 8.22.110:
 - 1. The combined flow of Reedy and Salmon Creek is less than 0.64 CFS (275 gallons per minute (hereinafter GPM)) and water supplied under a supplemental water agreement is unavailable, or
 - 2. According to the Palmer Drought Severity Index, the coastal region is experiencing moderate to extreme drought, and the public works director has determined that conditions warrant a warning phase.
- B. Upon determination of a warning phase water shortage, the City shall email a notice to all water utility customers or mail to those without email access. The City staff will also post on additional forms of communication, such as bulletin boards and social media, informing them of the water conservation actions, including but not limited to requesting that commercial customers only serve water on request and that residential customers limit car washing, power washing, etc.
- C. The water shortage warning phase calls for moderate curtailment. The following non-essential uses are to be reduced.
 - 1. The airborne watering of lawns, gardens, and landscaping is restricted to alternative days. Specifically, houses with an address number ending in even numbers (0-2-4-6-8) shall be permitted to water lawns only on even-numbered calendar days. Houses with an address number ending in odd numbers (1-3-5-7-9), or fractional addresses, shall be permitted to

water only on odd-numbered calendar days. All watering of lawns, gardens, and landscaping shall be between the hours of 10:00 a.m. and 7:00 p.m. of each day.
(Ord. 222 § 1, 2001; Ord. 352 § 1, 2018)

§ 8.22.040. Water conservation actions—Phase 1.

- A. A water shortage is a Phase 1 water shortage when subject to Section 8.22.110:
 - 1. The combined flow of Reedy and Salmon Creek is less than 0.50 CFS (200 GPM) and water supplied under a supplemental water agreement is unavailable, or
 - 2. According to the Palmer Drought Severity Index, the Coastal Region is experiencing severe or Extreme Drought, and the Public Works Director determines that conditions warrant Phase 1 restrictions.
- B. Upon determining a Phase 1 water shortage, the City shall send a notice to all water utility customers of the shortage, the Phase 1 water restrictions in force, and the penalties for non-compliance.
- C. Water Restriction Status—Phase 1 calls for extensive restrictions on water usage. In addition to the restrictions and prohibitions for the warning phase set forth in Section 8.22.030, the following non-essential uses are prohibited:
 - 1. The watering of any vegetation, except trees and shrubs, may be watered with a handheld watering device, bucket, or hose with a flow control nozzle, or drip irrigation system only (no airborne sprinkler systems).
 - 2. The use of water for washing and hosing buildings, pavement or other pedestrian surfaces, vehicles, equipment, watercraft, and the like.
 - 3. Drinking water shall be provided only on request at restaurants, motels, and other businesses that serve food or drink to the public. Establishments shall post "drought notice" as provided by the City in a clearly conspicuous location to apprise the public of the water shortage.
 - 4. No refilling of hot tubs, whirlpools, and spas.
 - 5. The operation of all exterior ornamental fountains, except those that only operate with recirculating pumps (i.e., without a water intake).
 - 6. Use of City water for dust control.
- D. For Phase 1, all commercial large meter, commercial water, and transient water users shall post the written notice provided by the City pursuant to subsection B of this section in a conspicuous location on the property receiving City water service within 24 hours of receiving said notice. The notice shall be posted in each rental unit for transient water users.

- E. Increased water rates—Phase 1. During the months when a Phase 1 water shortage is in effect, water rates will increase by \$1.00 per unit. A \$1.00 increase shall also apply to the units of water, if any included in the customer's base rate.
(Ord. 222 § 1, 2001; Ord. 352 § 1, 2018)

§ 8.22.050. Water conservation actions—Phase 2.

- A. A water shortage is a Phase 2 water, shortage when subject to Section 8.22.110:
1. The combined flow of Reedy and Salmon Creek is less than 0.40 CFS (175 GPM) and water supplied under a supplemental water agreement is unavailable, or
 2. According to the Palmer Drought Severity Index, the coastal region is in an extreme drought, and the public works director determined that conditions exist to warrant Phase 2 restrictions.
- B. Upon determining a Phase 2 water shortage, the City shall send notice to all water utility customers of the shortage, the Phase 2 water restrictions in force, and the penalties for non-compliance.
- C. Water Emergency Status—Phase 2 restrictions are in addition to the restrictions and prohibitions for the warning phase and Phase 1. When in Phase 2, the following non-essential uses of water are prohibited:
1. All landscape watering is prohibited.
 2. Use water from a fire hydrant for any use other than firefighting.
 3. Use of non-recirculating hot tubs, whirlpools, or spas.
- D. During Phase 2, the City Council may require all users to reduce their normal usage by a certain percentage compared to each user's average normal usage over the same calendar time period from the previous two years. For water utility accounts with less than two years of usage history, the percentage reduction shall be compared to a city-wide median usage for similar users.
- E. No water connections to new residences, businesses, or industries shall be permitted during Phase 2.
- F. All commercial large meter, commercial, and transient water users shall post the written notice provided by the City, pursuant to subsection B of this section, in a conspicuous location on the property receiving City water service within two days of receiving notice of Phase 2. The notice shall be posted in each rental unit for transient water users.

- G. Increased water rates—Phase 2. During the months when a Phase 2 is in effect, water rates will increase by \$2.00 per unit. A \$2.00 increase shall also apply to the units of water, if any included in the customer's base rate.

(Ord. 222 § 1, 2001; Ord. 352 § 1, 2018)

§ 8.22.060. Water conservation actions—Phase 3.

- A. Critical Water Supply Status - Water conservation shall be implemented in disaster conditions. It may be put into effect without further action of the City Council upon the determination by the Public Works Director that the water system has been damaged beyond immediate repair.

1. The City shall discontinue service through its standard distribution system;
2. If adequate water remains in the City reservoirs, water may be provided directly from the reservoir to single, duplex, and multiple-family dwellings, other residential uses, health clinics, and assisted living facilities. If this water can be dispersed through the distribution system without substantial losses, such water may be provided during set hours (for example, from 6:00 to 7:00 a.m. and 7:00 to 8:00 p.m. daily) to extend the treated water supply for sustaining life.
3. If reservoirs are destroyed or damaged, the City shall purchase available water from other city(ies) or water districts. The City may also contract for or commandeer private vehicles to transport water to the City. If the City cannot obtain water from other sources, the City will pump raw water with a boil water order until the critical water supply status has ended and the City's water system is functioning on a routine basis.

- B. Increased water rates—Phase 3. During the months when a Phase 3 water shortage is in effect, water rates will increase by \$3.00 per unit. A \$3.00 increase shall also apply to the units of water, if any are included in the customer's base rate.

(Ord. 222 § 1, 2001)

§ 8.22.070. Penalties.

Any person or entity violating a provision of this code shall be subject to citation as a civil infraction as set forth below pursuant to Section 1.12 of this code. Each day a violation of this chapter is committed or permitted to continue shall constitute a separate infraction.

- A. Phase 1.

1. Conviction for a first infraction (no prior conviction) pursuant to this code shall result in a written warning.
2. Conviction of a second infraction (one prior conviction) shall constitute a Class D infraction.

3. Conviction of three or more infractions shall constitute a Class C infraction. In addition, water service to the meter from which the water for the third conviction was obtained may be terminated by the City for five consecutive days as provided in Section 8.22.080.
- B. Phase 2.
1. The first infraction (no prior conviction) shall result in a written warning.
 2. Conviction of a second infraction (one prior conviction) shall constitute a Class C infraction.
 3. Conviction of three or more infractions shall constitute a Class B infraction. In addition, water service to the meter from which the water for the third infraction was obtained may be terminated by the City for ten consecutive days as provided in Section 8.22.080.

(Ord. 222 § 1, 2001)

§ 8.22.080. Suspension of water service.

- A. As stated in Section 8.22.070 Penalties, subsections A and B, upon conviction of three or more infractions, water service to the water meter from which the water for the third offense was obtained may or shall be terminated by the City for a period of five to ten days, depending on the Phase of the infraction. Notice of termination of water service shall be given in the manner required for termination of water service pursuant to Section 8.04.040. In addition to any fine or forfeiture, connect-disconnect fees shall be imposed in the same amount as for disconnection-connection for non-payment of water charges.
- B. If three or more infractions occur on transient rental properties, the City Council may suspend temporarily or, upon a finding of gross indifference to this code, terminate the transient rental license permanently.

(Ord. 222 § 1, 2001)

§ 8.22.100. Public Works Director declaring the necessity for water conservation.

In an emergency, as determined at the discretion of the Public Works Director, the Public Works Director may declare a water shortage and the necessity for water conservation actions under Sections 8.22.030 through 8.22.050. The water conservation actions shall be in full force and effect. They shall be enforced until the Public Works Director declares a suspension or termination of the water shortage. The Public Works Director shall notify the Council immediately upon such declaration, and the Council shall meet as soon as practical to accept, reject, or modify such determination.

(Ord. 222 § 1, 2001; Ord. 352 § 1, 2018)

§ 8.22.110. Method of measurement.

For purposes of determining the existence of a water shortage and the severity of water conservation actions under Sections 8.22.030 through 8.22.050, the City shall measure the flow of water at sources with developed City rights as follows:

1. The combined flow of Reedy and Salmon Creek shall be measured using a staff gauge installed in Salmon Creek and Reedy Creek.

(Ord. 222 § 1, 2001; Ord. 352 § 1, 2018)

The Yachats Municipal Code 8.22 allows property owners to apply for a conditional use permit to use water in excess of the allotted usage during a water shortage emergency. This permit can be sought in cases where there is a critical need for additional water. However, applications must demonstrate a compelling reason for the excess water usage and show that they have taken all the necessary steps to conserve water during the shortage.

Section 9.04.020 **Purpose.**

~~The purpose of this title is to promote the public health, safety and general welfare and to assist in carrying out comprehensive plans for the City including all future lands and subdivisions annexed into the incorporated City.~~

“The purpose of this title is to establish a set of zoning, subdivision, and land development regulations for the City designed to protect and promote the public health, safety, and general welfare, advance the position of Yachats as a small, coastal community, and achieve the following objectives:

1. Fulfill the goals of the City of Yachats Comprehensive Land Use Plan.
2. Ensure that land uses complement the natural beauty of Yachats’ location and its environment, which has led to Yachats’ long-standing reputation as “The Gem of the Oregon Coast.”
3. Guide the establishment of public, commercial, professional and residential uses, including their siting, design materials, and landscaping, within reasonable variation, so that they shall enhance rather than detract from the quiet coastal ambiance of the City.
4. Ensure that sufficient vacant and redevelopable buildable land ~~shall~~ be zoned for residential uses to accommodate the projected increases in year-round and part-time populations and to provide a choice of housing location, type and price, to meet the needs of the Yachats community.
5. Ensure that new businesses ~~shall~~ be of an appropriate scale to retain and enhance the small-town, oceanside character of the Yachats community.
6. Protect residential, commercial, and public areas from the intrusion of incompatible uses, and ~~ensure~~~~insure~~ preservation of adequate space for commercial, professional and other activities necessary for a healthy economy.
7. Promote safe and efficient movement of people and goods without sacrifice to the quality of Yachats’ environment, and to provide for adequate off-street parking.
8. Encourage new development to use energy-efficient ~~and sustainable~~ design, siting, and construction materials and methods.
9. Protect and enhance the City’s natural, historic, and scenic resources, including the Yachats River estuary, City shorelands, and City water supply.

10. Regulate activities within geologic hazard areas of the City and limit development that may affect the integrity of steep slopes or impact fire hazards."

Section 9.04.030 **Definitions.**

As used in this title:

~~"Apartment" means a dwelling unit as defined in this section.~~

"Bed and Breakfast Facility" means any single-family dwelling containing rooms for rent in accordance with Section 9.72.050 of YMC, excluding any dwelling that meets the definition of Dwelling, Vacation Rental.

"Building Code" means building, fire, safety, and other codes adopted by state, county and municipal agencies.

"Building Coverage" means the portion of the lot area that is covered by buildings. The area of the buildings shall be measured at their exterior perimeter. Buildings include dwellings, accessory structures, garages and carports.

"Clear Vision Area" means a triangle defined on two (2) sides by a minimum distance along vehicle pathways from the intersection of the curb line or, where no curb exists, the edge of the street, alley, or driveway surface edge, and on the third side by the line across the corner of the non-intersecting ends of the two (2) other sides. See the regulations of Section 9.64.010 (A) of this Title.

~~"Deck/porch" means an outside walking area, the floor of which is elevated more than eight inches from grade.~~

"Deck" means an unenclosed structure or platform, constructed outdoors, that may either be independent or attached to a building and is intended for the purpose of outdoor dining, lounging, and other similar accessory use.

"Dwelling" means a building or portion thereof which is occupied in whole or in part as a residence ~~or sleeping place~~, either permanently or temporarily, by one or more families, but excluding hotels, motels, and ~~tourist courts~~ resorts, with permanent provision for living, sleeping, eating, food preparation, and sanitation. Dwellings include both buildings constructed on-site and manufactured homes.

~~"Dwelling, Accessory" means an accessory structure specifically designed and permitted as an additional dwelling, which is incidental, appropriate, and subordinate to a primary dwelling on a property.~~

"Dwelling, Vacation Rental" means a single-family dwelling, duplex, or multi-family dwelling which is rented, or held out as available for rent, either in full or in part, for periods of less than thirty (30) days, such as by the day or week, excluding any facility that meets the definition of "bed and breakfast facility." The dwelling may consist of individual units or be in a contiguous form to be considered a vacation rental dwelling ~~but, however: a)~~ each individual unit is to be considered separately for licensing and regulation purposes in accordance with Chapter 4.08 of YMC, ~~and b) no more than one (1) individual unit may be located in a single dwelling in the R-1 District; no more than two (2) individual units may be located in the R-2 District; and no more than five (5) individual units may be located in the R-3, R-4, and C-1 Districts. A dwelling that is listed with an agent as a vacation rental, advertised, available by referral, word of mouth, commendation or reputation are some of, but not limited to, the ways of identifying a vacation rental.~~

“Existing grade” means the existing condition of the elevation of the ground surface at the time of permit application and which represents (1) the natural grade prior to placement of fill on the site or the excavation or removal of earth from the site, or (2) the manufactured grade following the completion of an approved grading operation including grading approved in conjunction with the subdivision of a site.

“Finished grade” means the plane on which the footprint of the structure meets the ground.

“Finished grade” means the final grade of the site after all clearing and grading has been completed that conforms to an approved clearing and grading plan.

“Height of building”

means the vertical distance from the average finished grade to the highest point of the building plus any fill above the natural grade. To determine building height, calculate the average building height for each side: Add the shortest building height and the tallest building height, then divide the two building heights by two. Add together the average height for each side and divide by the number of sides.

TO DETERMINE BUILDING HEIGHT

“Height of building” means the vertical distance from the average finished grade to the highest point of the building plus any fill above the natural grade.

Step 1. Calculate the average height for each side of structure.

X = tallest building height

Y = shortest building height

$(X + Y) / 2 = \text{Average height (H)}$

Step 2. Add together the height for each side and divide by the number of sides.

$$\frac{H_1 + H_2 + H_3 + H_4}{4} = \text{average building height}$$

"Height of Building" means the maximum vertical height of a building or structure measured from average finished grade to the highest point of a building or structure. (See Section 9.52.171 of the YMC for determining the height of a building.)

~~"Hotel" means any building containing guest rooms which are rented or hired out to be occupied for sleeping purposes for guests, excluding any facility which meets the definition of "bed and breakfast facility."~~

"Hotel" means any building used for lodging other than a motel or resort, containing six (6) or more guest rooms available for rent on a short-term [thirty (30) or fewer days], ~~or long-term (extended stay),~~ basis. The building has a lobby and check-in area, and is designed with interior corridors for accessing rooms without being outside. Guest rooms may include kitchen facilities, and guest amenities may include pool, gym, lounge, and accessory commercial uses such as restaurants, bars, gift shop, or day spa.

"Hostel" ~~means transient~~ means budget-priced transient lodging where a traveler typically rents a bed in a shared room with communal bathrooms and access to shared kitchen facilities.

"Impervious Surface" means a surface that has been compacted or covered with a layer of material so that it prevents or is resistant to the infiltration of water, including, but not limited to, structures such as roofs, buildings, storage sheds; other solid, paved, or concrete areas such as streets, driveways, sidewalks, parking lots, patios, decks, porches, tennis or other paved courts; or athletic playfields comprised of synthetic turf materials.

"Impervious Surface Ratio" means a measure of the intensity of the use of a piece of land. It is measured by dividing the total area of all impervious surfaces within a site by the gross lot area.

"Inn" - ~~Synonymous with~~ See Hotel or Motel.

"Lot line, Street Side" means the side lot line at abutting street. ~~Katherine I have a note that you were going to reference the sections of the YMC that applied to this definition~~

~~"Motel" means a series of sleeping units, each having a separate entrance, composed of one or more bedrooms and bathroom, excluding any facility which meets the definition of "bed and breakfast facility."~~

"Motel" means any building or group of buildings used for transient lodging other than a hotel or resort, containing six (6) or more guest rooms or units ~~available~~ for rent on a short-term [thirty (30) or fewer days] basis. The building(s) is designed so that ingress/egress to guest rooms is from outside the building and a short distance from parked vehicles. Guest rooms may include kitchen facilities, and guest amenities may include a pool, gym, limited food and beverage services, lounge, and accessory commercial uses such as a gift shop.

"Parking Space, Accessible" means an off-street parking space for handicap access to or from a vehicle, designed in accordance with any local, state or federal laws, including the federal Americans with Disabilities Act (ADA).

"Parking Space, Off-street" ~~"Off-street parking space"~~ means a parking space located outside of public right-of-way ~~with minimum dimensions of 18 feet long and nine feet wide, the numbers, and dimensions and construction materials~~ of which are as required by Chapter 9.48 of YMC. ~~Off-street parking spaces shall have all weather surfaces such as gravel, pavement, tile, brick or concrete suitable for parking a vehicle.~~

~~Required off-street parking spaces shall not be located in a required yard that abuts a street.~~

“Patio” means a paved outdoor area adjoining a structure.

~~“Porch” means an outside walking area, the floor of which is elevated more than eight inches from the ground.~~

“Porch” means a covered area adjoining an entrance to a building and usually having a separate roof.

~~“Resort” means a tourist-oriented establishment, having recreational, eating and sleeping accommodations located on the premises.~~

“Resort” means any building or group of buildings used for transient lodging other than a hotel, motel, or inn, containing six (6) or more guest rooms or units available for rent on a short-term [thirty (30) or fewer days] basis, and designed primarily to accommodate vacationers, conferences, or events such as weddings. The building(s) have a lobby and a check-in area, and often occupy sufficient land area for multiple lodging options, conference facilities, guest amenities (ex. pool, tennis, gym), vehicle (including RV) parking, and accessory commercial uses, such as restaurants, bars, gift shop, day spa, and the like.

“Site Plan” means a two dimensional plan accurately drawn, clear, measurable, and fully dimensioned, of a property (or group of adjacent parcels or lots under the same ownership) that is subject to a permit application under this code.

“Transient Lodging” means any facility, structure, or portion thereof occupied or intended or designed for occupancy by a guest or guests who pay rent or other consideration for dwelling, lodging, or sleeping purposes for a period of thirty (30) or fewer days.

~~“Yard” means a space other than a court on the same lot with a building open from the ground.~~

“Yard” means an open space on the same lot with a building, unoccupied and unobstructed from the ground upward except as otherwise provided herein.

~~Yard, Front. “Front yard” means a yard extending across the full width of the lot, the depth of which is the minimum horizontal distance between the front lot line and a line parallel thereto at the nearest point of the foundation of the main building.~~

“Yard, Front” means an area lying between the side lot lines, the depth of which is a specified horizontal distance between the street line and a line parallel thereto on the lot.

~~Yard, Rear. “Rear yard” means a yard extending across the full width of the lot between the most rear main building and the rear lot line; but for determining the depth of the required rear yard it shall be measured horizontally from the nearest point of the rear lot line; or, if the rear lot line adjoins an alley, then from the center line of the alley, toward the nearest part of the foundation of the main building.~~

“Yard, Rear” means an area lying between side lot lines, the depth of which is a specified horizontal distance between the rear property line and a line parallel thereto on the lot.

Yard, Side. “Side yard” means an area adjacent to any side lot line the depth of which is the specified horizontal distance measured at right angles to the side lot line and being parallel with the side lot line.

“Yard, Street Side” means a yard on a corner lot that is adjacent to a street between the front yard and the rear lot line measured horizontally and at right angles from the side lot line to the nearest point of a building.

Amending **Chapter 9.24 R-4 Residential Zone, Section 9.24.020 Permitted Uses**, by modifying paragraph K. as follows:

“K. Motel, hotel, inn, or resort on a minimum of 1.0 acre with direct access provided from U.S. Highway 101 only and with or without accessory commercial uses.”

Amending **Chapter 9.24 R-4 Residential Zone, Section 9.24.030 Conditional Uses**:

by modifying paragraph P. as follows:

“P. Motel, hotel, inn, or resort on less than 1.0 acre with direct access provided from U.S. Highway 101 only and with or without accessory commercial uses.”

and by adding a new paragraph Q. as follows:

“Q. Hostels.”

~~(Note to Commission and City Planner: We need to be sure that an applicant for a hotel, motel, inn, or resort cannot come in under paragraph K. of Conditional Uses.)~~

Amending **Chapter 9.24 R-4 Residential Zone, Section 9.24.040 Standards**:

by deleting paragraph A.4 in its entirety and re-lettering the remaining provisions;

by modifying paragraph G. Vehicle Access, by striking the words “...or to a motel.” from the first sentence.

Amending **Chapter 9.28, C-1 Retail Commercial Zone, Section 9.28.020 Permitted Uses**, by modifying paragraph N. as follows:

“N. Motel, hotel, inn, or resort on a minimum of 1.0 acre with direct access provided from U.S. Highway 101 only and with or without accessory commercial uses.”

Amending **Chapter 9.28, C-1 Retail Commercial Zone, Section 9.28.030 Conditional Uses**:

by modifying paragraph T. as follows:

“T. Motel, hotel, inn, or resort on less than 1.0 acre with direct access provided from U.S. Highway 101 only and with or without accessory commercial uses.”;

by modifying paragraph V.1, for formula businesses, as follows:

“1. Motel, hotel, inn, or resort on a minimum of 1.0 acre with direct access provided from U.S. Highway 101 only and with or without accessory commercial uses.”

and by adding a new paragraph U., and re-lettering thereafter, as follows:

“U. Motel, hotel, inn, or resort on a minimum of 1.0 acre, without direct access provided from U.S. Highway 101, and with or without accessory commercial uses.”

and by adding a new paragraph W. as follows:

“W. Hostels.”

Amending Chapter 9.52. Supplementary Use and Design Standards, by adding a new Section 9.52.190 Standards for Hotels, Motels, Inns, and Resorts:

“A. Standards for motels, hotels, inns, or resorts:

1. Ingress or egress to a motel, hotel, inn, or resort shall not be allowed from less than a thirty-five (35) foot public street right-of-way and a twenty-five (25) foot all weather travel surface, accessible to emergency vehicles;
2. Motels, hotels, inns, and resorts shall not have vehicle access to or from a cul-de-sac or dead end street;
3. Parking areas associated with motels, hotels, inns, and resorts which are adjacent to or within residential zones or adjacent to residential uses shall be designed to minimize disturbance of residents by the erection between the uses of a sight-obscuring fence of not less than five (5) feet in height, except where vision clearance is required;
4. Motels, hotels, inns, and resorts shall be designed to provide safe and direct access by emergency vehicles, as determined by the Yachats Rural Fire Protection District;
5. Except for security lighting for pathways, parking areas, and building doors, outdoor lighting fixtures for motels, hotels, inns, and resorts shall be extinguished every day between the hours of 11:00 p.m. to 5:00 a.m..”

Amending Chapter 9.72. Conditional Uses, Section 9.72.010 Authorization to grant or deny conditional use permits, by adding a new paragraph B as follows, and re-lettering the paragraphs that follow:

- B. Prior to taking action on a conditional use permit application, the Planning Commission shall consider whether the proposed use complies with the following general standards and criteria:
1. The proposed use conforms with the Yachats Comprehensive Plan.

2. The proposed use is consistent with the intended character of the base zone and the operating characteristics of the neighborhood.
3. The proposed use will be compatible with existing or anticipated uses in terms of size, building scale and style, intensity, setbacks, and landscaping or the proposal mitigates difference in appearance or scale through such means as setbacks, screening, landscaping, or other design features.
4. The transportation system can support the proposed use in addition to the existing uses in the area. Evaluation factors include street capacity and level of service, on-street parking impacts, access requirements, neighborhood impacts and pedestrian safety.
5. Public services for water, sanitary and storm sewer, water management, and for fire and police protection, can serve the proposed use.
6. The proposal will not have significant adverse impacts on the livability of nearby residentially zoned lands due to: (a) Noise, glare, odor, litter, or hours of operation. (b) Privacy and safety issues.
7. The proposal complies with all applicable provisions of the Yachats Municipal Code, or where the applicant has identified where the proposal does not comply, the applicant has obtained a Variance for such in accordance with Chapter 9.80 of this Code.
8. Activities and developments within special purpose districts must comply with the regulations described in Section 9.52.050 (Geologic Hazard), Chapter 9.36 (Estuary Natural), and Section 9.54 (Flood Hazard), as applicable.

Amending Chapter 9.72. Conditional Use, Section 9.72.020, Procedure for Taking Action on a Conditional Use Application, to read as follows:

- A. "A property owner, contract purchaser, etc. may initiate a request for a Conditional Use by filing an application with the City Recorder.
- B. The application shall consist of a completed Conditional Use application form signed by the property owner and contract purchaser or agent, if applicable, and a Basic or Detailed Site Plan, as specified below.
- C. Application for approval of the following uses permitted by Conditional Use shall include the submittal of a Basic Site Plan:
 1. Home Occupation
 2. Temporary Real Estate Office
 3. Bed and Breakfast Facility
 4. Residential Facility
 5. Private Boat Dock
- D. Basic Site Plan – Two dimensional plan accurately drawn, clear, measurable, and fully dimensioned, showing the following information:
 1. Written scale, graphic scale, and north arrow.
 2. Property boundaries with dimensions of each boundary.
 3. Building setbacks to property lines.
 4. Required off-street parking spaces and space dimensions.
 5. Required yards, including streetside setback, if applicable.

6. Driveway and point(s) of ingress and egress.
 7. Existing fences, walls, and hedges at property boundaries.
 8. All zoning tabulations.
- E. Application for approval of all other uses permitted by Conditional Use shall include submittal of a Detailed Site Plan.
- F. Detailed Site Plan – Two dimensional plan accurately drawn, clear, measurable, and fully dimensioned, showing the following information:
1. Date drafted, space(s) for revision date, with north arrow, drawn to scale of one inch equals twenty (1"=20') feet, unless otherwise approved by the City Planner.
 2. Written and graphic scale, if other than 1"=20'.
 3. Total gross and net land areas of the entire site. ("Net" is minus the square footage of any land proposed for dedication to the public, not including easements.)
 4. Label and show the lengths of all existing property lines of the development site.
 5. Label and show the zoning designations, property boundaries, land uses, and approximate building locations of all adjacent properties.
 6. Label and show the locations, widths, and names of all existing or platted adjacent public streets, alleys, sidewalks, planter strips, curbs, and other public rights-of-way, and other important features such as City boundary lines.
 7. Either as part of the detailed site plan, or on a separate sheet drawn to the same scale as the site plan, existing site features shall be shown, including ground topography (contours), wooded or naturally vegetated areas, trees of 8 inches diameter of breast height (DBH) or greater, floodplains, shorelines, wetlands, riparian corridors, geologic hazard zone, and any existing buildings, roads, trails, fences, or other physical improvements, and all existing easements.
 8. Label and show all existing natural drainage patterns, flow arrows showing existing and proposed drainage patterns, and existing and proposed swales, ditches, or other drainage ways.
 9. Location, dimensions, use, coverage, and height of proposed buildings and proposed improvements in relation to property and street lines. Clearly indicate and label existing and proposed building elements, and their dimensions to adjacent property lines.
 10. Dimensional features showing compliance with the applicable area, width, coverage, yard, vision clearance, natural resource protection standards, and other design standards as specified in this Chapter.
 11. Location, dimension, and arrangements of proposed site elements including sidewalks, parking areas, site access, and interior circulation, off-street loading and unloading, trash disposal areas, and lighting for these areas.
 12. Zoning tabulations based on the underlying zone or zones if split, including minimum lot area and proposed lot area (measured in square feet, or acres if exceeding one (1) acre); maximum gross floor area and proposed gross floor area, if applicable; maximum residential density and proposed residential density (measured in dwelling units per acre), if applicable; minimum yard areas and proposed yard areas; maximum building height and proposed building height, as

defined and calculated in accordance with Section 9.52.171 of the Yachats Municipal Code; maximum building and impervious lot coverage and proposed building and impervious lot coverage; and minimum required parking and proposed (off-street) parking.

13. Location, dimensions, and arrangement of all areas devoted to open space, retention of existing trees and vegetation, proposed ground cover, trees and other native plantings, and recreation.
 14. A copy of the last recorded subdivision plan of which the property is part.
 15. Locations and designs of all on-site and off-site improvements related to access control and traffic capacity.
 16. State or County Road Approach Permit, if applicable.
 17. Any application for conditional use shall be accompanied by fully dimensioned design drawings, elevations, and plans for any proposed principal building or structure, or any addition to an existing principal structure. Drawings shall provide building height, materials, and colors to be used.
- G. In the case where any or all of the above are unnecessary as in the case of a change of use in an existing structure, the City Planner shall determine which items in subsection (1) through (17) of this section will not be required for application. The Planning Commission may request additional items if they determine that these additional items are necessary to understand and make a decision on the application.
- H. If the request for Conditional Use meets the requirements of this title, the City Recorder shall set a time for a public hearing on the request before the Planning Commission within forty (40) days from the filing thereof and shall cause notice to be given in accordance with Section 9.88.060.
- I. At the conclusion of the public hearing, the Planning Commission may approve, approve with conditions, or deny the request, based upon the general and specific standards addressing the Conditional Use, pursuant to Chapter 9.88.

Amending Chapter 9.72. Conditional Uses, Section 9.72.050 Standards and Procedures Governing Conditional Uses, by deleting paragraph A.

Amending Chapter 9.48 Off-Street Parking and Loading, Section 9.48.010 General Requirements by modifying paragraph L.3 as follows:

“3. Motel, hotel, inn, or resort: one (1) space per guest room; hostel: one-half (1/2) space per bed.”

Section 9.52.171 Determining Height of Building - Version 1

See also:

Section 9.04.030 Definitions

Section 9.52.170 General exceptions to building height limitations

Height limitations as noted in other Sections

Calculating the maximum vertical Height of Building shall be accomplished as follows:

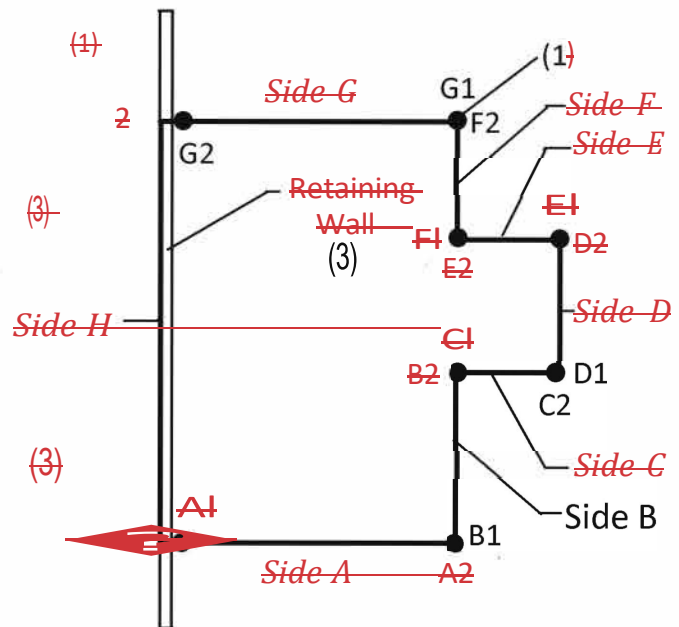

(1) Establish the finished grade immediately adjacent to the building or structure's primary walls at each corner.

(2) For each side of the building or structure calculate the average finished grade. Utilize grades at each corner of each side of the building, and divide by two. See Example.

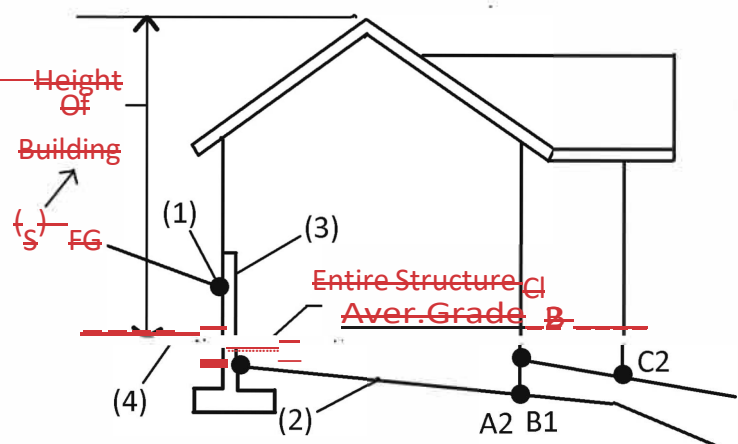

(3) Where a retaining wall occurs on one or more sides, the finished grade at the high side of retaining wall shall be used for that side, and the finished grade at the low side of the retaining wall shall be used for the adjacent intersecting sides.

(4) Add the average finished grades for all sides and divide by the number of sides = Average Finished Grade for the entire structure. See Example.

(5) **Height of Building** shall be the distance from the Average Finished Grade for the entire structure to the highest point of the building or structure.

(2) EXAMPLE: $\text{Side Average} = \frac{A1 + A2}{2}$

(4)(1) EXAMPLE: $\text{Average Grade for Entire Structure} = \frac{A+B+C+D+E+F+G+H}{8}$

§ 9.52.171 Determining Height of Building ~~Version 2~~

See also:

Section 9.04.030 Definitions

Section 9.52.170 General exceptions to building height limitations.

Limitations in other Sections of this Ordinance.

Calculating the maximum vertical Height of Building shall be accomplished as follows:

(1) Establish finished grades:

See EXAMPLE 1.

1a. Establish the finished grade immediately adjacent to the building or structure's primary walls at each corner.

1b. Where a retaining wall occurs on one or more sides, the finished grade at the high side of retaining wall shall be used for that side, and the finished grade at the low side of the retaining wall shall be used for the adjacent intersecting sides.

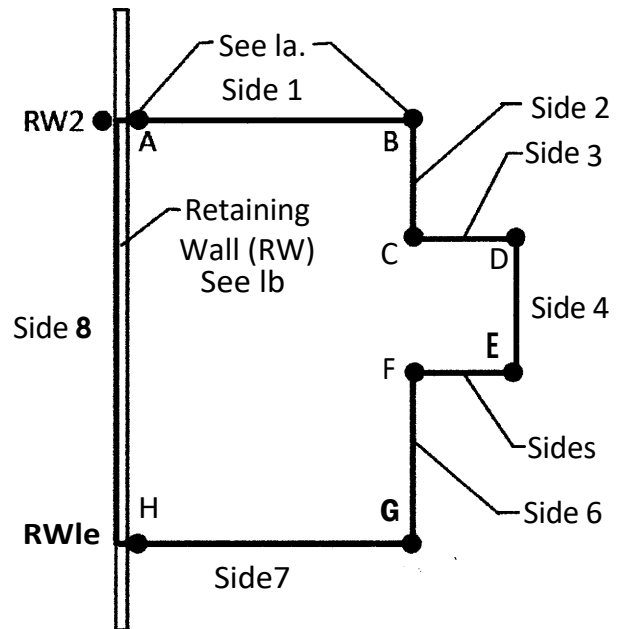

(2) Calculate average finished grades:

2a. For each side of the building or structure calculate the average finished grade. Utilize grades at each corner of each side of the building, and divide by two. See EXAMPLE 2a.

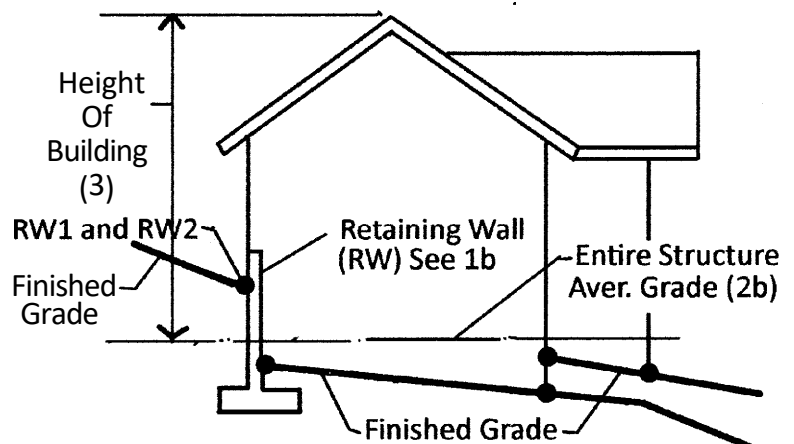

2b. The Average Finished Grade for the Entire Structure is the sum of all wall calculations divided by the number of walls; Add the average finished grades for all sides and divide by the number of sides. See EXAMPLE 2b.

(3) Height of Building shall be the distance from the Average Finished Grade for the Entire Structure to the highest point of the building or structure.

EXAMPLE 1: Establish Finished Grades

EXAMPLE 2a, Average Side 1 $= \frac{A + B}{2}$

EXAMPLE 2b: Average Finished Grade for Entire Structure
 $= \frac{\text{Sum of the Average Grades for All Sides}}{\text{Number of Sides}}$

City of Yachats City Staff Report | November 2024
501 Hwy 101 N, Yachats, OR 97498 | www.yachatsoregon.org

CITY MANAGER (Bobbi Price)

Communication Strategy Implementation

The City of Yachats strives to keep its residents and interested individuals informed about ongoing developments within the community to foster transparency and effective communication.

The City's commitment to transparency is evident through its regular social media posts, two e-newsletters, and monthly informational e-blasts. These communication channels ensure residents can access timely and relevant information about Yachats.

Wetlands

During a collaborative meeting, the city manager, planner, Department of State Lands representatives, and our consultant, Pacific Habitat, discussed the Yachats Wetlands Inventory, which has been underway for over a year. Our team effectively addressed outstanding questions, fostering optimism for the project's timely completion. The city manager will communicate with all partners to ensure the project's successful execution.

Commons Bathroom

The Commons Oversight contract position is preparing a grant proposal to the Lincoln County Economic Development Alliance for the construction of two ADA-compliant restrooms at the North end of the Yachats Commons. One restroom will have an entrance from room 8, while the other will have an entrance from the hallway between rooms 8 and 7. This project aims to improve accessibility to the commons for individuals with disabilities who currently face challenges navigating the existing restrooms. The restroom accessible from room 8 will serve dual purposes, catering to the needs of the library and providing convenient facilities for musicians, actors, and other performers during events at the Yachats Commons. These ADA restrooms will significantly enhance inclusivity and accessibility, ensuring that everyone can fully enjoy and participate in the various activities and programs offered at the Yachats Commons.

Scharen Design

On November 13 and 14, the community input meetings for the Civic Campus Master Plan will commence with Scharen Designs. The city manager will provide a comprehensive campus tour on the 13th. The 14th meeting will involve community interest groups, community activity leaders, city staff, and the Parks and Commons Commission. During this meeting, discussions will focus on the future vision for the Yachats Commons, exploring how each group utilizes the space. The aim is to identify ways to accommodate current and future needs within the community center space.

Workgroups

The city manager meets with the leaders of each workgroup on the last Tuesday of each month to discuss progress, projects, and visions. Workgroups consist of Trails/YIPs, Public Art, Keeping Yachats Beautiful, and Estuary Walkway.

[Link to Trails Report](#)

Landmark / O'Neill Property

The City Attorney has been working with the Lincoln County Counsel to create an 804-settlement distribution agreement between Lincoln County (County), the City of Yachats (City), and 1000 Friends of Oregon and Oregon Shores Conservation Coalition (the latter two known as the Public Access Interest Groups) were Parties to a mediated settlement agreement (hereafter Settlement Agreement) resolving controversies around what was described as Lincoln County, Oregon South County Road 804 Road and Trail. The Settlement Agreement was entered into in 2001 by the Parties and other potential litigants and interested agencies (including Property Owners, Title Companies, and the State of Oregon). View the Future is a 501 (c) nonprofit that is not a party to the Settlement Agreement but has obligations under this Agreement.

All groups have just executed this agreement and sent it to the County for their signature and release of approximately \$305,451 of settlement proceeds to the City for the purchase. The purchase price was agreed at \$455,000, the land's appraised value. The remainder will be paid by the city from Transient Lodging Tax funds.

Rocha Property

Following the appraisal conducted by the hired forester, the City Council has proposed a 25-year lease agreement to the property owner, offering \$76,667, and to the logging company, offering \$75,150, to compensate for their expenses. Despite ongoing negotiations, the City remains steadfast in its offer.

Ocean View Drive Transfer

On October 23rd, the Lincoln County Commissioners vote to approve the legalization of the road transfer. The next step will be to vote to transfer the road.

Continuing Education

The city manager completed her first certificate through the International City Managers Association Local Government education program and is now taking their specialized budget course.

Hosting County City Manager's Lunch

In November, Yachats will serve as the host for the monthly regional city manager luncheon. This gathering presents a valuable opportunity for county managers to engage in collaborative discussions. Attendees will have the chance to listen, learn, ask questions, and offer support to one another regarding various projects and policies they are working on.

CITY DEPUTY RECORDER (Kimmie Jackson)

Assisted utility billing clerk; Attended commission/committee meeting for the month & prepare action summaries; update agenda center with audios and summaries; Updating all city contract files as time permits; continuing to work on City Fee Schedule project as time permits; working with code compliance and will be training on inspections of vacation rentals; assisted where needed in the office and worked on general daily business.

PUBLIC WORKS (Rick McClung and Dave Buckwald)

Rainfall at Yachats Public Works:

	<u>Inches</u>			
	<u>2024</u>	<u>2023</u>	<u>2022</u>	<u>2021</u>
October	6.71	3.82	2.35	6.74
Rain year to date:	56.04	41.47	38.83	39.25

Total water produced: **3,791,600** gallons

Total water accounted for: **3,433,969** gallons Water loss efficiency: **91 %**

Total wastewater treated: **3.656,000** gallons

The following is a list of what was done by Public Works staff in October 2024.

Streets:

- Side arm mowing and brush cutting.
- Potholes filled at the LLCM, street cut on Beach Street and 9th Street.
- Installed asphalt berm on Loma Ave.

Storm Drainage:

- Storm drain repair on Greenhill.
- Riverside lift station area drainage repair.

Water Treatment Plant:

- Water systems operations.
- Water plant maintc.
- Reedy Creek headworks Inspection.
- Repairing the road to the Raw Reservoir.
- Meter replacement at Smelt Sands Park.

Distribution Sys:

- Meter reading and rereads.
- Meter maintc.
- Leak investigations.
- Water pump station maintc.
- Water service installation on Saki.
- Fire hydrant inventory.
- Public Works and South Lincoln training on the water system connection.
- Installed new water services on E. 9th Street, Hwy 101 N.,
- Completed Lead & Copper investigations required by OHA.
- New lid placed on the Blackstone reservoir.
- Repaired a major water main break on King Street.
- Brush cut around the Raw water reservoir.

Wastewater Treatment Plant:

- Wastewater systems operations.
- Plant maintc. & clean-up.
- Biosolids operations.
- Digester deck repair.

Collection Sys:

- Lift station inspections.
- Degreased lift stations.
- Repaired pump #3 at Main lift station.

Public Works:

- Shop maintc. and clean up.
- Fleet maintc. & repair.
- Equipment maintc. & repair and fueling.
- Multiple locates.
- Brush box handling.
- PW administration.
- Piles picked up for Trails crew.
- Garbage removal at the Commons.
- Samples to Newport.
- City Hall and Commons work.
- PW yard organizing.
- Added a third concrete block to the intersection of Beach Street and 1st Street.
- Work on the Commons bathroom door.
- GIS mapping of city assets.
- City Hall surplus assist.
- Installed Community Events banners.
- Work on the Pallet Shelter sewer service.
- Returned rented mini excavator to Florence.
- Installed two new benches at the Pavillion.
- Event banners hung and removed at the Pavillion.
- Brush cut escallonia at city right-of-way East of the WWTP.

WASTEWATER CIP PROJECTS

- **The Submersible Pump Plug Project:**
Final installation has begun.
- **The Public Works Roll-up Door Project:**
Project for the most part is complete. Only a few touch up items remain.
- **WWTP generator:**
Still in repair mode.
- **WWTP UV Disinfection System Upgrades:**
DEQ approved plans and system upgrade is in progress.
- **PW Design Standards:**

Still reviewing.

- **2024-25 FY Street Paving:**
Looks like paving will be in the Spring.

WATER TREATMENT PLANT

- Cross training
- General plant maintenance

Grants applications submitted

- **\$250,000 ODOT Small City Allotment** To be applied to the phase 3 E. 2nd St. project - find out in November

The city has posted a Request For Proposals (RFP) in search of additional engineers to help with our capital projects. The engineers we currently have are good, but the city has more projects in the wing than our current engineers can achieve. For a small city we have a lot of projects.

Oregon Health Authority Lead and Copper Rule

The Lead and Copper Rule applies to all Community (CWS) and Non-Transient (NTNC) public water systems. EPA adopted revisions to the Lead and Copper Rule in 2021 that include a requirement for public water systems to conduct inventories of service lines and to identify service line material type. The intent of the service line inventory requirement is to identify those service lines made of lead so that they can be scheduled for removal and replacement.

What is a service line?

A service line is defined as the pipe(s), fittings, and meter located between the discharge of the corporation fitting (aka corp stop) adjacent to a water main and a customer's building inlet. The service line may be owned by the water system, the property owner, or both. The diagram below shows an example.

What is a lead service line?

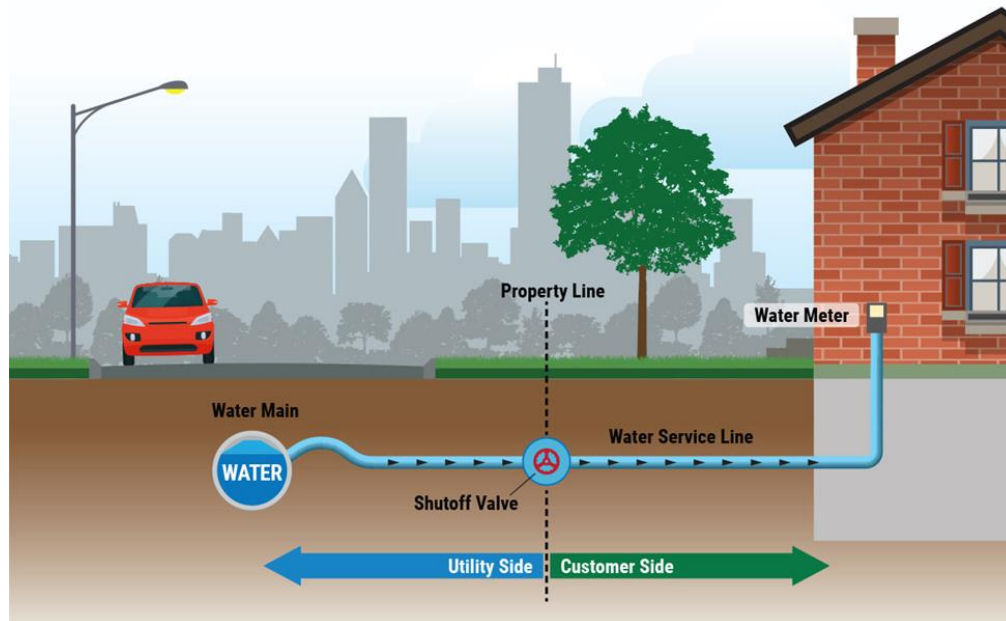

A lead service line is a service line with any portion of pipe that is made of lead, which connects the water main to the building inlet.

What is a non-lead service line?

A non-lead service line is any service line that is determined through an evidence-based record, method, or technique not to be lead or galvanized requiring replacement. Examples include plastic, copper, or galvanized lines that are not downstream of a known lead service line.

In Oregon, service lines installed after 1985 are considered non-lead because this is when the lead ban was enacted in the state. Per Oregon policy, if a water system has no current or historic records or knowledge of public lead service line use, a private galvanized line is classified as non-lead.

The city is happy to report that it does not have any service lines that contain lead.

Reservoir Seismic Structural Analysis

[Yachats Reservoir Seismic Review Structural Calculations](#)

FINANCE (Diane Gruver)

Along with my usual tasks dealing with accounts payable, payroll, and generating reports, at the end of October I attended the annual conference held by our accounting software company, Springbrook. I focused on classes related to payroll and using the newer browser-based interface for the software. I also learned about the company's efforts to shore up the cybersecurity protocols in the software, and their implementation of AI to make the software easier to use. It was great to know that our accounting program is under continual improvement and also learn that there are many tools built into it that will help us in the future. It was a good experience, and I would recommend it to other city employees who work in Springbrook.

PLANNING (Katherine Guenther)

- Usual volume of voicemail and email
- Held first few weeks of designated "office hours". Averaged 4 walk-ins per shift.
- Attended FEMA workshops on PICM model code and permit-by permit options
- Attended DLCD Coastal Planners fall workshop
- Attended first meeting of 2024 Strong Towns Cohort
- Corrected 50-year-old sewer easement on Surfside Drive
- Reviewed SDC Administrative Policy and Code
- Met with Deputy State Fire Marshall. Resolved "red tag" at Underground and crafted plan for hydrant testing and maintenance.
- Met with City Manager, DSL and Pacific Habitat Solutions to advance LWI

CODE COMPLIANCE (David Fortmeyer)

Completed Tasks

- Responded to citizen complaints/inquiries
- Conducted various property inspections
- Issued 5 notices for overgrown vegetation
- Resolved outstanding code cases
- Compiled Excel spreadsheet sheet for tracking code violation notices and complaints.
- Compiled Excel spreadsheet for tracking when vacation rentals are due for re-inspections.
- Trained with Kimmie to learn vacation rental inspection procedures.
- Scheduled next 16 vacation rental re-inspections for early December by emailing contacts.
- Attended online Cross Connection Specialist Certification class. Took final exam at BMI Portland training facility.

Key Focus Areas

- Nuisance Vegetation and Property Maintenance: Addressing concerns related to overgrown vegetation and property upkeep
- Preparation for future municipal court cases

Ongoing Initiatives

- Community Education: Educating residents and businesses on city ordinances

LIBRARY (Traci Altson)

This past month has been quiet at the Library. The Oregon Library Statistical Report was submitted prior to the 10/31 deadline. We have a new Patron Confidentiality Policy which now is linked to the Library page of our City Website.

Speaking of web pages, I have received the go-ahead to work with a graphic designer for our new Library logo and Library website so I will be working to get those designs to the commission for input and approval soon.

Our Fall Reading Program has been cancelled. Kelly Simmons our children's librarian is dealing with an unexpected family illness. YYFAP children continue to come in every other Thursday afternoon to check out books. This continues every other Wednesday. Kathy Smith brings one of her golden retrievers in each week and the children seem to enjoy that quite a bit.

The library gave out over 100 books at the annual YYFAP Trick or Treat on Saturday 10/26 from 3pm-5pm. Even with the dark stormy weather we had a great turn out.

On a personal note I (Traci) have jury duty in December.

CITY UTILITY CLERK (Becca Parrish)

- October bills went out on time.
- Created new rates in Springbrook for Vacation Rentals and Commercial Users.
- Implemented stage 1 to the new rates, the 2 units of water have been removed from these users accounts as of 11/01/2024.
- Continuing to clean up our billing system, making sure all information is accurate and up to date.
- I am working with Springbrook and Sensus to make sure the two systems are talking when it comes time to do our monthly meter reads.

CIP UPDATE/CITY COORDINATOR (Neal Morphis)

- Made updates to the city website for commission members.
- Posting news flashes on the website.
- Uploading documents to the document center.
- Working on Gantt Chart schedule of projects, adding subtasks and updating timelines. [Link to Gantt Chart as of 2024-10-16](#)

- Updating the electronic reader board sign in front of the commons.
- Posting events to the city calendar on the website.
- Making and adjusting reservations for commons rental customers.
- Assisting Fortmeyer with code compliance questions.
- Monitoring emails for public works equipment surplus responses.
- Confirmed which fencing company to use and provided them a signed quote for them to start work on the Blackstone Reservoir and the repairs at the Water Treatment Plant.
- Got login for GIS mapping software.
- Had zoom meeting with Rick and Library Architect and Contractor. Final pricing to come in soon and contract being finalized by our city lawyer.
- Met with Friends of Yachats Library with Rick McClung.
- Began research into ADA Transition Plan, reached out to contact at ODOT.
- Confirmed insurance requirements for Little Log Church Museum Contractor, emailed with Top To Bottom's insurance agent.
- Worked on Survey Monkey to modify City Manager Performance evaluation and emailed to city staff and commission and committee members.
- Working on city iPads to change out iCloud logins.
- Preparing for meeting with Scharen Design for City Building and Parks Master Plan – providing them with documents.
- Received final architectural drawings for Commons NE Stairs – reached out to a concrete contractor to get a bid on the job.
- Received final architectural drawings for Commons Pavilion upgrades.

CITY HALL/CITY COORDINATOR (Lorraine Fritz Barrett)

- Continue to greet people, answer phones, retrieve and open mail, respond to emails.
- Proofread newsletter and documents going to the public.
- Designed Holiday card and made address labels.
- Met with Planner and City Manager re: scheduling of open office hours and appointments.
- Continued learning Canva and making social media posts.
- Continued to collect and post donations for Commons.
- Worked with Rosa re: Commons Coordinator position.
- Continued to make reservations for the Commons.
- Sent email with new water restriction information and inspection process to all Vacation Rentals on the wait list.
- Selected nine (9) premises on the wait list for a vacation rental license and sent an email to set up inspections.

- Sent email to update those on wait list. (now at 25)

Commons Oversight- Temporary Contract Position (Rosa Marchand)

Mushroom Festival: I began the week of the festival with a crash course of the facility and its inner workings. My first official day on the job was that Friday. When I arrived on site, the exercise group was in the Commons' auditorium, while the event staff and vendors began unloading. An incident occurred moments later. A door from beneath the stage fell and hit a woman's ankle, from the exercise group. An incident report was filed, we gathered her contact information, she was seen by a medical professional, and the matter was resolved. Throughout the weekend of festivities, there was much to troubleshoot. Immediately after the incident in the auditorium, there was a conflict in the agreement regarding room 8, and how much of the library was supposed to be moved into room 7, to make room for vendor space. We were able to reach a temporary agreement for the festival to continue. The Pavilion then began having electric issues, due to the food truck being plugged in, while vendor usage inside the pavilion. I had restored power many times throughout the weekend. Other matters that were resolved that weekend were the following, fixing overflowing toilets, fixing sound and lighting for the speaker, the oven did not want to work, the fridge was leaking, correcting where the food truck parked to be within perimeters of fire safety regulations, keeping the bathroom and premises cleaned and well stocked. I opened the building, checked in with event staff every morning, and made sure the building was locked and secured every night. I was on call and on standby throughout the weekend to make sure all ran smoothly. Even with all the issues that needed to be resolved, the festival was able to go off without a hitch, and everyone worked as a solid team.

Repairs and improvements after the mushroom festival: After the festival we were able to meet with the Library Administrator to reach a new agreement going forward, that would support an easier transition between Library usage, and vendor space for events, to avoid future conflict. We also had every appliance in the kitchen either repaired, serviced, or replaced, to make sure they would be operational for the next festival. The doors under the stage were repaired for safety purposes. The gutters were serviced, and a leak in the roof was repaired. We contacted public works well in advanced, to schedule moving items in the commons, in preparations for Celtic Festival, such as the removal of the basketball hoops, removal of all kitchen items on the west wall to open space for dining, and the removal of all Library items in room 8, to create a greenroom for the event. We also communicated with all classes and groups, to have them canceled during the festival, to avoid any incidents with the public, while the vendors are setting up.

Celtic Festival: I was on standby and on call for any situation that could arise. I was able to assist with finding last minute items during set up. I made sure the bathrooms and building were clean and well stocked. The stove and oven stopped working. We were able to figure out that the propane tank was empty. The tank was filled, and we were able to get the stove and oven working again. The sinks in the bathroom stopped working, I was able to figure out that the sensor is battery operated and was able to alleviate the situation. The soap dispensary was having an issue opening to be refilled, I brought hand soap bottles to use while we dealt with the situation. The festival was very successful and went off without a hitch. The team worked well with one another.

Other tasks completed: I have been working on a grant proposal with Meredith Howell. We will be submitting our application this Thursday. This grant is for two ADA Compliant restrooms for the commons. I participated in and got a crash course training in how to conduct a fire drill at the Commons. I got a crash course training for the reservation site of the commons. I have been a regular presence at the Commons to assist in any matters that have popped up with YYFAP or any of the community activities groups. I also have facilitated and assisted in several private events such as board meetings, concerts, holiday events, and birthday parties.

CITY OF YACHATS
CITY COUNCIL SPECIAL MEETING
SUMMARY MINUTES
October 15, 2024

The regular meeting of the Cit Council was called to order by Mayor Craig Berdie at 12:00 p.m. in the Civic Meeting Room of the Yachats Commons. Members present: Mary Ellen O'Shaughnessey, Council President, Councilor Barry Collins, Councilor Anthony Muirhead (via zoom) and Catherine Whitten-Carey; Staff: City Manager Bobbi Price, Recorder Kimmie Jackson

I. Announcements & Proclamations

None

II. Citizens' Concerns

None

III. Vote regarding Real Property

The council discussed the urgency of a property negotiation, emphasizing the need for quick action to prevent potential harm to residents and the natural environment. The council proposed a motion to authorize the city manager to resume 25-year lease negotiations at the appraised value with the landowner and R & L Logging. The councilors were asked to discuss the motion and provide feedback. It was expressed by a councilor's preference for purchasing the property instead of leasing it but acknowledged that this option was not currently viable. The council's support for the proposal was based on the urgency of the situation and the importance of maintaining the area's beauty and safety.

It was proposed negotiating a package deal with Rocha and Howard, emphasizing that both parties must agree for the deal to proceed; and also suggested that the offer should not exceed the estimated value. A council member disagreed, stating that they wouldn't support the deal due to the potential financial repercussions and the fact that it would set a precedent for the city to spend money on issues it doesn't control. Some members acknowledged their concerns but maintained that the offer was fair and based on the appraised value. The decision on whether to proceed with the offer would depend on the counteroffer received from Rocha and Howard.

After council's discussion about authorizing the continuation of a 25-year lease negotiation at the appraised value with the landowner and R & L Logging.

The vote was call and members voted as follows:

1
2 Aye: Mary Ellen O'Shaughnessey, Barry Collins, Catherine Whitten Carey, and
3 Mayor Craig Berdie.

4
5 Nay: Anthony Muirhead

6
7 The motion passed; the mayor adjourned the open session. The city manager was
8 thanked for her efforts in a difficult but worthwhile discussion.

CITY OF YACHATS
CITY COUNCIL REGULAR MEETING
SUMMARY MINUTES
October 23, 2024

The regular meeting of the City Council was called to order by Mayor Craig Berdie at 1:00 p.m. in the Civic Meeting Room of the Yachats Commons. Members present: Mary Ellen O'Shaughnessy, Council President, Councilor Barry Collins, Councilor Anthony Muirhead (via Zoom), and Catherine Whitten-Carey; Staff: City Manager Bobbi Price, Recorder Kimmie Jackson.

I. Announcements

The League of Oregon Cities conference was attended by City Manager Price and Mayor Berdie. Details of the conference were deferred to the mayor's comments at the end of the meeting.

II. Citizens' Concerns

Brad Webb expressed concerns about the targeting of the transient rental industry and the city's handling of public information.

Jacqueline Danos asked for an update as to why the grant was not awarded to the city from the Department of Energy.

III. Public Hearings

There was a question raised to the public regarding whether the ordinance should pass after one or two hearings. No objections were noted about passing it after a single hearing.

Chapter 8.22 Water Shortage - The council discussed proposed amendments to the water shortage regulations, motivated by an agreement with Southwest Lincoln to purchase water, and considered the impact on hotels doing laundry during water shortages. There was concern about having special exceptions where the construction industry could apply for an exception in a drought. The council and city manager indicated they may be able to make a reasonable amendment for exceptions and bring it back for a second reading.

Title 9 Amendments aimed at clarifying definitions and addressing issues with the current language. The council reviewed the changes and discussed the calculation of building height, grandfathering of existing structures, and the possibility of variances.

1 The meeting focused on refining the city's zoning and development codes, including
2 conditional use permits, site plans, and new standards for hotels, motels, and resorts.
3 Resident Theilacker hoped the Council would ultimately adopt these amendments which
4 have been put forward by the planning commission which they have worked on for over
5 three years and gave a bit of history behind the changes.
6

7 Additional comments can be submitted to either the city planner or the city manager,
8 and we will consider those on the second reading of this amendment. In conclusion, the
9 hearing focused on the process of passing amendments, with most participants
10 supportive of the proposed ordinance changes and adjustments.

11 Closed Public Hearing at 2:07 pm

12 **VI. Consent Agenda:**

13 The consent agenda was reviewed, city projects, and updates, including the
14 supplemental water agreement, the new Commons person, water loss efficiency, and
15 the potential for improvements to the adjacent water plant.

16 The motion was made to approve the consent agenda and passed unanimously.
17

18 **New Business**

19
20 **Don's Place** - The presentation by Don's Place discussed changes to the winter shelter
21 program, including extended operating hours, on-site facilities, and partnerships for
22 support services. More information can be found on the city's website at the agenda
23 center.

24 **The Log Church Museum** - project bids came in significantly higher than estimated,
25 leading to a decision to rebid in the spring. The council approved a \$370,000 budget for
26 the Log Church restoration, with contributions from the Friends group and city funds.
27 The motion was called to proceed with the bid from top to bottom contractors to begin
28 work on the restoration of the little log museum. The vote was called: Ayes: Muirhead,
29 Mayor Berdie, Collins, and Carey. Nays: None.
30

31 **The FEMA Pre-Implementation Compliance Measures** - (PICMs), focus on ensuring
32 flood insurance compliance with the Endangered Species Act. This arose after FEMA
33 lost lawsuits alleging inadequate consideration of endangered habitats. Cities
34 participating in the National Flood Insurance Program must choose one of three
35 temporary compliance options by December 1, 2025:

- 36 1. **Adopting a Model Code:** Implementing FEMA's pre-designed code with public
37 hearings and amendments, though it may already largely align with existing
38 codes.

2. **Permit-by-Permit Assessment:** Each new development would require extensive habitat and biological assessments, potentially increasing costs significantly.
3. **Moratorium on Floodplain Development:** Halting development in floodplains, though many communities resist this due to potential legal risks.

The City Council is exploring these options, assessing local impact, and awaiting further educational resources and state guidance before making a final recommendation.

4. **PUD Franchise Agreement** - The document centers around a discussion on updating a franchise agreement between Central Lincoln PUD and the city of Yachats. The main points are:

- ✓ **Expired Agreement:** The existing franchise agreement, which allows for the attachment of banners, flags, and flower baskets to light poles, has expired. A new draft includes minor updates and a proposal to increase the franchise fee.
- ✓ **Franchise Fee Increase:** Currently, Yachats charges a 3.5% franchise fee to residents, lower than the 5% other municipalities charge. Increasing it to 5% could generate an additional \$24,000 annually. This would result in a line-item display on residents' utility bills, making the fee more transparent.
- ✓ **Revenue and Intentions:** The revenue increase could help offset city expenses, as property tax revenue is capped. Council members discussed reserving this additional revenue for large projects like infrastructure improvements or housing. Some hesitancy was expressed over raising fees, considering recent increases in utility costs.
- ✓ **Vote Outcome:** The council voted to raise the franchise fee to 5%, with a majority in favor and one abstention. The agreement will include attempts to remove the clause that mandates showing the fee as a separate line item if permissible under state law.

Ongoing Business

1. **SDC** - Members proposed stopping the prepayment of System Development Charge (SDC) fees and develop an administrative policy to tie SDC fees to building permits, which the council agreed to.
2. **Rocha 25-year Lease Update** -
The council instructed the city manager to reject the counteroffer and explore alternative options, with the mayor suggesting reaching out to a conservation group to potentially purchase the property.

Next Steps for reference:

- City Manager to move forward with increasing the Central Lincoln PUD franchise fee from 3.5% to 5%.
- City Manager to explore removing language about disclosing franchise fees over 3.5% on bills, if permissible.

- City staff to stop accepting prepaid System Development Charges (SDCs) until the policy is clarified.
- City administration to develop an administrative policy for accepting SDCs tied to building permits.
- City administration to review existing code on SDC payments and provide recommendations.
- The mayor is to contact conservation groups about the potential purchase of Rocha property.
- City Manager to respond to Rocha property counteroffer with the city's original offer.
- City staff to proceed with bids from Top to Bottom Contractors for Little Log Church Museum restoration.
- Friends of Little Log Church Museum to continue fundraising efforts for interior improvements.
- City Manager to transfer \$100,000 from the Visitor Amenities Fund for Little Log Church project.
- The Planner to prepare a comparison of the existing flood code vs. the proposed FEMA model code.
- City staff to attend upcoming educational sessions on FEMA flood regulations.
- City Council to consider options for FEMA flood regulation compliance at the next meeting.
- City staff to budget for full City Council attendance at the next League of Oregon Cities conference.
- City Hall staff to participate in the Halloween event on Saturday from 3-5 PM.

CITY OF YACHATS
EMERGENCY PREPAREDNESS MEETING
SUMMARY
OCTOBER 7, 2024

The regular meeting of the Emergency Preparedness Committee was called to order by Chair Linn West at 2:00 p.m. in the Civic Meeting Room of the Yachats Commons. Members present: Kathy McCullough. Absent: Don Groth, Katheryn Torrence, Tracy Cahn, Drew Roslund, Jill Asch, Susan Oppenheimer, and Steve Oppenheimer. Staff: Recorder Kimmie Jackson, City Manager Bobbi Price and City Clerk Neal Morphis. Audience: 6

I. Announcements & Citizens' Concerns None.

II. No Reports for today's meeting

III. Current Business

Discussion where it was noted that several team members were absent due to holidays and vacations; discussed the need for better coordination with Lincoln County and suggested scheduling events to avoid simultaneous times; it was proposed that multiple coastal cities could alternate hosting events to reduce the strain on volunteers; The chair mentioned working on a protocol and schedule for this, and planned to communicate these ideas to Lincoln County; also noted that while attendance was good, speaker attendance was not as strong as expected, discussed logistical issues, such as moving the kids section to a corner of the multipurpose room for better accessibility; suggested holding events on the stage for proximity and proposed adding more vendors, speakers, and raffles for them. It was estimated around 30 backpacks were sold at the event, with 10 more sold afterwards.

Continued discussion for the need to start looking at the Conex supplies and suggested sending out a list of what's in them for everyone to consider additional items to purchase; also mentioned the possibility of moving the South Water tank Conex to an adjacent piece of property but decided against it due to accessibility issues for people with disabilities. The Chair proposed identifying assembly areas and transporting supplies to them rather than trying to get people up the hills. It was suggested communicating with a group near the Yachats Memorial Park, which could be a good assembly area, and emphasized the need to establish people nearby who could respond and open the conexes; to establish protocols and procedures for utilizing and setting up the conexes. Suggested the idea of starting with the protocol and contents of each Conex and beginning the process of looking for sites for assembly areas and conexes.

Attendees discussed the need for better emergency preparedness and budgeting, suggesting an annual fair and raffle system to encourage attendance; considered

1 alternating venues between Yachats and Waldport. The city manager informed the group
2 about a tabletop exercise planned by the research associates for the Lincoln County
3 Evacuation plan for November 18th. The chair will email the committee members, noting
4 that attending the exercise could help the committee understand how a tabletop works.
5

6 **Planning and Emergency Protocols**

7 The group emphasized the need for a monthly focus on preparedness, particularly in
8 light of upcoming rains and potential power outages; it was suggested asking questions
9 to encourage discussion and planning, and the need to decide on a plan for a potential
10 power outage, such as using the Commons as a warming center. It was discussed
11 using the Commons and that it has a generator set up there, but it hadn't been officially
12 established as a shelter. Also, it was suggested the need for additional supplies like
13 blankets, mats, snacks, water, and the possibility of using the kitchen for hot drinks. The
14 team agreed to further discuss these matters and establish protocols for managing the
15 kitchen and stove during emergencies.
16

17 Member McCullough was assigned to write the newsletter that is due on the 21st.
18

Next steps

- The Chair to send out the list of supplies in the conexas for review and consideration of additional items.
- The Chair to contact Samantha at the county about coordinating fair schedules with neighboring communities.
- Committee to review Conex documents and develop protocols for setup and operation.
- Committee to identify nearby residents who could respond and open conexas in an emergency.
- The Chair will notify Groth to start working on a budget for emergency preparedness needs.
- Committee to plan for attending the November 18th tabletop exercise on evacuation plans in person.
- McCullough to draft the article for the next newsletter.
- Committee to set up a protocol for using the Commons as a warming center during power outages, and the need to consult with city staff to determine where the liability and responsibility lies.

21 **Meeting adjourned at 2:44pm**

22 **By: Kimmie Jackson, Recorder**

CITY OF YACHATS
YACHATS LIBRARY COMMISSION
SUMMARY MINUTES
October 10, 2024

The quarterly regular meeting of the Yachats Library Commission was called to order by Chair David Rivinus at 10:00 a.m. in the Civic Meeting Room of the Yachats Commons. Members present, Commissioners, Marion Godfrey, Street Schellhase, Layne Morrill and Naomi Steenson, Co-Chair; Staff: Kimmie Jackson, Recorder
Audience: 12

Announcements & Correspondence –

The chair reminded the members, there will be no more hard copies of the packet provided. Copies of the agenda will be provided to follow along with the meeting.

Citizens' Concerns - None

Reports

Chair Rivinus led the Library Commission's quarterly meeting, introducing a shift to online document access for future gatherings. Commissioner Morrill presented the budget report, indicating that personnel expenses are on track at 17%, while materials and services are at 58% due to previously low book orders. The commission discussed the library rebuild project, which is currently navigating the permit application process, noting a reduced backlog at the county. Rick McClung will serve as the on-site manager for construction oversight and emphasized the need for meticulous financial tracking to ensure that payments correspond with completed work, aiming for project completion by October 2025.

It was proposed a community event to celebrate the demolition of a building, highlighting recent developments such as the groundbreaking for a new animal shelter and the relocation of a large log from the library's front; acknowledged challenges in sourcing beams and posts for the library, warning that fulfilling such requests could lead to increased costs and delays. The meeting also covered the library's recent achievements, including the successful summer reading program and plans for a football-themed fall reading initiative. It was mentioned the library's participation in the YFAP trick-or-treat event and ongoing support for children through bi-weekly sessions, while also finalizing a 30-page administrator's handbook for future use.

In addressing operational matters, it was expressed a desire to reinstate a faxing service for the community, citing its previous popularity and the technical challenges posed by the new printer setup. She also discussed the completion of her library statistical report, pending the adoption of a patron confidentiality policy necessary for compliance with state regulations, and reported a slight increase in e-book usage on the

1 Libby platform, although many patrons still prefer print copies. Financial updates
2 included successful grant negotiations and fundraising efforts, with a recent book sale
3 generating \$1,550 and unexpected donations totaling around \$1,500 allocated to
4 various projects.

6 **Patron Confidentiality Policy Discussion**

7 The Library Administrator highlighted the completion of over 1,000 data points for the
8 library's annual statistical report, with the final item being the adoption of a public-facing
9 patron confidentiality policy; emphasized the importance of this policy for compliance
10 with state requirements and plans to share it on the city website; additionally, mentioned
11 the library's new Facebook presence for community updates. Discussed of the patron
12 confidentiality policy and its approval.

14 The Chair highlighted the importance of a well-structured confidentiality policy,
15 commending Steenson's work on the document and proposed adding references to
16 ethical guidelines and suggested including a process for handling challenges related to
17 library materials. It was emphasized the need for proactive measures in light of
18 increasing book bans and information requests.

20 **UPS Customer Service Center Closure**

21 It was shared that the UPS customer service center in Newport is closing, requiring
22 returns to be made in Corvallis concerns expressed over the inconvenience this poses,
23 especially with the limited return window for Amazon items. Additionally.

25 **Action Items:**

26 * Recorder will ensure that all meeting documents are available online for future
27 meetings.

28 * Kimmie Jackson will forward the bid set and contract from the contractor as soon as it
29 is received.

30 * Morrill will continue tracking financial expenses related to the library rebuild project
31 and report any discrepancies.

32 * Morrill will carefully review the requests for payment against the budget line items
33 monthly to ensure that payments align with the work completed.

34 * The Chair will motivate the contractor to expedite the demolition of the current library
35 building.

36 * Administrator will finalize and distribute the 30-page administrator's handbook.

37 * The Administrator will communicate with the city about the need for a phone jack for
38 faxing capabilities in the new library setup.

39 * The Administrator will submit the patron confidentiality policy to the state once
40 approved; make suggested updates to the patron confidentiality policy and send it back
41 for review; and will reach out to the appropriate person for next year's capital expenses
42 as she prepares her report for the state.

43 **Meeting adjourned at 10:45 a.m.**

44
45 **Kimmie Jackson, Recorder**

CITY OF YACHATS
PARKS AND COMMONS COMMISSION
SUMMARY MINUTES

October 1, 2024

The regular meeting of the Parks and Commons Commission was called to order by Chair Meg Simans at 2:00 p.m. in the Civic Meeting Room of the Yachats Commons. Members present: Ron Simans, Michael Hempen, Dean Shrock, Co-Chair Dan Sterling and George Giroux.

Agenda Discussion: It was decided that time would be allocated at the end of the meeting for updates from commissioners on their individual research or ongoing projects.

Announcements:

Co-Chair Sterling will facilitate the next meeting as two commissioners will be out of the country. There is one open seat on the commission. Hempen announced that he will not be renewing his term, and his last meeting will be in December. He expressed gratitude and will miss the group but plans to stay engaged informally.

Citizens' Concerns:

No additional citizens or concerns were raised.

Trails Report

Issues were discussed regarding trail maintenance, with the emphasis on reporting any issues to the city. It was clarified that reports from trail groups should be presented at the Parks and Commons meeting for transparency and public access.

Prospect Park Update

The group discussed archaeological concerns related to certain steps at Prospect Park. Volunteers are mentoring others on park maintenance, and guidelines from archaeologists will inform them what can and cannot be done on-site.

Volunteers and Park Maintenance

Discussion about the need for a consistent maintenance system across parks. The idea of having "Park Ambassadors" was proposed. Ambassadors would visit parks regularly to assess maintenance needs and report on them.

Trails & Maintenance Oversight

There was a back-and-forth on how trails should be maintained and the role of the Parks and Commons Commission in overseeing or assisting with maintenance.

There was a general consensus that having Park Ambassadors would be helpful for communication and maintenance coordination but should not complicate the process.

The meeting concluded with the understanding that the commission would continue discussing park-related issues and maintenance but focus on maintaining clarity on roles and responsibilities between the different groups involved.

Dan to facilitate the next meeting.
Continued discussion on Park Ambassadors and maintenance strategies.
Follow-up on archaeological concerns in Prospect Park.

By Kimmie Jackson Recorder

CITY OF YACHATS
PLANNING COMMISSION WORK SESSION MEETING
SUMMARY MINUTES
October 8, 2024

The regular meeting of the Planning Commission was called to order by Chair Marc Sakamoto at 10:00 a.m. in the Civic Meeting Room of the Yachats Commons. Members present: Loren Dickinson, Mary Aebi, Jolene Gosselin, Craig Hogan. Absent: Tod Davies and Jim Paul.

Staff: Katherine Guenther, Planner (zoom) and Recorder Kimmie Jackson. Absent:
Audience: 11

The Work Session focused on discussions about the housing code update, budget concerns, and the roles of different teams such as the DLCD (Department of Land Conservation and Development) and Cascadia Partners.

Key Points:

1. Budget and Scope:

- Cascadia Partners and DLCD have been discussing how to allocate the budget for the housing code update. DLCD prefers reallocating funds from community engagement events to code adoption work.
- The project's scope of work has changed several times, with DLCD suggesting some cost-cutting measures, such as reducing the number of representatives from Cascadia attending meetings.

2. Community Involvement:

- There is concern about spending a large portion of the budget on a single community meeting. Alternative ways to gather public input were suggested, including incorporating public feedback through planning commission packets and smaller discussions.

3. Project Management Team (PMT):

- The PMT consists of representatives from the Planning Commission, city staff, and potentially two council members. This team will work closely with consultants to guide the project.
- A key goal is to ensure that the public is aware and involved in the process, with regular updates provided during planning commission and council meetings.

4. Specific Focus Areas:

- The meeting highlighted the importance of focusing on concrete goals like Accessory Dwelling Units (ADUs) and ensuring that the outcomes are adoptable into city code rather than having a broad but unfocused scope.

- Discussion also included using local examples, such as cottage clusters, to better communicate housing ideas to the community.

5. Consultant Role:

- Cascadia Partners will provide detailed presentations and recommendations, but due to budget constraints, their role in public meetings will be limited. The city will rely more on internal resources for discussions with the community.

6. Next Steps:

- A kickoff meeting is planned, where the priorities for code amendments will be discussed. The city needs to decide on the representatives for this meeting.
- The scope of work documents needs to be reviewed by the team to ensure everyone is aligned before moving forward.

The overall tone was focused on efficiency, prioritizing the budget for essential parts of the project, and ensuring meaningful community involvement without overspending.

The meeting adjourned at 12:15 p.m.

By: Kimmie Jackson, Recorder

CITY OF YACHATS
PLANNING COMMISSION REGULAR MEETING
SUMMARY MINUTES
October 15, 2024

The regular meeting of the Planning Commission was called to order by Chair Marc Sakamoto at 2:00 p.m. in the Civic Meeting Room of the Yachats Commons. Members present: Loren Dickinson, Mary Aebi, Jim Paul, Jolene Gosselin, Craig Hogan, and Absent: Tod Davies. Staff: Katherine Guenther, Planner (zoom) and Recorder Kimmie Jackson.

Audience: 18

I. Announcements & Citizens' Concerns None.

III. Ongoing Business

Addressing Memo Tone and Cascadia Options

The Planner expressed concerns about the tone of a recent memo, which she felt was accusatory and could negatively impact relationships with Cascadia and DLCD; it suggested that the memo was misleading as it compared the current situation to a previous phase of work with Cascadia; and noted that the memo was 18 months old and that the project was still in its early stages. It was proposed that the commission should review the four options presented by Cascadia and decide if they still apply and emphasized the importance of having a clear understanding of the commission's priorities before the next meeting with Cascadia.

Discussed the importance of setting clear boundaries and scope for a project, emphasizing the need to focus on specific tasks and avoid unnecessary discussions. She suggested reviewing the four options outlined for the project and keeping an open mind for additional suggestions that might arise during the kickoff meeting; also addressed concerns about duplication of effort, stating that the project involves new territory and useful work that hasn't been done before. Also clarified that the project's funding was initially bypassed due to the municipality's population size and the priority given to places under an obligation by statute to get it done.

Discussion continued around the scope of work, and the potential time required for various tasks. The Planner clarified that the 150 hours mentioned in the scope of work was an estimate and not a fixed number and expressed concern about the level of trust in the consultants' competence, as indicated in a letter from Theilacker. It was emphasized the importance of reviewing each deliverable produced by the consultant to ensure compliance with state and federal laws and the role of DLCD in reviewing the work and providing feedback. The team agreed to focus on the most important items and meet

1 to finalize them. The discussion also touched on the consultant selection process and the
2 importance of ensuring the consultants' work is satisfactory. The team ended the
3 conversation with a review of the four options presented in a memo, expressing that the
4 options seemed to align with their goals.

6 **Minimum Density Standards and Housing Development**

7 The commission discussed a proposed change in the minimum density standard for
8 residential zones, specifically R. 3, R. 4, and C. 1 zones, aiming to promote development
9 of needed housing types while allowing for higher density single-family houses on smaller
10 lots. She suggested that Accessory Dwelling Units (ADUs) could be included in the
11 density calculations to meet the minimum density standard. Kimmie also brought up the
12 topic of minimum density standards in R3, R4, and C1 zones, expressing concern about
13 the waste of land in single-family residential areas and suggesting the possibility of
14 building an R. 3 in a certain area. It was emphasized the need for more central planning
15 and management of resources and suggested that anyone wanting to swap houses on
16 certain lots should come to them for permission, also mentioned the idea of providing
17 incentives for higher density development in C-1 areas as a guiding principle for the
18 process.

20 **Addressing Housing Affordability and Incentives**

21 The group discussed the challenges of implementing incentives for development projects,
22 particularly in the absence of tax incentives and that some cities use system development
23 charges and excise taxes as alternatives, but these options are not available in their area.
24 A member shared an example of a resort town that faced backlash when it introduced an
25 empty house tax to encourage affordable housing, highlighting the potential for public
26 opposition to such measures; discussed the challenges of housing affordability in their
27 resort town, noting that the high cost of housing and the prevalence of second homes
28 have led to a shortage of available housing for workers and suggested that a more
29 collaborative approach with neighboring towns could help address the issue but
30 acknowledged that it would be a long-term solution, also the success of various housing
31 projects, including workforce housing and land trusts, but noted that they often serve a
32 specific income bracket and may not be accessible to everyone.

34 The commission discussed the challenges of affordable housing development in Lane
35 County, particularly in relation to zoning and infrastructure; and highlighted the need for
36 creative solutions and incentives to encourage developers to build affordable housing and
37 the importance of understanding the reasons behind the lack of affordable housing
38 development in the area, suggesting that it might be due to environmental or utility-related
39 issues. It was emphasized the need for the city to engage with developers like Lane Morrill
40 to understand what incentives would be necessary to encourage development; and also
41 pointed out the need for state and federal support to provide infrastructure and other
42 incentives for affordable housing development.

44 **Project Management Team Structure and Meetings**

45 The members discussed the composition and structure of a project management team
46 for a planning commission project; it was suggested a minimum of two people from the
47 planning commission and outlined the structure of advisory committee meetings.
48 Emphasizing the need for clear communication and feedback during these meetings and

1 the importance of having someone present to handle unexpected developments, the need
2 for two volunteers for the project management team and the possibility of setting up a
3 repository for past Cascadia documents. One member proposed the idea of conducting
4 a survey at least once a month to gather more information about ADUs and the
5 involvement of the city council in the project, and to also discussed the importance of
6 nurturing key relationships and involving other commissions and community members in
7 the planning process.

8 9 **Contractual Relationship and Project Scope Discussion**

10 One of the members discussed the city's contractual relationship with Cascadian,
11 expressing a need to see the contract to understand the big picture and the relationship;
12 It was highlighted by Rodomski the involvement of various departments in the project and
13 the importance of understanding the scope of the project. The members expressed
14 concerns about the relationship between DLCD and Cascadia Partners, suggesting a
15 different approach to resolving conflicts. A couple of members agreed with this
16 perspective, emphasizing that they should focus on the work product of Cascadian
17 Partners; and suggested that the city manager, DLCD, and the consultants should handle
18 the contract agreements and share the information with the consulting body. The city
19 manager responded by stating that they have received a grant to execute the work and
20 are grateful for the additional funds to bring on a consultant.

21 22 **Housing Plan Progress and FEMA Lawsuit Update**

23 Discussion continued around the progress of the housing plan and the importance of the
24 planner's report. She also mentioned a lawsuit against FEMA, which required FEMA to
25 make their floodplain regulations compatible with the Endangered Species Act and
26 outlined potential options for cities impacted by a floodplain issue and emphasized that
27 the council's role would be to decide the path they would take. The city manager reported
28 some movement on the wetlands issue and estimated the discussion at the City Council
29 meeting would take about half an hour. The Chair ended the conversation by stating that
30 the issues list had been reviewed and there were no major issues to discuss, then
31 mentioned the upcoming planning commission meeting and encouraged the team to
32 review the 2023 document for better understanding and decision-making.

33 34 **Next steps**

- All Planning Commission members to review the June 2023 memo and statement of work from Cascadia Partners before the next meeting.
- Dickinson and Hogan to serve on the project management team for the housing code update project.
- Planner to ask Cascadia Partners if project management team meetings can be recorded or transcribed.
- Planner to set up a repository in the document center for past Cascadia Partners materials and share the link with commission members.
- Chair to email Todd about potentially handling social media communications for the project.
- All Planning Commission members to review the 4 options listed in the June 2023 memo and be prepared to discuss them at the next meeting.

- Planning Commission members to attend the City Council meeting on October 23rd at 1pm regarding Title 9 updates.
- Planner and City Manager to meet with Department of State Lands and consultants on October 22nd regarding the wetlands assessment.
- Planning Commission members to send any questions or items they want included in the housing project scope to Catherine.
- The planner to compile feedback from Planning Commission members on the project scope to share with Cascadia Partners.
- Planning Commission to further discuss housing project scope and priorities at the next work session.
- Planner to update the Planning Commission once a kickoff meeting date is scheduled with Cascadia Partners.

CITY OF YACHATS
PUBLIC WORKS & STREETS COMMISSION
SUMMARY MINUTES
October 8, 2024

The regular meeting of the Public Works & Streets Commission was called to order by Chair Linn West at 2:00 p.m. in the Civic Meeting Room of the Yachats Commons. Members present: Co-Chair Don Groth, Commissioner Bob Bennett, Commissioner Kevin Erdahl, Commissioner Don Phipps, Commissioner Jim Welch, and Alex Cox; Staff: Rick McClung, Water Lead and Kimmie Jackson, Recorder
Audience: 14

Meeting Called to Order

Announcements & Correspondence –

Announced the upcoming surplus sale, mentioning the item list was online.

Citizens' Concerns - None

South Tank Annex, Fire Hydrants, and Assembly Area Access

The team decided against shifting the south tank annex due to map issues but considered establishing a road for better assembly area access. Public Works reported on successful projects like water service installations and playground equipment. Concerns were raised over fire hydrant adequacy on certain streets.

Concerns were raised about fire hydrant adequacy and forest fire risks. It was suggested deferring to the fire department for hydrant locations. The team agreed to form a committee to review the hydrant map with the fire department. It was discussed installing manholes on Hanley Road; Public Works provided an update on the road paving project, stating the contract is signed and they aim to complete it this fiscal year, focusing on areas like Radar Road and Green Hill. The team agreed to update the project list with final decisions and start a new list for the next fiscal year, carrying over unfinished projects.

Engineer of Record Selection

The commission discussed selecting an Engineer of Record to be the city's go-to company for most projects, suggesting a task force to review proposals and conduct interviews; it was mentioned retiring engineers and increasing workload, necessitating additional staff; also discussed an Oregon Health Authority project inventorying lead and copper pipes in older homes, expressing concerns about timeline and potential staffing needs.

Project Progress and Infrastructure Improvements

1 Commission discussed the progress of a project involving extra city funds and successful
2 collaboration with the city manager, council, and South Lincoln's Board; highlighted the
3 potential benefits of the project, such as eliminating phases and incorporating water from
4 hotels into the city's water supply. It was also mentioned the need for a crosswalk at a
5 specific location, which would require engineering design and additional safety features;
6 it was acknowledged the high cost of installing crosswalks and suggested discussing the
7 installation of a crosswalk at Prospect with ODOT due to expected increased pedestrian
8 traffic; and emphasized the need to focus on one issue at a time and improve current
9 processes before considering additional measures. It was pointed out the lack of proper
10 sidewalk divisions and the need for drivers to slow down before entering the commercial
11 district.

12 13 **Reservoir Project and Affordable Housing Discussion**

14 Commission discussed a potential reservoir project cost on Yachats River Road with no
15 previous landslides and rock fragments at 10 feet depth; proposed giving the community
16 a month to consider the project, which could include affordable housing to attract grants;
17 also mentioned a "shovel ready" project involving a flashing crosswalk and affordable
18 housing subdivision, aligning with the mayor's initiatives. The project is within city limits
19 and is identified in the report.

20
21 The Commission discussed the need for seismic retrofitting of current tanks costing
22 around \$10 million and a potential transmission line from the existing reservoir funded by
23 grants. Undergrounding power on Ocean View Drive and public input were also
24 mentioned.

25 26 **Improving Boardwalk Lighting and Pedestrian Safety**

27 The Commission discussed the need for better lighting along boardwalks and streets,
28 suggesting uniform streetlights and possibly underground power lines; the potential for
29 colored lights along pathways and the idea of underground lighting, noting the significant
30 cost of underground power lines but its potential protection during storms. also discussed
31 several ongoing projects, including the Stormwater Master Plan, Public Works Standards,
32 and the Adopt a Hydrant project; a new form will be created to reduce the city's workload
33 by having volunteers maintain fire hydrants; it needs to be finalized regarding the format
34 and decide on equipment and paint provision. Lastly, the issue of pedestrian safety,
35 mentioning a potential solution involving flashing lights, though the cost was estimated to
36 be around 30,000 for the lighting system.

37
38 the discussion continued around the goals for the pedestrian network in Yachats,
39 emphasizing the importance of providing safe and seamless pedestrian access, reducing
40 traffic congestion, and increasing property value; it was highlighted successful
41 communication with key ODOT personnel and proposed four key areas for focus,
42 including lowering speed limits to 25 mph and providing a transitional speed zone;
43 outlined the process for requesting a speed zone investigation from ODOT, which could
44 take several years, and expressed their willingness to lobby city councilors for speed limit
45 reduction. The conversation ended with the understanding that the 25 mile an hour buffer
46 zone issue was still under consideration.

1 The discussion also covered sidewalk implementation in commercial areas north of the
2 bridge, with suggesting challenges due to the mixed-use nature. The project aligns with
3 the city's 2024 goals for safe access, and parts are already in progress.

4
5 The last item discussion was around the finance reports, it was reported high street
6 project activity funded by highway tax dollars and upcoming transfers to cover previous
7 expenses; and planned to review RFP responses within an identified timeframe.

8 9 10 **Next Steps**

- McClung to submit the form to ODOT requesting a speed zone investigation for reducing speed limits to 25 mph throughout Yachats.
- McClung to contact ODOT about requirements for applying for a permit to install speed monitoring devices.
- Phipps to follow up with the City Manager on progress of submitting the 25-mph speed reduction request to ODOT.
- McClung to get cost estimates for crosswalk installation once the permit process is signed.
- McClung to look into grant opportunities for funding crosswalk and sidewalk projects.
- Finalize the format for the Adopt-a-Hydrant program.
- Commissioners to review current City Council goals and prepare recommendations for next year's goals for discussion at the November meeting.
- McClung to task the engineer for cost estimates on undergrounding power on Ocean View Drive.
- Explore options for lighting along the boardwalk area after undergrounding the power.
- McClung and Morphis to complete and resubmit grant application for Ocean View Drive project by end of year.
- Phipps to contact City Manager about moving forward with 25 mph speed limit request process.
- McClung to follow up on stormwater master plan comments with engineers.
- Coordinate with Fire Department on identifying locations for new fire hydrants.
- Phipps to obtain Phase 2 and 3 documentations from ODOT regarding sidewalk plans.

11 **Meeting adjourned at 3:45pm**

12

2/16/2024	City Council	Achieve water sustainability	Schedule and attend regular meetings with SWLCPUD during 2024-2025:	Meetings are happening fairly regularly. With email communication in between. The next meeting is scheduled for 4/15/2024 2. City Manager meets the SLWDPUD on 7/13 to draft the one-year supplemental water agreement. 3. The city and SLWDPUD attorneys have reviewed a supplemental water agreement. Both agree on the terms, and their boards of directors will vote on it on August 20th. 4. On September 30th the two organizations will test the connection, Yachats will purchase 600 gallons of water in the test. During this time they will write the standard operating procedure for how this connection will work in the future as needed.	CM, Mayor Berdie	✓	✓
2/16/2024	City Council	Achieve water sustainability	Establish a long-term (10-year minimum) agreement for drought-related emergency supply.	Working toward a long term agreement for supplemental sharing agreement. In a contract will determine a time of year, level of water or both when Yachats starts purchasing from SLWDPUD. This will need to be agreed on by both parties and ran through legal council. 2. Confirmed that we will have a summer agreement with SLWDPUD to sell us water at 100 GPM 3. See above, a water agreement will be voted on by the SLWDPUD on August 20th 4. See above	CM, Mayor Berdie	✓	✓
2/16/2024	City Council	Achieve water sustainability	Cost and resource-sharing arrangements.	The relationship is being built and the sentiment shared that we want to be good neighbors and when we both have similar big projects coming up, we can arrange to have them done around the same timeframe and spilt contractor travel fees in the hope to reduce cost for both parties. 2. This is ongoing and the relationship and trust are being built	CM, RM, Mayor Berdie	✓	✓
2/16/2024	City Council	Achieve water sustainability	Continuous water-sharing arrangements at reasonable prices.	This would be the second phase of the supplemental water agreement. 2. Rates have been set and they fall within our budgeted amount. 3. See above information	CM, RM, Mayor Berdie	✓	✓

Date Goals Set	Recommending Body	Goal	Objective	Progress	Staff Responsibility & Councilor Support	Complete	Ongoing
2/16/2024	City Council	Achieve water sustainability	Invest in a property that: Provides potential locations for water storage and improves water quality in our facilities.	We are waiting for the results of the geo-tech study to decide if we go forward with the purchase. The contract is signed by both parties. The study results are due back on May 15th. 2. The engineering study is back. The Public Works & Streets Commission will review it on June 11th. The report is in the June City Council Packet. The City Council will go to the property on their July 8th infrastructure tour. 4. The city council voted to purchase the property and the CM has initiated an escrow account for the funds transfer between the city and Edmunds. 5. The title company is performing the title switch and the sale will be complete. The person that oversees the property has moved off. 6. This property is purchased and the complete	CM & RM, Mayor Berdie	☒	☐
2/16/2024	City Council	Achieve water sustainability	Invest in a property that: Establishes safe boundaries around water facilities	We are waiting for the results of the geo-tech study to decide if we go forward with the purchase. The contract is signed by both parties. The study results are due back on May 15th. 2. It was voted on during the June 11th Public Works & Streets Commission meeting to approve the purchase of the property for further discussion on the use. 3. The city council voted to purchase the property and the CM has initiated an escrow account for the funds transfer between the city and Edmunds. 4. See above, sale is nearly complete	CM & RM, Mayor Berdie	☒	☒

Date Goals Set	Recommending Body	Goal	Objective	Progress	Staff Responsibility & Councilor Support	Complete	Ongoing
2/16/2024	City Council	<i>Provide safe access to and use of city infrastructure, parks, and trails</i>	Identified public safety items considered in the CIP process- Public restrooms, commons north entry, sidewalk curbs	A Civic Campus Masterplan study will include each of these items and determine the best location, layout, etc. We are in the process of setting up an RFP to submit for bidding. 2 The master plan has been submitted for the bidding process, all bids are due by June 30th. 3. Bids are received and being reviewed by the PC& C to make firm recommendations to City Council on their top 3 choices, city council will vote in September on which firm to choose. 4. PC&C chose their top 3 and City Council voted on their one. CM has reached out to the selected company to start a contract. 5. The CC voted to select Scharen Design Studio as the team that will complete the Civic Master Plan. This kickoff on November 13th.	NM, Councilor Carey	☐	☒
2/16/2024	City Council	<i>Provide safe access to and use of city infrastructure, parks, and trails</i>	Implement security systems and safety measures plans in City Hall and the Commons	Research is being done on the best ways to implement a secure and welcoming entrance to City Hall 2. The CM will meet with Geo to look at how to design the inside of the city hall for security purposes. Facilities Coordinator, Krystal is scheduling window coverings that create privacy from the exterior but give full vision to the exterior from inside. 3. The city has had office concepts designs come down and sketch our new office layout. 4. For the Commons, we have place stickers on the exterior doors to tell people that they must schedule and entry to lesson the amount of people inturrupting YYFAP.	KK, Councilor Carey	☒	☒
2/16/2024	City Council	<i>Provide safe access to and use of city infrastructure, parks, and trails</i>	Complete the 101 delineators and replace Oceanview delineators	All the plans have been designed and submitted, waiting for approval from ODOT 2. The permits have been granted by ODOT, now the engineer will put the project out to bid. 3. City Council voted to continue moving forward with the project and ask that ODOT fund the remaining amount. Rick M. has scheduled the company for the project.	PW	☐	☒

Date Goals Set	Recommending Body	Goal	Objective	Progress	Staff Responsibility & Councilor Support	Complete	Ongoing
2/16/2024	City Council	<i>Provide safe access to and use of city infrastructure, parks, and trails</i>	Improve crosswalk safety	The Crosswalk lights have been repaired and are working 2. There have been reports that the lights have stopped working again. Public Works is aware of this and addressing the issue.	PW	☒	☒
2/16/2024	City Council	<i>Provide safe access to and use of city infrastructure, parks, and trails</i>	Decide on a plan to utilize and enhance the green open space behind City Hall.	A Civic Campus Masterplan study will include each of these items and determine the best location, layout, etc. We are in the process of setting up an RFP to submit for bidding. 2 The master plan has been submitted for the bidding process, all bids are due by June 30th. 3. Bids are received and being reviewed by the PC&C to make firm recommendations to City Council on their top 3 choices, city council will vote in September on which firm to choose. 4. PC&C chose their top 3 and City Council voted on their one. CM has reached out to the selected company to start a contract. 5.The CC voted to select Scharen Design Studio as the team that will complete the Civic Master Plan. This kickoff on November 13th.	NM	☐	☒
2/16/2024	City Council	<i>Provide safe access to and use of city infrastructure, parks, and trails</i>	Ensure a safety plan for Oceanview Drive from Beach St. to Highway 101—examine ways to alert people to the hazards until the walkway is completed.	1. I spoke with Public Works about ways to achieve this safety. We discussed a few options, keeping in mind that we don't own the road yet. Options were: Place cones along the edge of the road, create a little walkway, and do delineators or signage. Cones and delineators narrow up an already narrow road; they also affect the visual appeal of the natural area. 2. blocks and benches have been put in place 3. The OVD transfer is nearing completion and will allow for more road safety options.	BP	☐	☒

Date Goals Set	Recommending Body	Goal	Objective	Progress	Staff Responsibility & Councilor Support	Complete	Ongoing
2/16/2024	City Council	Environmentally responsible in all we do	Develop Master Park's/Civic Campus plan, including distributed open spaces.	A Civic Campus Masterplan study will include each of these items and determine the best location, layout, etc. We are in the process of setting up an RFP to submit for bidding. 2. Neal has submitted the RFP to Oregon Buys, bids are due by June 30. He is receiving inquiries. 3. Bids are received and being reviewed by the PC&C to make firm recommendations to City Council on their top 3 choices, city council will vote in September on which firm to choose. 4. PC&C chose their top 3 and City Council voted on their one. CM has reached out to the selected company to start a contract. 5. Conversations have begun with Marge Peterson to acquire her park property. The landmark property is under contract and title search with the escrow company.	NM	☐	☒
2/16/2024	City Council	Environmentally responsible in all we do	Finalize the wetlands assessment.	Our Local Wetlands Inventory has been submitted to the Department of State Lands. Katherine has made recent contact with them and will continue to follow up on its status. 2. Katherine has been in conversations with DLCD on pushing this forward. 3. Katherine has put a timeline together and the mayor has reached out to the company who worked on this project for the city 4. Both Bobbi and Craig have reached out to people to expedited this project. 5. CM and Planner met with Department of State Lands and Pacific Habitat, looking for this being completed.	KG	☐	☒
2/16/2024	City Council	Environmentally responsible in all we do	Provide education on Wetlands Pond	I have spoken to the Parks and Commons Commission about creating educational signage for this walkway. They are interested in taking on this task. I am working with a designer to create "sign standards" that will flow into this project and all projects. 2. I will pick this back up with PC&C now that we have our new logo and branding updated to follow up on signs.	Parks & Commons	☐	☒
2/16/2024	City Council	Environmentally responsible in all we do	Develop a policy for low-maintenance, long-life materials.			☐	☒

Date Goals Set	Recommending Body	Goal	Objective	Progress	Staff Responsibility & Councilor Support	Complete	Ongoing
2/16/2024	City Council	Environmentally responsible in all we do	Develop effective controls for city-owned amenities (e.g., brush box)	This is an ongoing conversation with city staff to consider the best ways to move forward with this. What is best for city staff time and availability needs to be considered while making this decision. 2. Public works has ordered signage to share the open hours for the brush box on the gate.	City Staff	☒	☐
2/16/2024	City Council	Deliver efficient, effective, transparent municipal services	Ensuring documents are publicly available and searchable per Oregon Public Record requirements	Our Recorder currently is continuing her education on records retention and ensuring the city is in full compliance with Oregon State Law.	KJ	☒	☒
2/16/2024	City Council	Deliver efficient, effective, transparent municipal services	Surveying the community for overall performance and service request satisfaction	1. There is currently a survey out to staff, commissions, committees, and randomly selected community members on the performance and satisfaction of the city managers performance. 2. In September the city will send out a survey to all registered voters in Yachats to ask for their feedback on performance and direction. This will be used in establishing the next years goals and budget. 3. Councilor Mary Ellen O'Shaunessey will look for companies we can hire for our September community survey. 4. The CM has sent out 2 surveys to gauge the communities sentiment and get feedback on communication and safety, both have received over 100 responses, these two were specific to communications and public safety. 5. CM and Councilor O'Shaunessey have created a resident sentiment survey to send out, this will help the council guide their next goal setting and budget setting process. 6. CC will review the results from the survey during their November 20th meeting.	CM & NM	☒	☐

Date Goals Set	Recommending Body	Goal	Objective	Progress	Staff Responsibility & Councilor Support	Complete	Ongoing
2/16/2024	City Council	Deliver efficient, effective, transparent municipal services	Summary meeting minutes that include the conversation topics, why the decision was made, and other key discussion points.	1. The City Recorder takes summary notes at each Commission, Committee, and Council meeting. Those notes are attached to every city council meeting agenda. 2. The next goal is to have each city council meeting summary attached to the agenda center within a week after the meeting. 3. The city recorder is now posting minutes within the week of the meetings.	KJ	☒	☐
2/16/2024	City Council	Effectively manage and plan for the city's financial needs	Identify strategies for the city to encourage the development of workforce housing	1. CM and Councilor Muirhead are assembling a survey to send to Yachats employers and employees to gain insight to the needs of our workforce. 2. The survey will be sent out by August 23rd 3. Councilor Muirhead and CM created and sent two workforce surveys out to employees and employers		☒	☒
2/16/2024	City Council	Effectively manage and plan for the city's financial needs	Explore administrative overhead allocations to fund budgets			☐	☒
2/16/2024	City Council	Synchronize and update city policies and administrative rules	Review and update Council Rules pages 1-15 by September 2024 (last amended 2018)	Had a meeting with a local editor that would be interested in supporting this project. The next step is to have the council look at the existing policy and note the changes they see, then work with the editor to create the changes. Tackle this in June. 2. To pick this up in-house now that the council has voted to stay in once per month meetings 3. City Councilors are currently making edits to the Council Rules.	Council, CM	☐	☒
2/16/2024	City Council	Synchronize and update city policies and administrative rules	Develop recommendations for equitably distributing Beautification and Community Support Funds; August 2024	The City Admin Assistant created and application and review process for the CM to give to any groups requesting financial support out of the Beautification and Community Support Funds.	CM	☒	☒

Date Goals Set	Recommending Body	Goal	Objective	Progress	Staff Responsibility & Councilor Support	Complete	Ongoing
2/16/2024	City Council	Synchronize and update city policies and administrative rules	Review and revise, if appropriate, the Food and Beverage penalty rate and Occupancy Tax; Ordinance 3.12.060 and 3.08.080 by November 2024	The finance committee has reviewed both policies and made recommendations. The CM will now work with a committee of people from the vacation rental and hotel industries, along with city staff, to finalize the suggestions. 2. City staff has been working steadily on this, there will be a new tax collection system put in place by the time Fall taxes are collected. This will help us gauge the amount of licenses that solely use HomeAway or other agencies to pay their taxes and rent their homes. This will help us with the finalization of the updated code. 3. Next step is collecting the tax with this new form, using the data collected to finalize the code.		☐	☒
2/16/2024	City Council	Synchronize and update city policies and administrative rules	Review and revise, if appropriate, Water Shortage Emergency Regulations. Specifically the determination standard and Phase 1 and 2 restrictions by July 2024	The emergency preparedness committee will take a look at the water usage policy and make recommendations. 2. A workgroup has been developed to look at this 3. The policy will come to the city council for adoption in the August meeting. 4. The updated policy will be in public hearing on October 23. 5. The second public hearing for new water emergency policy will be on November 20		☐	☒
2/16/2024	City Council	Additional goals	Develop a Diversity, Equity and Inclusion Strategy			☐	☐
2/16/2024	City Council	Additional goals	Develop an ADA Transition Plan	City staff has started this process with ODOT		☐	☒

City of Yachats
November 2024

Resident Sentiment Survey

Introduction

The Yachats Residents Survey is a key component of the city council's 2024 council goals. This survey was designed to gather valuable feedback from our residents on areas that can be improved, future focuses, infrastructure, public safety, environmental sustainability, and more.

The city put out this survey to gain insights directly from the people who live in Yachats. The goal is to use this feedback to inform their decision-making process in the next year's goal and budget-setting sessions. With responses from 158 residents, we now have a clearer understanding of our community's needs and priorities.

Throughout this presentation, we will delve into the key findings of the survey and discuss how they will shape our initiatives and strategic planning efforts.

Summary of Methods

01

Multiple Choice Questions

These questions covering a wide range of topics, gauging satisfaction and trust, overall quality of life

02

Open-ended Questions

Open-ended questions allow individuals to provide detailed responses to questions, offering their thoughts, feelings, and experiences without being limited by predetermined answer choices.

Survey Results

Actual results, data
presentation, and analysis

Results

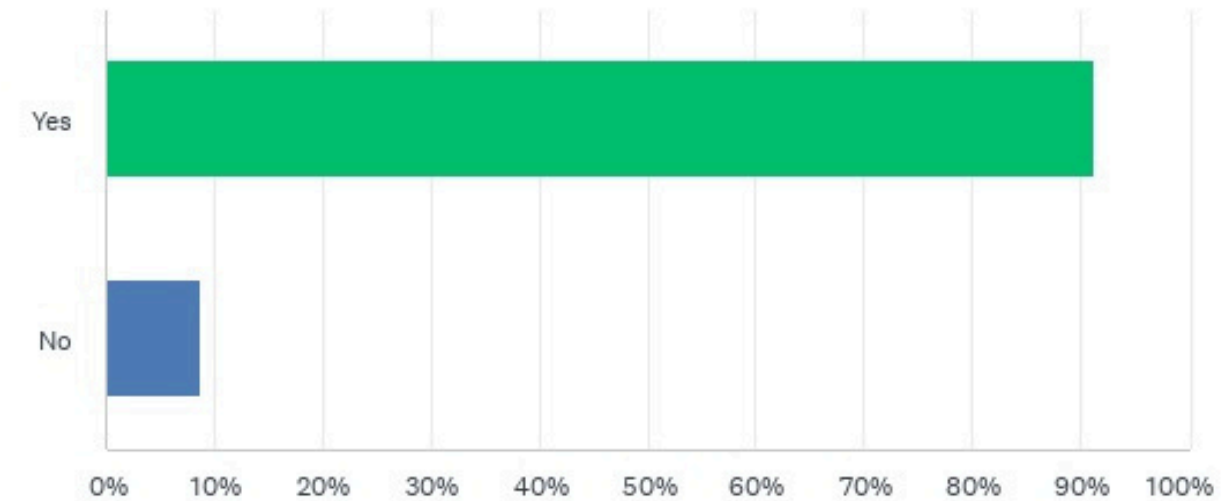

Do you live in City Limits?

This question is important as the results guide the city council's goal and budget- setting sessions.

We will look at all results in "All responses and Resident Only" responses

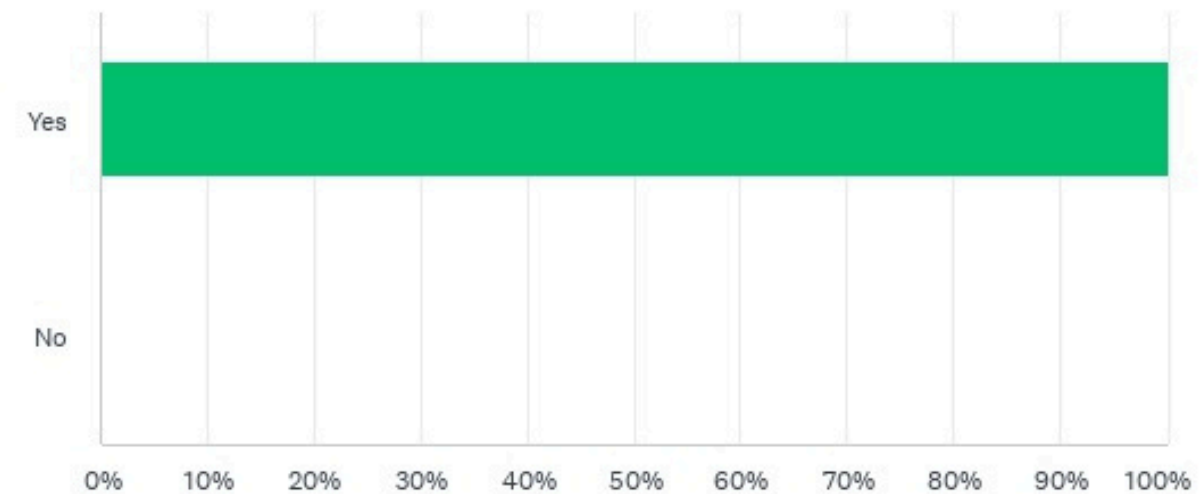

There are 158 responses and 145 are residents only

Q1 Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

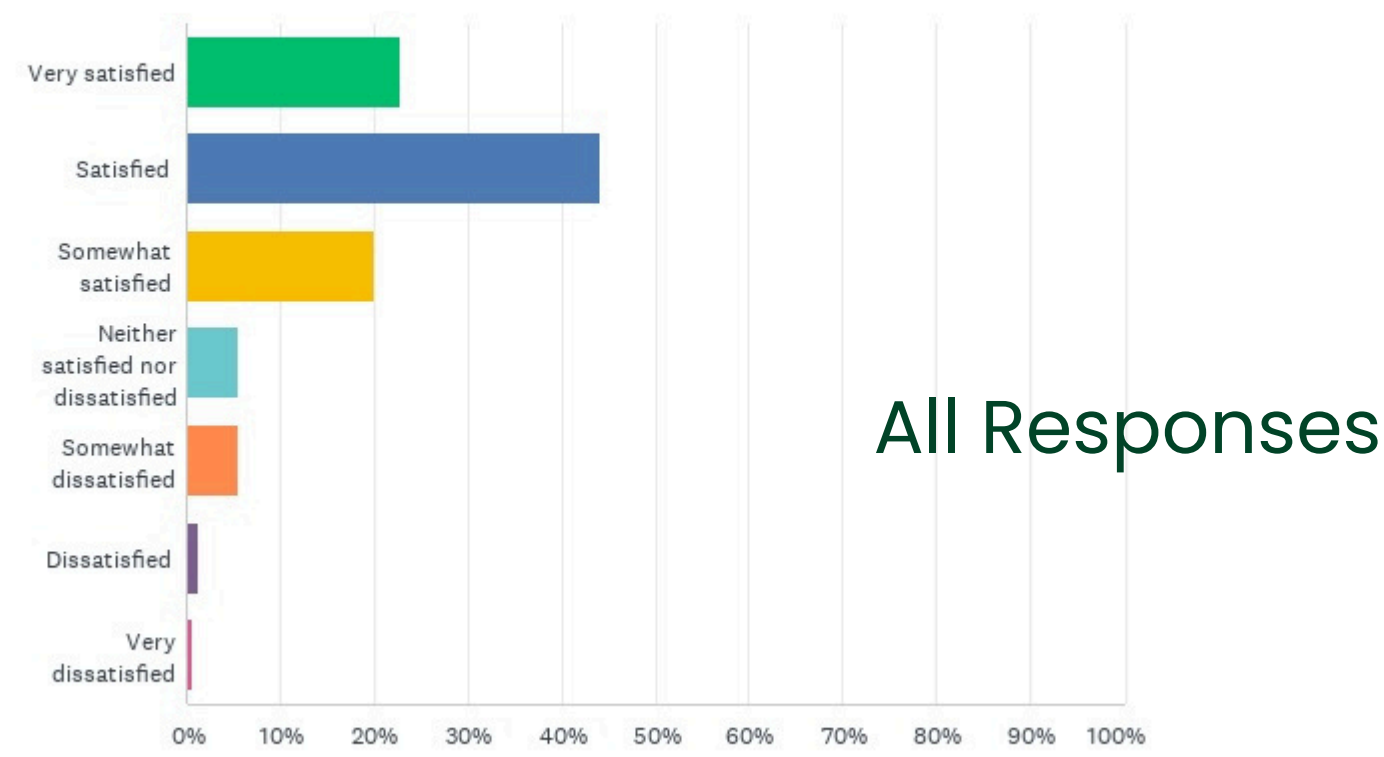

Resident Only

Q1 Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

Q3 How satisfied are you with the current services provided by the City of Yachats?

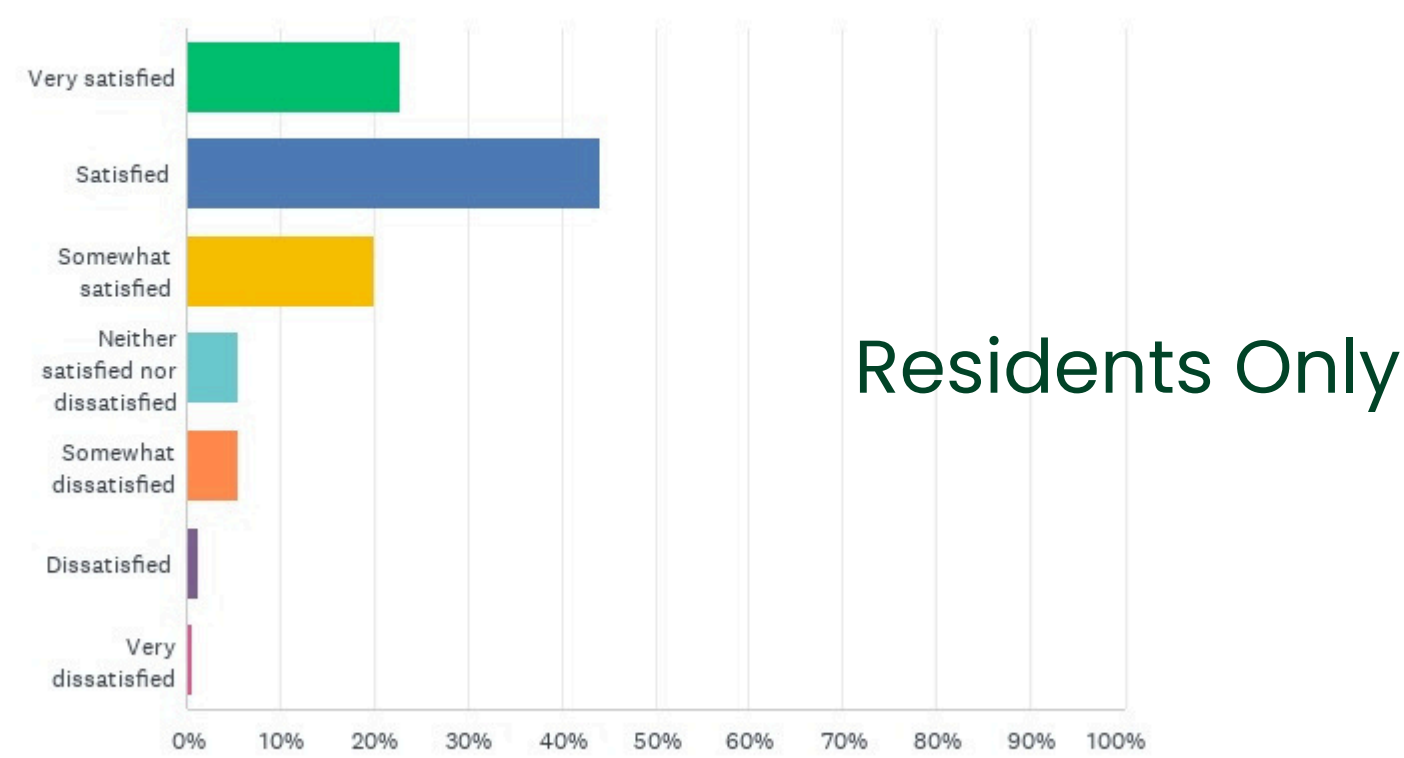

Results

How Satisfied are you with current services provided by the City of Yachats

From all responses:
85.6% reported satisfied to very satisfied
6.9% were neither satisfied or dissatisfied
7.5% reported somewhat dissatisfied to very dissatisfied

Q11 Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q11 Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Results

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

From all responses:

84.9% reported a moderate amount to a great deal of trust

15.09% reported little to no trust at all

Residents only:

85.51% reported a moderate amount to a great deal of trust

14.49% reported little to no trust at all

Survey Results

Open-ended questions

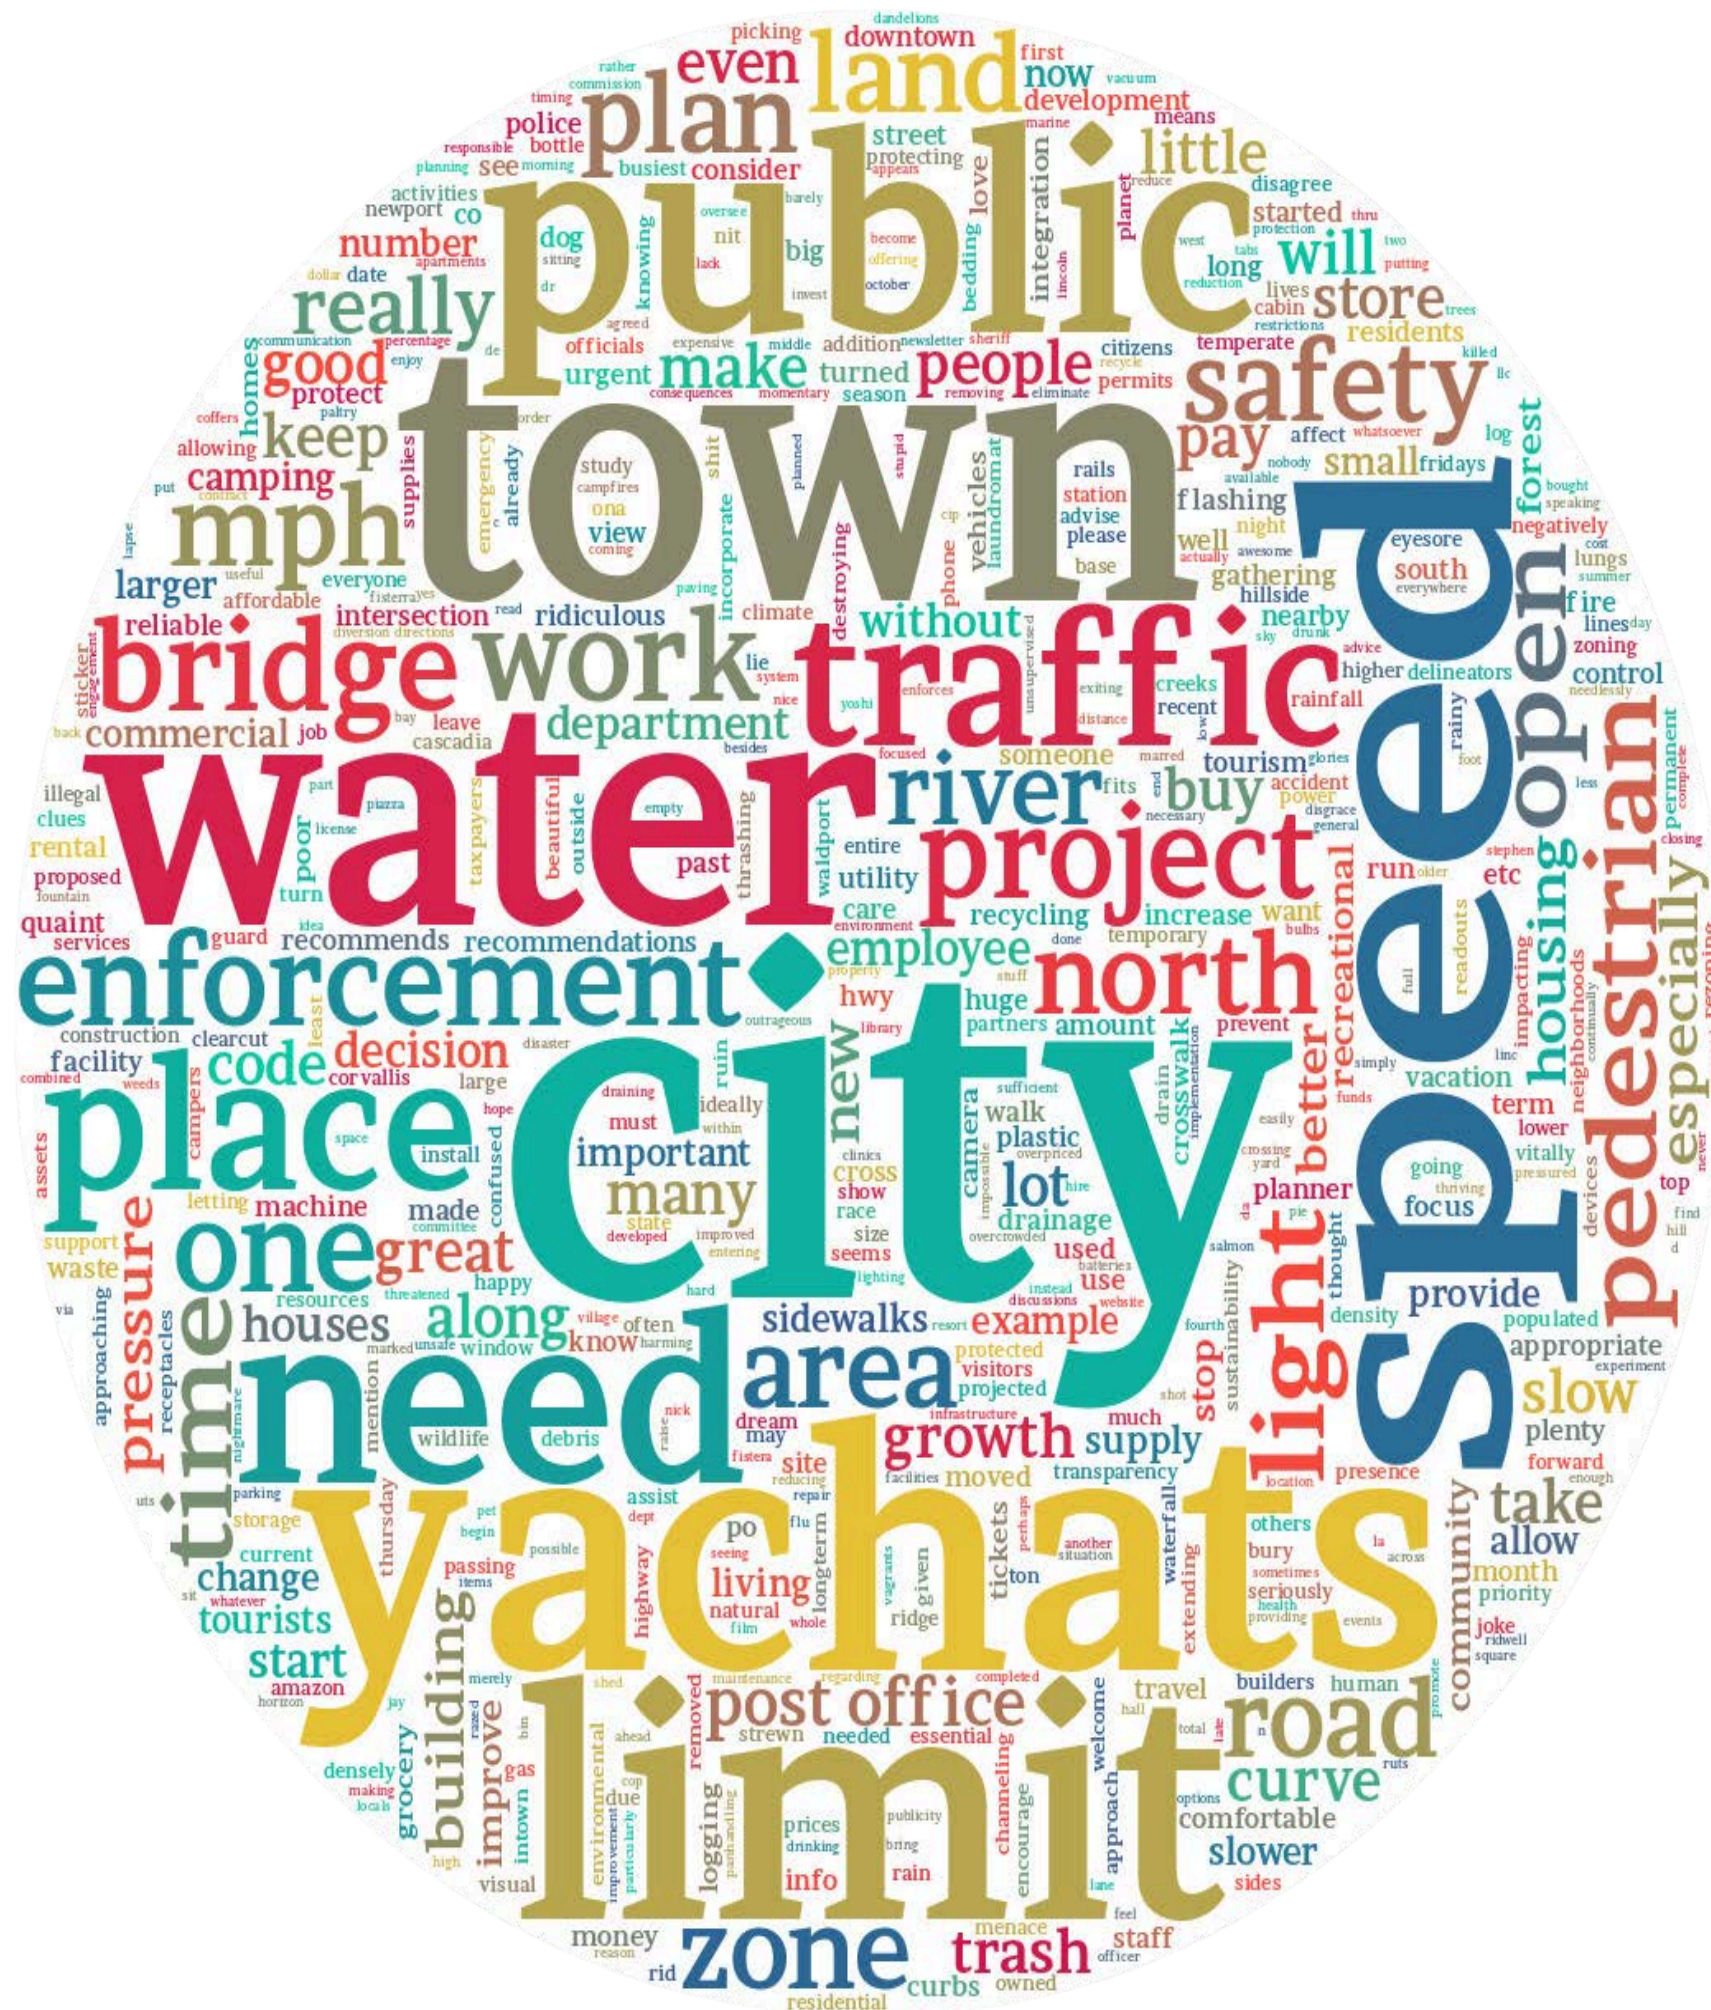

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Town

- “We need a lot more recreational activities in town for both citizens and tourists”
- “We need to have slower traffic in town. Visitors and those passing through need more visual clues that they need to slow down such as a traffic control light at the busiest intersection or at least the devices that show their speed of travel.”
- “You have turned this quaint little village into a resort town - making it impossible to feel comfortable within town.”
- “More diversion/engagement with vagrants to reduce panhandling, public camping, particularly in day use areas. Speed limit enforcement along south curve of 101, coming through town.”
- Safety along 101. Especially the curve from south of the bridge through town. Delineators please to protect pedestrians. Cross walk just north of bridge. Slow traffic.

Speed

- "Limit development. Leave Yachats quaint."
- "Make Yachats a more walkable town. Too many people walk on the streets and highway".
- "Ideally, we could prevent logging of the Yachats Ridge base and buy the land."
- "Disagree with the Cascadia Partners recommendations. The study takes a one size fits all approach in that it recommends rezoning for higher density housing. While this may be appropriate for a city like Corvallis or Newport, it would ruin Yachats"
- Better integration between public works projects and the city planning department so that projects are not planned, developed, and completed in a vacuum without appropriate integration into the larger long term CIP and development plans. A water committee/commission to oversee implementation of the Yachats Drinking Water Protection Plan and its recommendations."

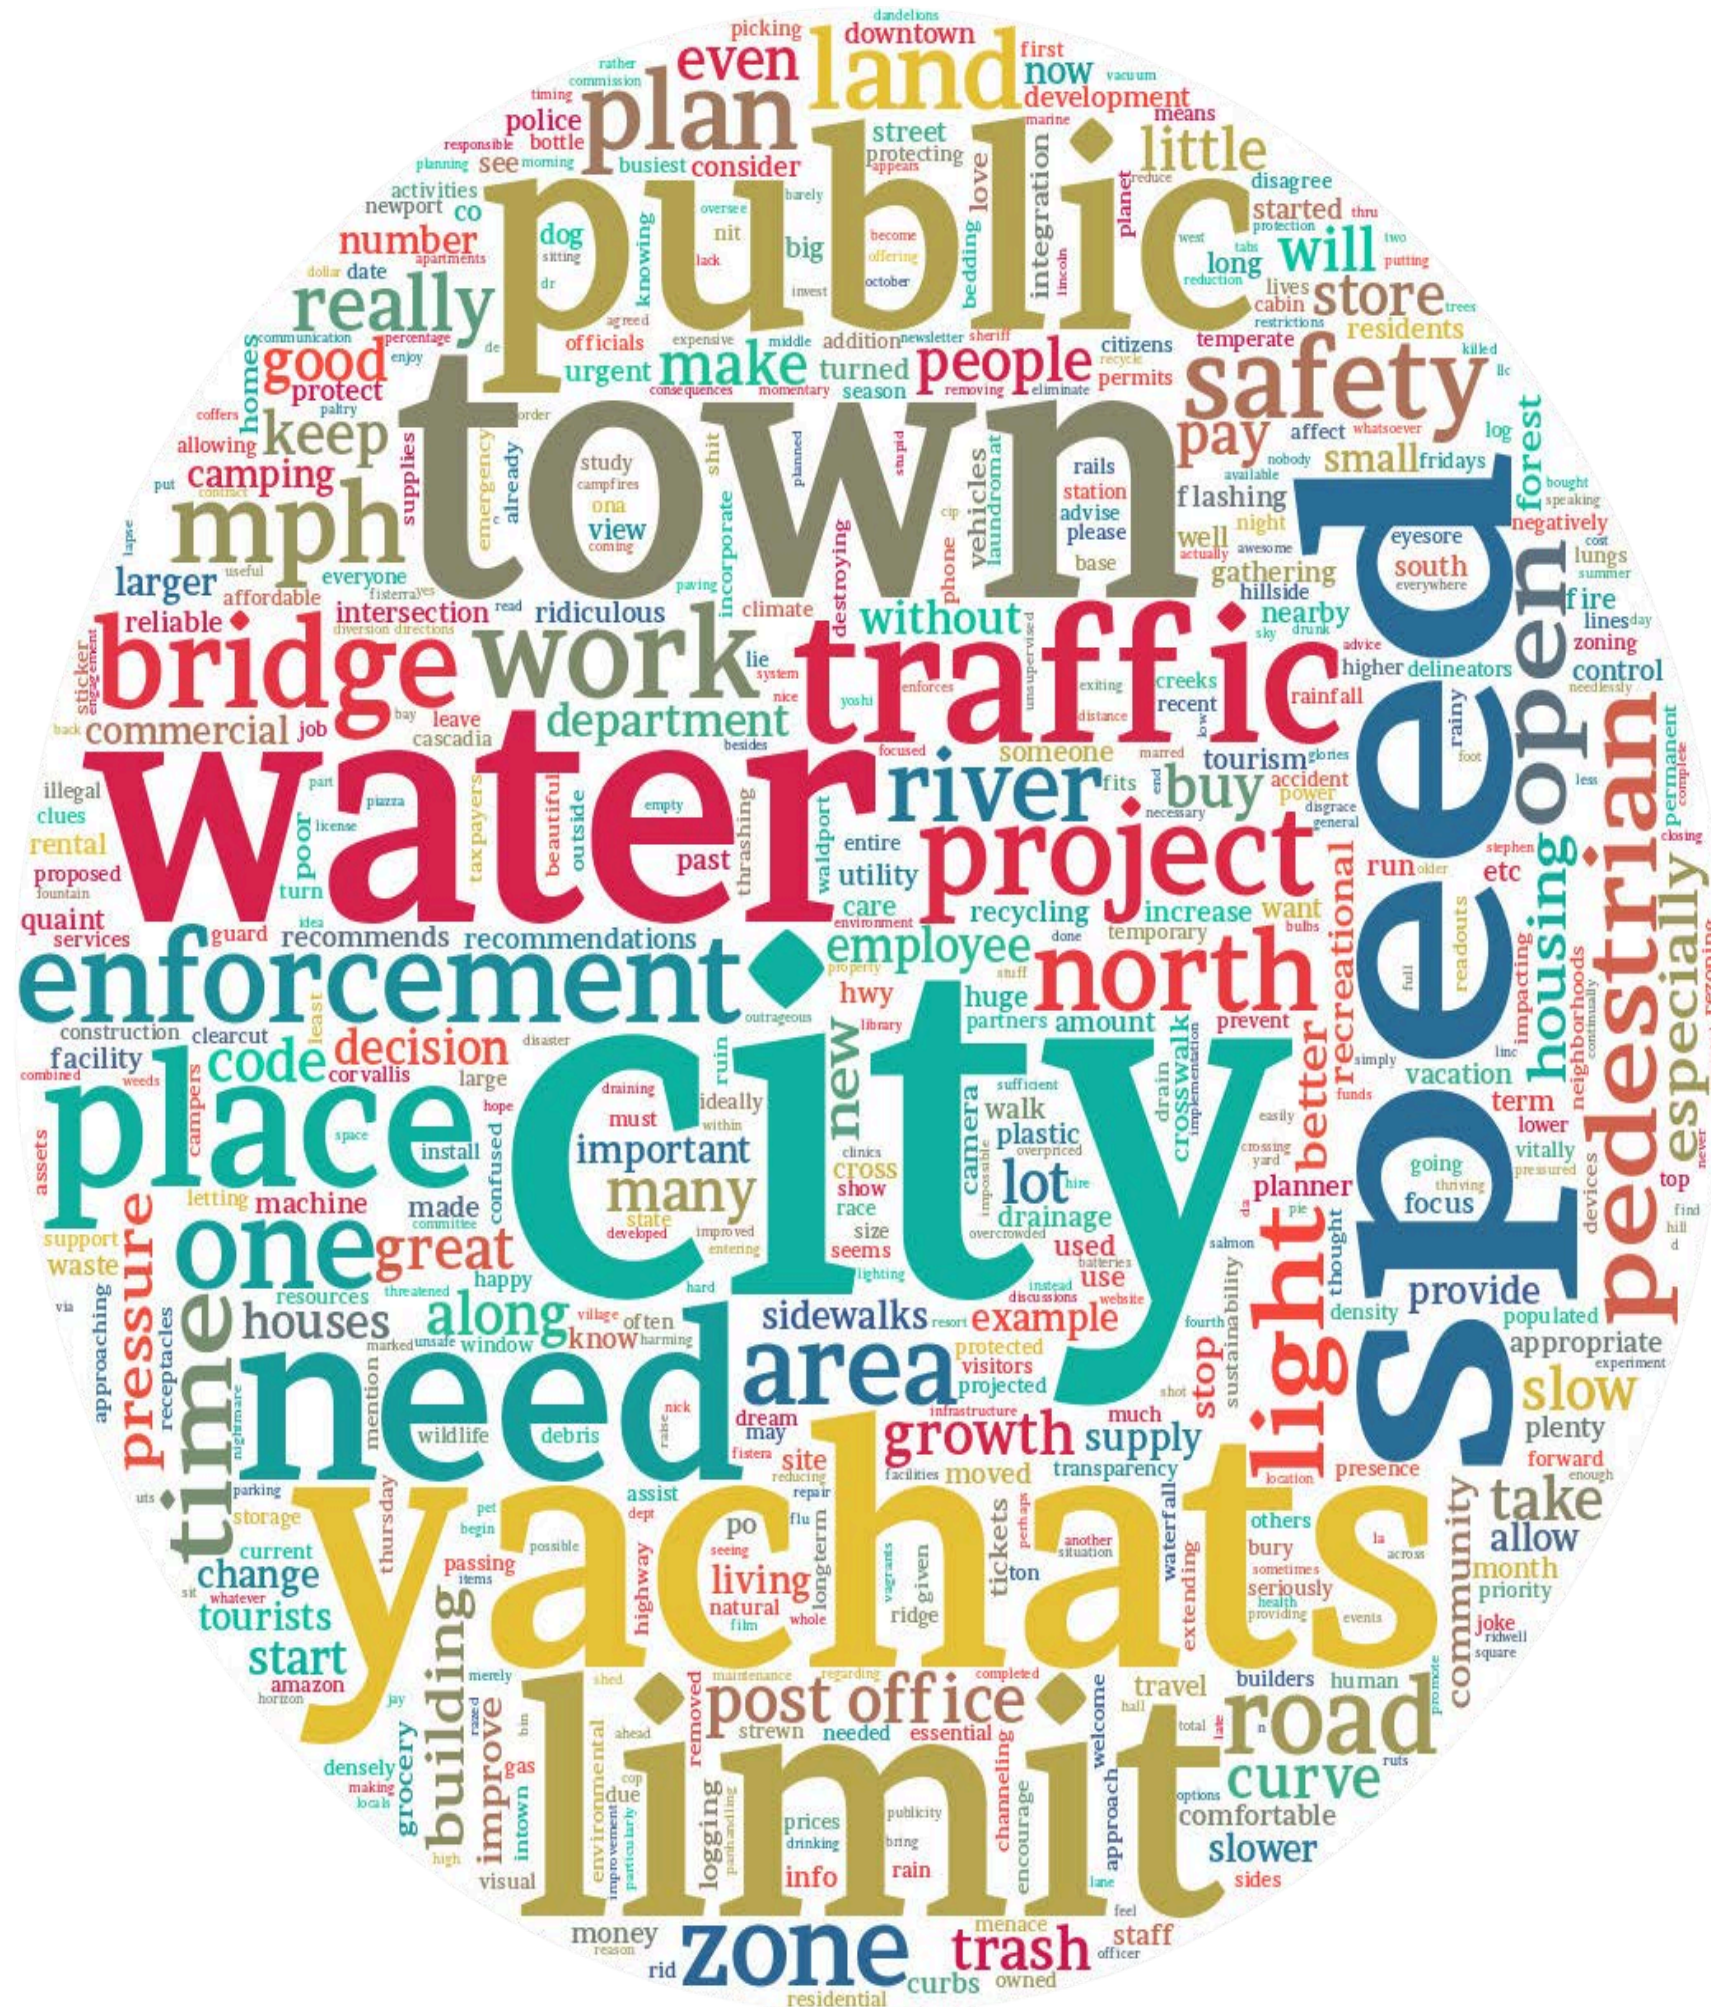

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Speed

- "Pedestrian safety - sidewalks, crosswalks, slower speeds on 101 Highway"
- "More reliable flashing lights at the one downtown intersection and more flashing lights at other cross walks. Extending 25 mph zone further to the north and one of those readouts of current speed to advise of approaching densely populated downtown. The recent accident at the "Ona" curve recommends further guard rails to protect the gathering area outside of the Dream Machine."
- "I'd like to see the 25 mph speed limit start at Fistera Apartments. There is a great amount of foot traffic, with poor or no sidewalks until Dollar General. Two pedestrians have been killed in the past - one at Marine dr, one across from Fistera.
- "Speed control thru city limits via camera & tickets, officer & tickets, speed zone reduction

Water

- “Keep the community up to date in such areas as limits on growth. For example: Given the change in rainfall amounts due to climate change, how many more building permits, both commercial and residential, can the city provide with our projected water supply?
- “Water assets and water supply are a top priority
- “Make water more affordable
- “More accountability for illegal short term rentals, serious discussions on housing crisis, serious work towards infrastructure- water security in particular, more accountability for the fire district (possibly merging with Waldport fire district) and less attention on beautification and trails
- Better integration between public works projects and the city planning department so that projects are not planned, developed, and completed in a vacuum without appropriate integration into the larger long term CIP and development plans. A water committee/commission to oversee implementation of the Yachats Drinking Water Protection Plan and its recommendations.

Results

Which of the following, if any, would you be willing to pay additional fees for improved city services?

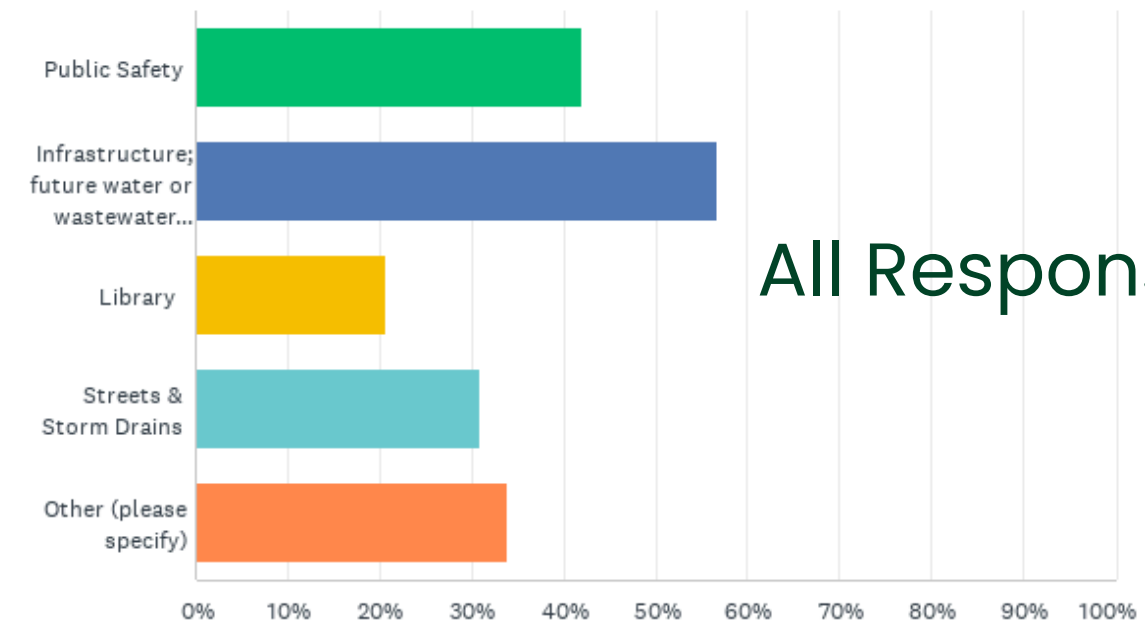

From all responses:

41.91% Public Safety

30.88% Streets & Storm Drains

33.82% Other (highlighted in the word cloud)

Q13 Which of the following, if any, would you be willing to pay additional fees for improved city services?

Other Responses

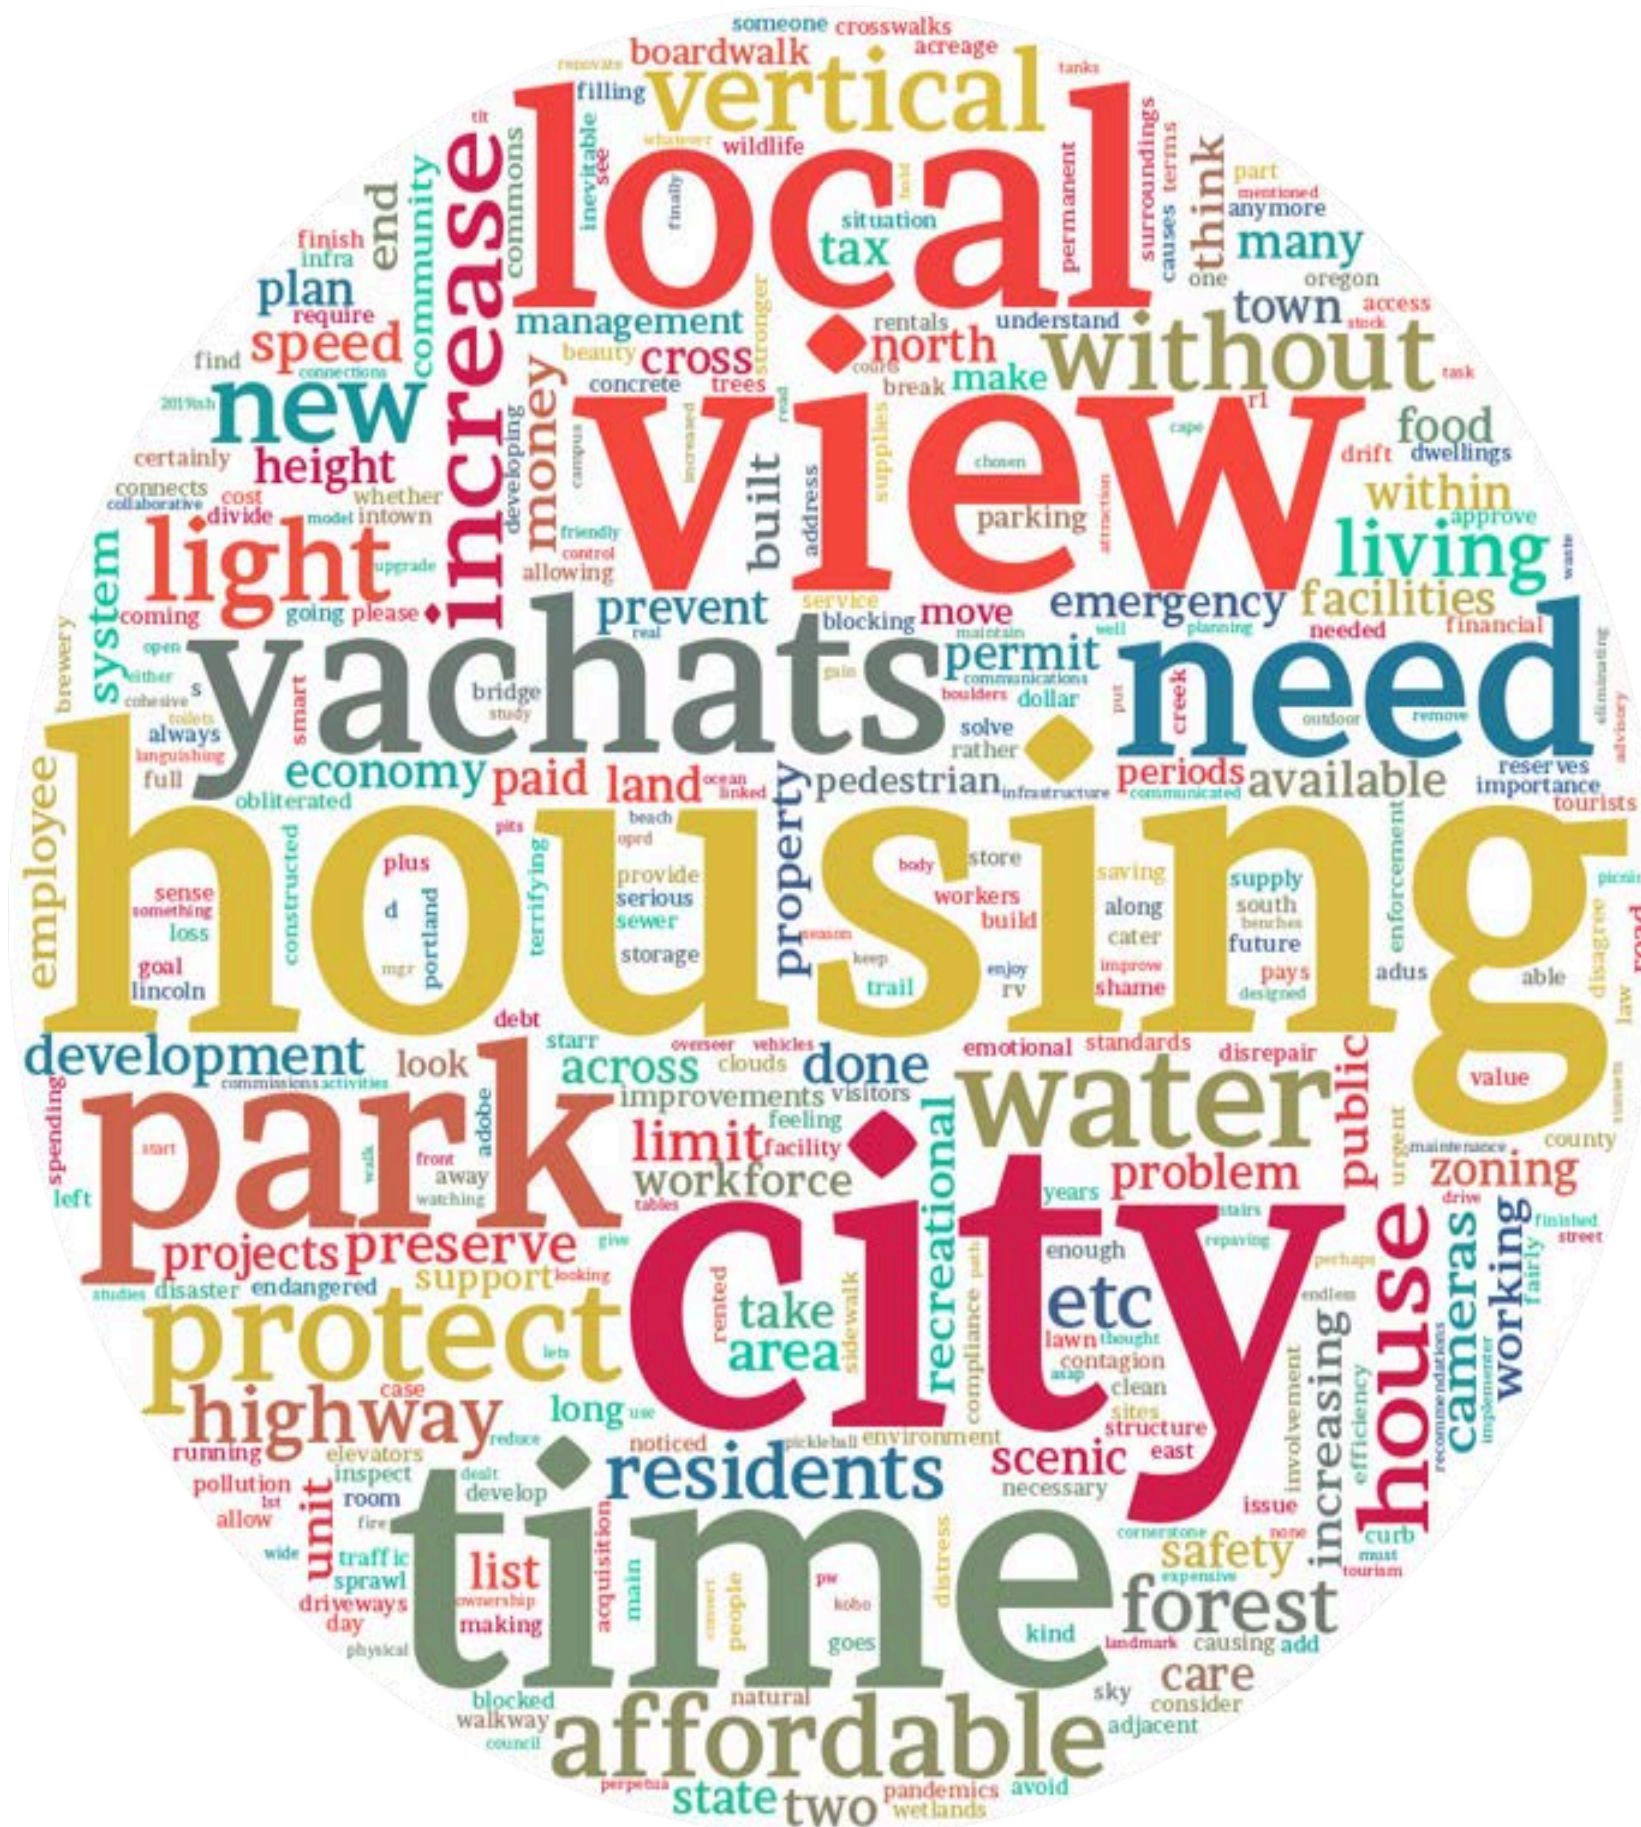

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Housing

- "1. Protect our forest. Without it, Yachats is no longer a destination. 2. Quaint small housing units that are affordable for hospitality workers that are within existing city limits. 3. Expanded emergency supplies for south of the bridge.
- "Workforce housing"
- "1. Sharply decrease the allowed number of short-term rentals. 2. Kick Airbnb out of the town permanently. 3. Build tiny houses.
- "Housing options, revising the comprehensive plan and municipal code, resiliency; water, energy & economic.
- Traffic safety, sustainable tourism, find affordable housing for workforce"
- Local houses, less vacation rentals, less tourism focus
- I'm not sure how much the city can help with these issues, but here goes: 1. Housing options for the local working class. 2. Local transportation options, for tourists and residents might help with the downtown parking issues 3. A local delivery service for those with limited transportation and for tourists
- Public Safety Affordable Housing Infrastructure

Parks/Parking

- Public Safety Parking and toilets for visitors Use delineators instead of rocks that cannot be seen over the hood to guide traffic.
- Waste receptacles Visitor signage, ie, parking, beach access, trails
- Communication, safety on streets & highways, and increased green space, parks, and gardens are also important.
- Recreational facilities, streets, parks
- The estuary boardwalk. The possible addition of a park at the old Landmark site. Paving more roads, or portions of roads in town south of the bridge. Moving the farmers market from forth street to the greenspace behind city hall.

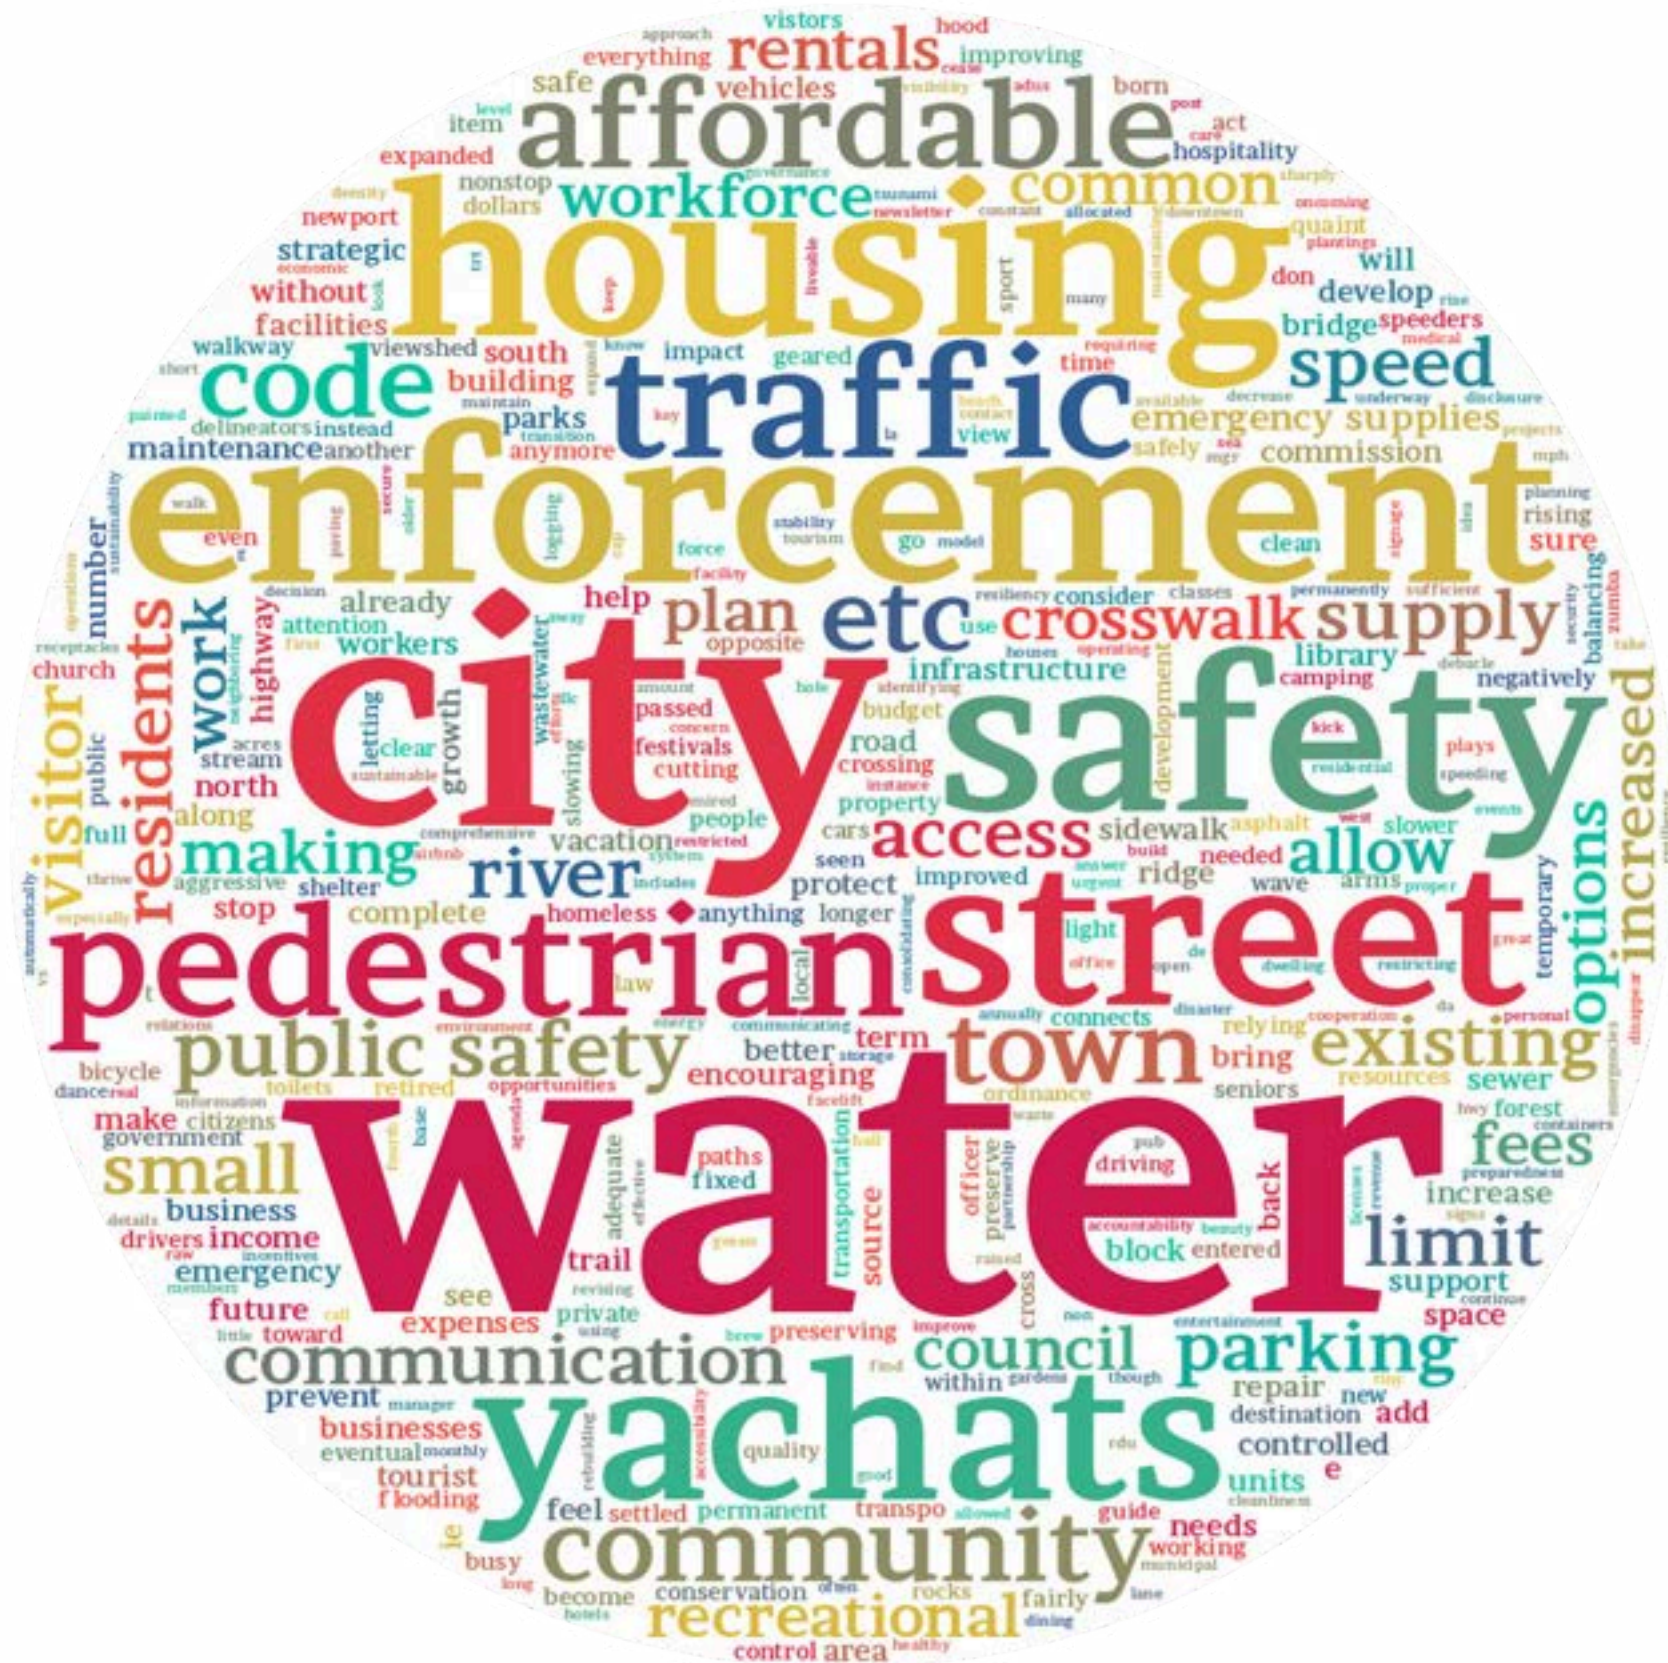

Are there any specific initiatives or projects you would like to see the City undertake in the long-term?

Projects

- Please finish the projects that have been on the list for so many years.
- Affordable Housing Developments: The city could develop partnerships with local organizations or seek state and federal funding to build affordable, sustainable housing options for residents and workers, ensuring the community remains diverse and accessible. Environmental Conservation Projects: Long-term initiatives focused on environmental conservation, such as restoring native habitats, improving stormwater systems, and enhancing coastal erosion management, would help maintain Yachats' natural beauty for future generations. Cultural and Arts Expansion: Creating a dedicated arts and culture district or venue could enhance the town's appeal, promote local artisans, and provide more year-round cultural experiences for residents and visitors alike.
- "I would like the city to give a list of what projects have been languishing for long periods of time. Why are they not being dealt with and finally if something needs to be done and has been on hold for long periods of time that we don't waste more time on endless, expensive studies. Either they need to be finished or we need to move on. Whatever path is chosen it must be communicated to residents. If not, why not? etc., etc.
- Stop undertaking projects and considering buying land

Safety

- --Public involvement with what to do with Food Tax money once the sewer debt is paid off. --
Build up reserves so there is money in the future if/when the economy goes down again --
Develop a public safety and compliance plan for the city
- Beach safety
- Raised walkway from downtown to beach along US101 would be good for safety and connecting the community. Plastic bollards and delineators have been tried in the past, and were destroyed by vehicles fairly quickly. Studies show narrowing lanes is the most effective way to limit speeding, and insubstantial delineators are a very temporary solution.
- Permanent traffic law enforcement on highway 101 within city limits.

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Housing

- Lower-cost housing for employees of local businesses
- The revising of the city's Comprehensive Plan & Municipal Code to bring it up to date with the changing needs of the community, including diversified housing and economic options, walkability, and sustainability.
- Local housing
- Affordable housing
- Consider ADUs. Allow houses in R1 zoning to divide to provide 30 day rentals. Inspect and approve living standards. Tax break if rented to employee in Lincoln county. There are people working in food service living without running water. Shame!

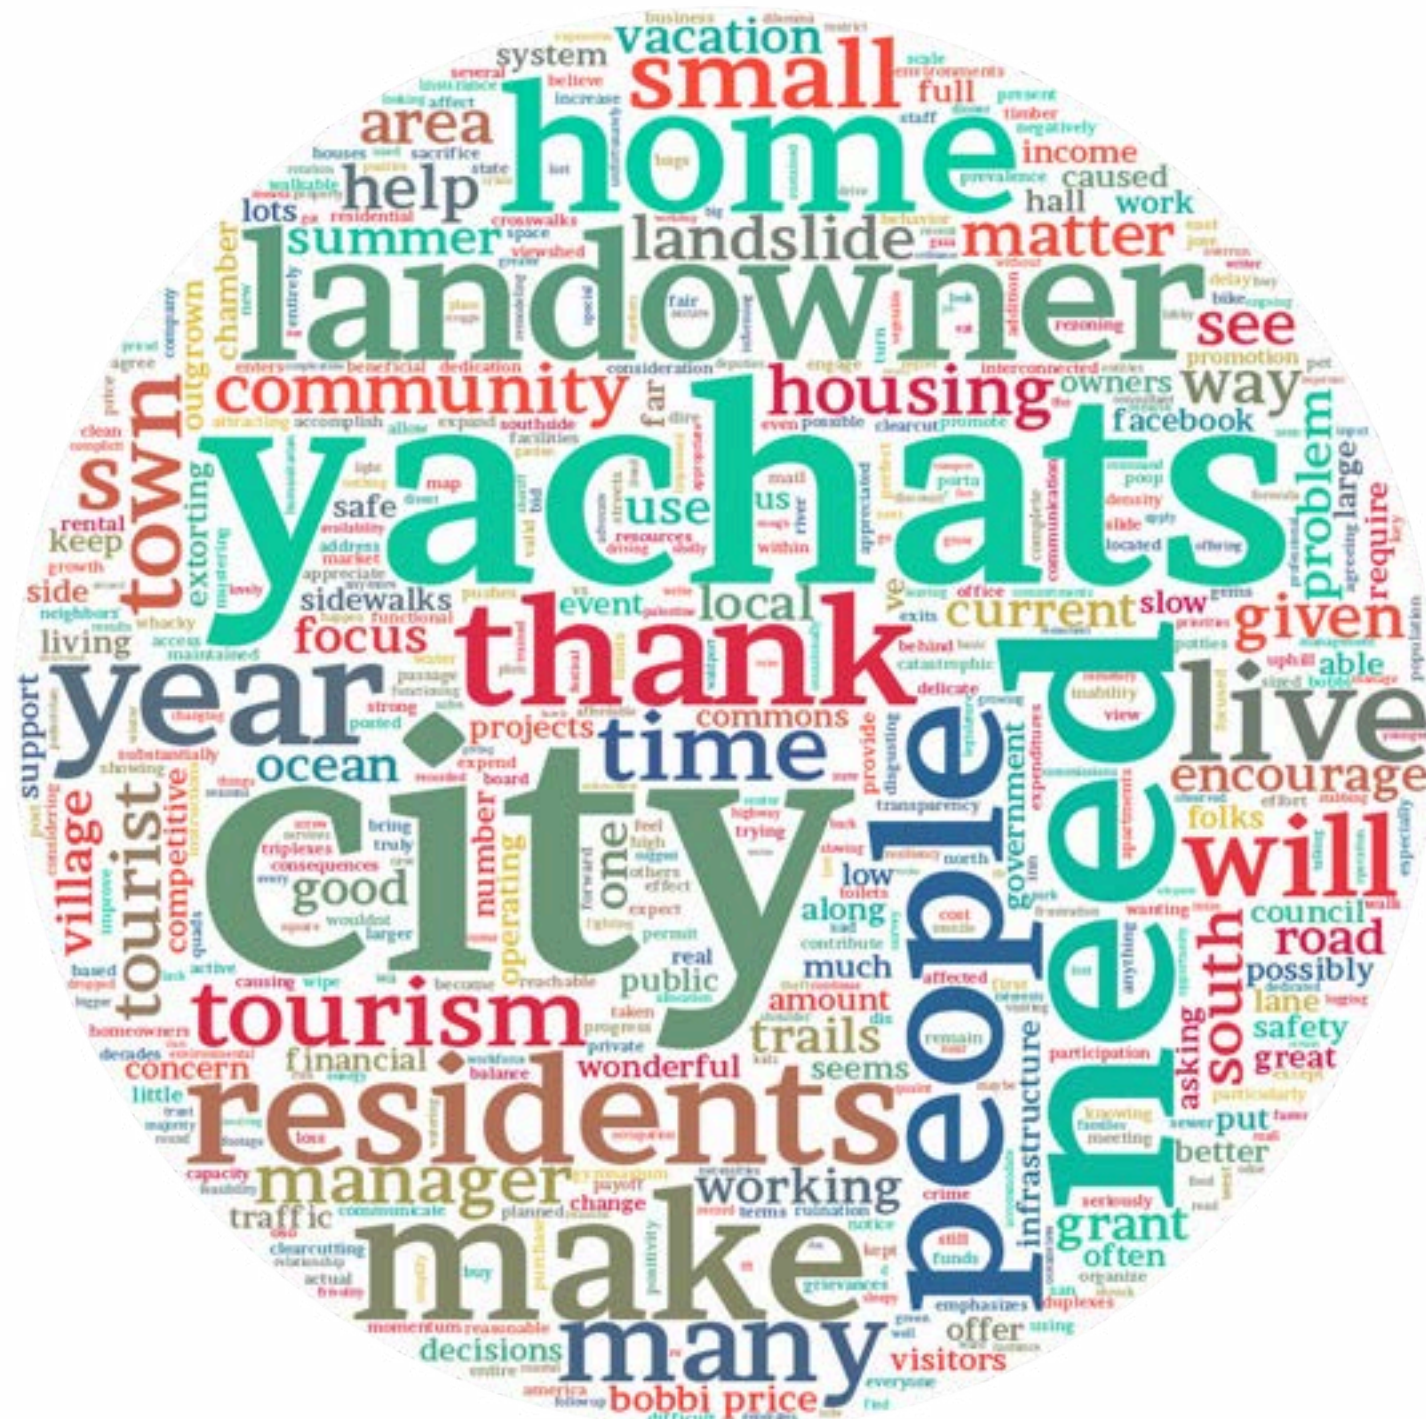

Water

- New water storage tanks
- Costs for water are too high.
- Just water system and preserving some of the natural environment.
- Future water needs Pedestrian safety
- Water Help for seniors Slowing new growth
- Pedestrian Safety, adequate water resources, A Public Safety officer
- Traffic safety, water supply/quality, recreational/sport opportunities
- City Governance -effective Council, City Manager - STABILITY Raw water storage Affordable housing for workers

Is there anything else you would like to share?

Comments

- The city could put itself on the map if it would become a truly walkable city. We have wonderful trails but they remain only reachable to some and not to others. These trails and interconnected systems of sidewalks and crosswalks would permit safe passage for those wanting to access trails and city facilities from residential areas.
- This town is far too focused on tourism vs residents. It's sad.
- Turn Ocean Road into a one-way with sidewalks and bike lanes
- Yachats could use clean, functional public toilets. The porta potties are not sized for the use they get and are often disgusting. When considering rezoning for high density housing, the first consideration should be infrastructure such as water and sewer system and the capacity of our streets. Any apartments or duplexes, triplexes or quads should be located so traffic enters or exits from 101.
- I don't agree with using city funds to payoff a landowner who is extorting the city. Agreeing to anything except a fair market purchase will encourage other landowners to engage in extorting our city
- I'd like the City to look into the feasibility that's what I read of having a vegetable garden watering discount - maybe by square footage. There are lots of great reasons to encourage folks to grow food at home.
- Thank you

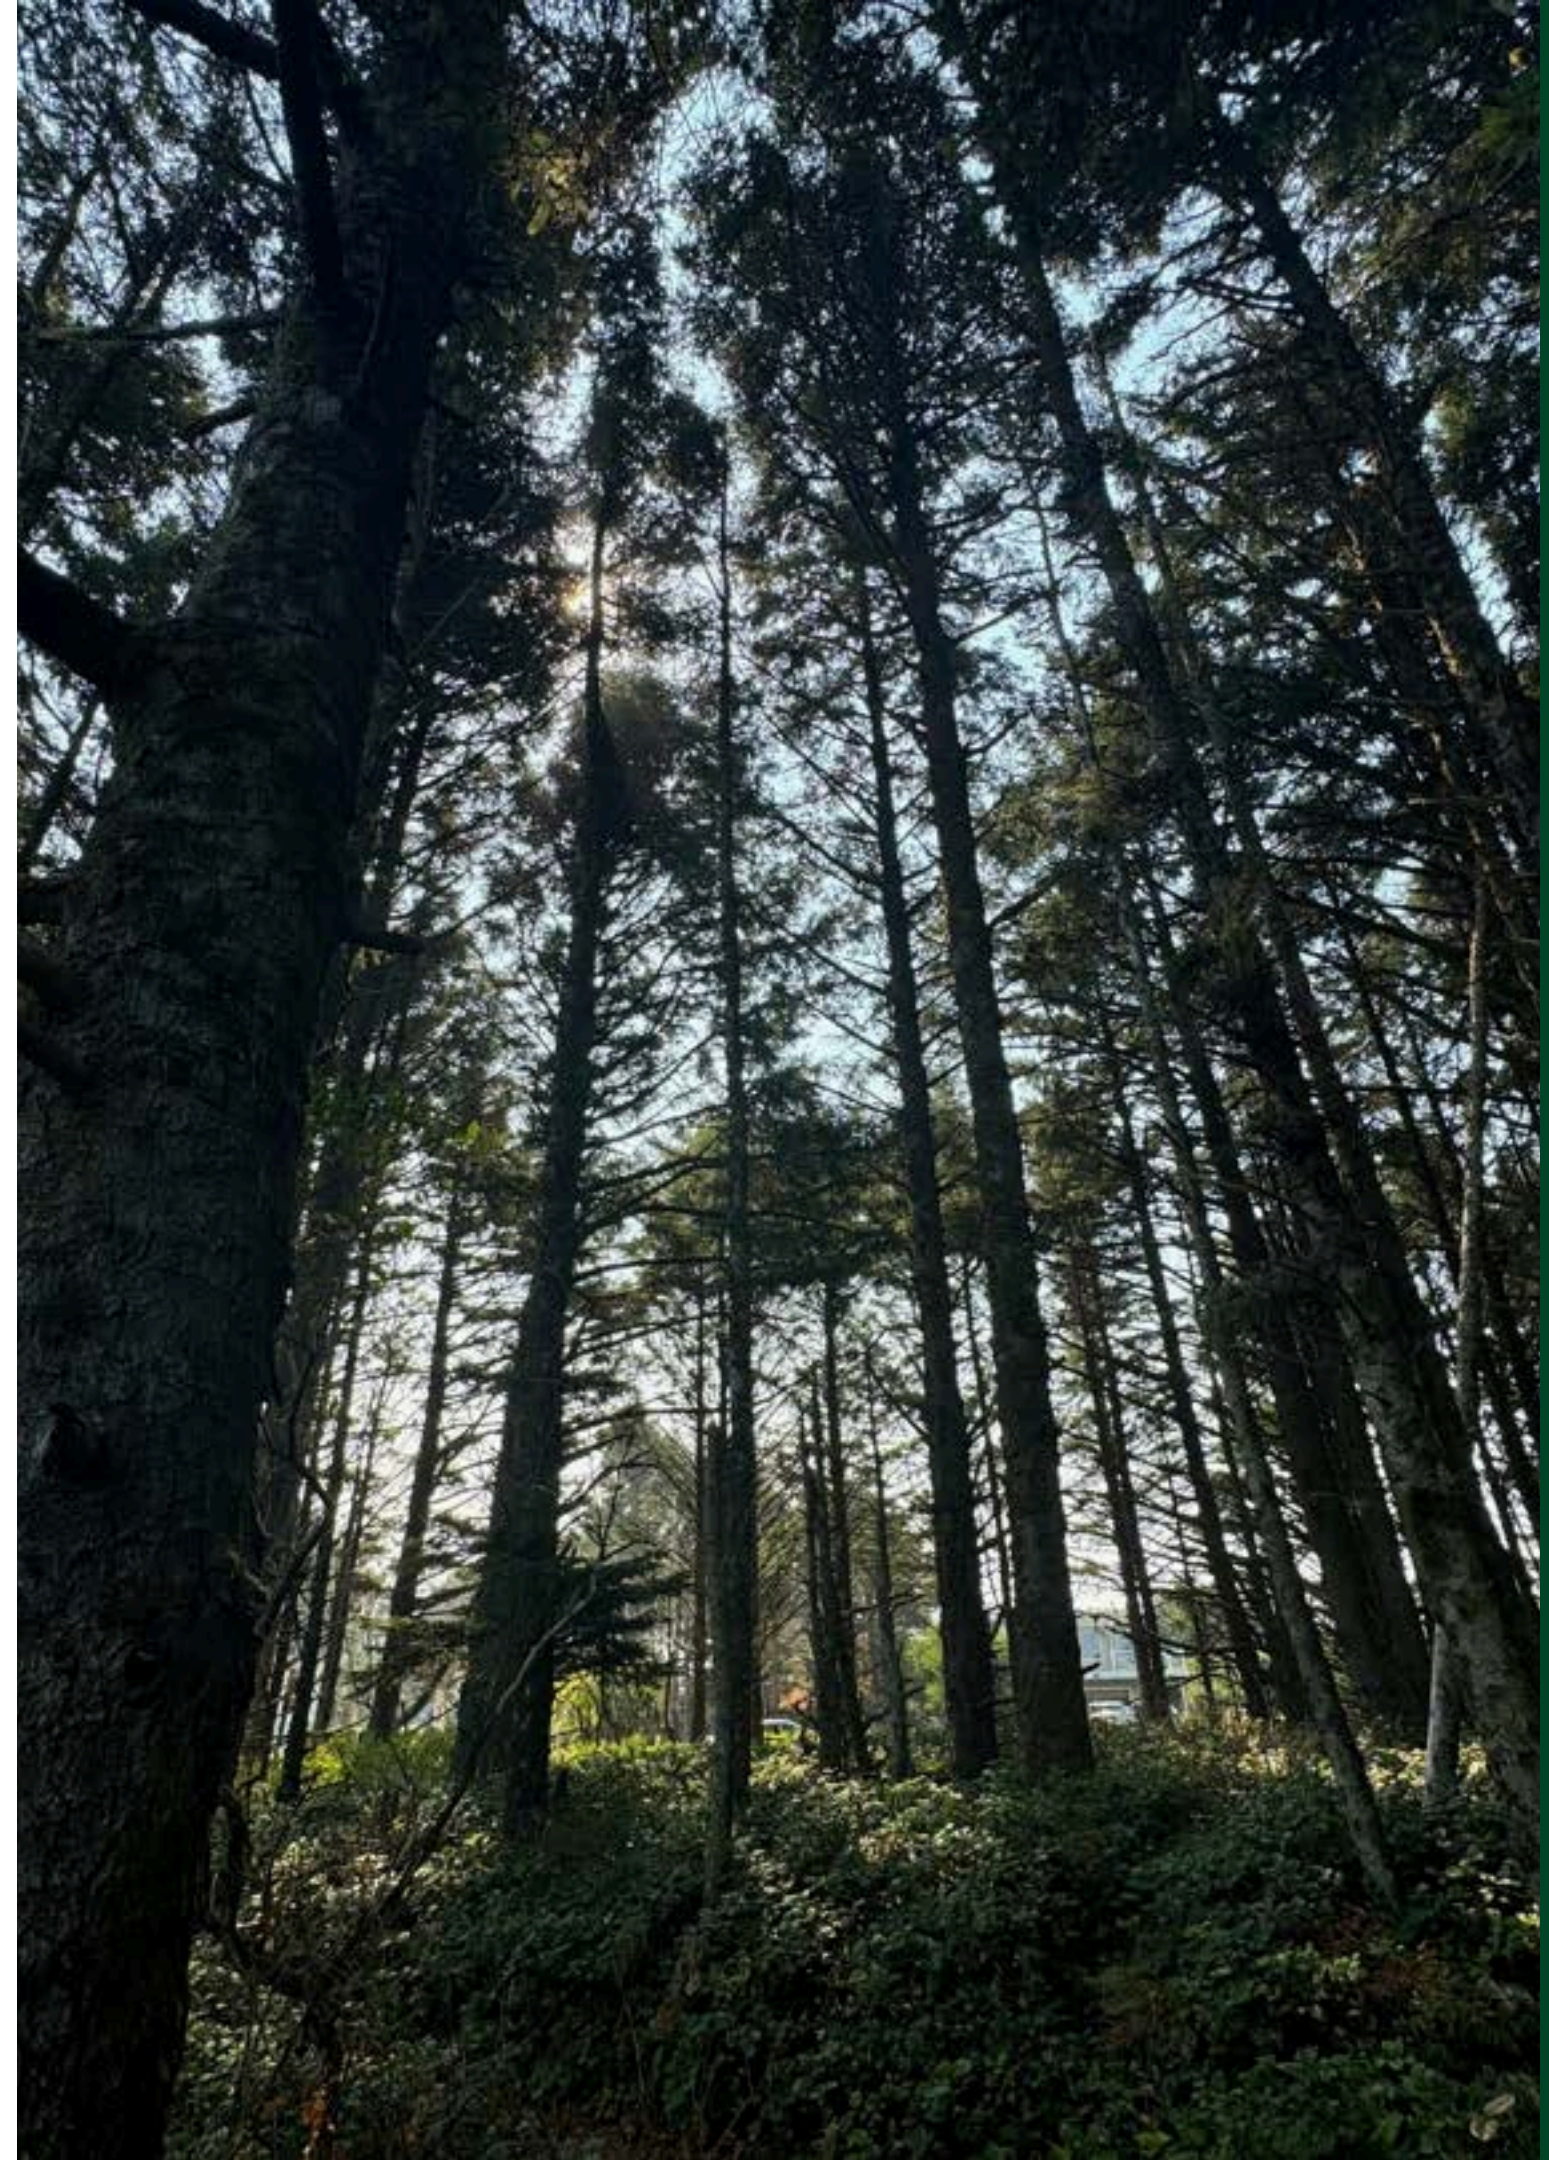

Conclusion

Overall, the city of Yachats resident sentiment survey has proved to be a valuable tool for fostering inclusion and gathering feedback from the community.

By providing residents with an opportunity to share their thoughts anonymously, it allows for a safe and open discourse on important issues affecting the city.

This level of transparency and engageent is crucial for building trust between residents and local government, ultimately leading to more effective decision-making and policies that reflect the needs and desires of the community.

Moving forward, it would be beneficial for the city to continue utilizing resident surveys as a means of promoting resident involvement and ensuring that their voices are heard.

Thank you!

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

I live on Overlook Drive and it's almost to the point where you need four wheel drive to navigate Greenhill, Overlook and Crestline because of the potholes, erosion and lack of grading.

Q13**Public Safety**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Roads

Public safety

Cater more to the residents who live here full time

Q15**Respondent skipped this question**

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Paving repair of Greenhill, Overlook Drive and Crestview

Q17

Is there anything else you would like to share?

I think overall, city government does an amazing job for such a small community.

I am a

Q3

Somewhat satisfied

How satisfied are you with the current services provided by the City of Yachats?

Q4

Respondent skipped this question

How would you rate the overall quality of life in Yachats?

Q5

No

Is the City of Yachats effectively communicating with its residents?

Q6

Dissatisfied

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7

Somewhat important

How important is it for the City to invest in tourism and economic development?

Q8

Disagree

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9

Neither satisfied nor dissatisfied

How satisfied are you with the current level of public transportation options?

Q10

Somewhat dissatisfied

How satisfied are you with the city's recreational opportunities/facilities?

Q11

A moderate amount

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Please start thinking about and taking care of residents instead of constantly trying to attract more tourists. They will come anyway...

Q13

Public Safety,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Other (please specify):
More forest trails

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Water. The city should immediately start working on protecting all current water sources, and should actively investigate new ones- eg Agency Creek that used to supply water to the town. Ensure current creeks are protected, eg Starr Creek, Vingie Creek, Big Creek, Salmon Creek.

Investigate grey water options and if legal and feasible, encourage residents to use them

Housing- Stop developers from clearcutting lots only to find they cannot put in houses at their desired price point because of septic issues. We need to keep all the trees we can around Yachats.

Ask older residents what services they would really like but don't have in Yachats.

Ask younger residents (families with children, single folks) what services they would really like but don't have in Yachats

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

A full service health care clinic in Yachats

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Encourage discounts for local residents at stores and restaurants

Q17

Is there anything else you would like to share?

Keep Yachats environmentally minded. Don't sell out to developers and special interests. Be informed about changes to the Siuslaw forest and tirelessly fight against more logging. Encourage landowners to check out conservation easements. Stop catering to tourists to the detriment of permanent residents.

Y'all are doing a good job, keep it up! Just think more about happy residents, and the tourists will catch the vibe and be happier too!

additional street paving repairing projects

street lighting on upper hill dark areas

visitor water charge at restaurants, drinking establishments ie \$1/person, motels etc ie \$5/person

Q13**Infrastructure; future water or wastewater needs,**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Library,**Streets & Storm Drains****Q14**

What are the top three priorities you believe the City should focus on to improve the community?

Expanding sidewalks on Hwy 101 north & south

Paving gravel streets

Implement the Trolley for local transportation

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Green space development for better community event use

Campus concept of City developed

Boardwalk Ph 1 with the corner property

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Not to start anymore projects until current projects complete or terminated
More promotion for events that draw a weekend crowd during the Winter
Pave La De Da

Q17

Is there anything else you would like to share?

Promoting the RDU concept with controlled requirements such as for low income and not allowing them to be a vacation rental.
Detached RDU only on large lots, RDU attached other wise and limited sf as a guideline

Q10**Somewhat satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11**A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

A survey to determine resident opinion on how to improve/develop the commons grounds was conducted and results were tallied. There: crickets. Looking for an infrastructure recipe? There it is. Season well with additional parking and serve.

Q13**Public Safety**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Public safety funding/continued law enforcement presence, water security, retaining the town's quaint Oregon Coast charm.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Boardwalk project.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Add more parking around the commons/farmer's market area. Finish Little Log Cabin, Library and Commons land use projects.

Q17

Is there anything else you would like to share?

We don't need more studies, surveys, projects or committees. Complete what is already proposed first.

How satisfied are you with the current services provided by the City of Yachats?

Q4
How would you rate the overall quality of life in Yachats?☆ **4****Q5** **It's ok**

Is the City of Yachats effectively communicating with its residents?

Q6 **Neither satisfied nor dissatisfied**

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 **Not so important**

How important is it for the City to invest in tourism and economic development?

Q8 Neither agree nor disagree

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9 Neither satisfied nor dissatisfied

How satisfied are you with the current level of public transportation options?

Q10 Somewhat satisfied

How satisfied are you with the city's recreational opportunities/facilities?

Q11 A lot

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

This seems minor but it adds up over time. There is no organized effort to recycle items at the Commons when there are events. We have mentioned this to anyone who'll listen for 10 years and nothing. This is sad in this day and time.

Q13 Other (please specify):

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Not knowledgeable about what is needed most.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Affordable housing!
Recycling in public places
Better crosswalk alerts

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

This is likely not doable, but the sidewalk "remodel" of a few years ago was, in my opinion, a disaster. I have never heard anything but complaints about dangerous walking challenges and lack of visibility when pulling out of side streets and commercial parking lots. Just terrible!

Q16

Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Is there anything else you would like to share?

Overall, I think the current administration is doing a good job and is wildly improved over the last several.

Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

Q2 **Full time resident**

I am a

Q3 **Satisfied**

How satisfied are you with the current services provided by the City of Yachats?

Q4

How would you rate the overall quality of life in Yachats?

☆ **5****Q5** **Yes**

Is the City of Yachats effectively communicating with its residents?

Q6 **Satisfied**

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 **Very important**

How important is it for the City to invest in tourism and economic development?

Q8**Agree**

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9**Somewhat satisfied**

How satisfied are you with the current level of public transportation options?

Q10**Satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11**A lot**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12**Respondent skipped this question**

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Q13**Respondent skipped this question**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14**Respondent skipped this question**

What are the top three priorities you believe the City should focus on to improve the community?

Q15**Respondent skipped this question**

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

A small fenced dog park in the open space area behind city hall.

Q17

Is there anything else you would like to share?

The clear cutting issue with the private owner is very troubling to me. If this project goes through I'm not sure if I'll continue my residency here as I will be looking at it on a daily basis. I also worry about landslides & pollution to the river.

Streets & Storm Drains**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

1. Prevent logging detrimental to City environment
 2. Carefully review the policies that allow modular homes in City limits. Not a good image.
 3. Keep a watchful eye on businesses like those which have failed recently due to improper financial practices
-

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

We have undergone instability in City government in the past few years. Today's government seems to have restored order and reason once more. We need to keep it that way!

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

How about a community nuclear bomb shelter under Cape Perpetua just in case the world continues on its self-destructive way??

Q17

Is there anything else you would like to share?

Yachats is a lovely, safe, quiet and restful community for permanent residents. It should strive to accommodate tourism with those attributes in mind.

Q1

Yes

Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

Q2

Part time resident

I am a

Q3

Neither satisfied nor dissatisfied

How satisfied are you with the current services provided by the City of Yachats?

Q4

How would you rate the overall quality of life in Yachats?

☆

3

Q5

It's ok

Is the City of Yachats effectively communicating with its residents?

Q6

Neither satisfied nor dissatisfied

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7

Somewhat important

How important is it for the City to invest in tourism and economic development?

Q8

Agree

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9

Satisfied

How satisfied are you with the current level of public transportation options?

Q10

Satisfied

How satisfied are you with the city's recreational opportunities/facilities?

Q11

A moderate amount

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

QUIT WORRYING ABOUT THE SILLY INVASIVE PLANTS THAT GROW WILD EVERYWHERE

Q13

Other (please specify):

Which of the following, if any, would you be willing to pay additional fees for improved city services?

A SMALL COMMUNITY CAN HAVE TO HIGH OF FEES AND TAXES

Q14

What are the top three priorities you believe the City should focus on to improve the community?

THE COMMUNITY IS ON THE RIGH TRACK AND SLOW IS THE BEST ANSWER

Q15

Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Q16

Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Is there anything else you would like to share?

I DON'T LIKE GOVERNMENT GETTING POLITICALLY INVOLVED WITH ENVIROMENTAL ISSUES. EDUCATION. TIMBER REVENUE PROVIDES TAXES NOT FREE LOADING ENVIROMENTALISTS

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Q13 Infrastructure; future water or wastewater needs,

Which of the following, if any, would you be willing to pay additional fees for improved city services? Streets & Storm Drains

Q14
What are the top three priorities you believe the City should focus on to improve the community?

Better communication to the residents about upcoming events and new works projects.

Q15
Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

I'd like to know why a skate park took priority over other projects. A skate park?? Also, not totally sold on the trolley concept.

Q16
Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Let's finally build the damn promenade path thing by the state park!

Q17

Is there anything else you would like to share?

Better social media presence about upcoming events. Email blasts. Newsletters. A city website that is easy to navigate. Basically, improved communication on all fronts.

How satisfied are you with the city's recreational opportunities/facilities?

Q11**A lot**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Keep a sheriff presence in and around the town.

Q13**Public Safety**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Don't encourage more tourism please.

Keep funding sheriff services.

Better cell phone tower, the coverage here is terrible.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Keep up the trails in and around town.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Buy out the idiot who wants to clear cut his inherited timber parcel south of town.
Improve the cell tower situation.

Q17

Is there anything else you would like to share?

Having the sheriff around has helped discourage the presence of bums on meth that were hanging around the CK and surrounding areas. Keep this up. Don't want that element around here.

Q11 **A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Traffic on 101 has become a hazard to individual trying to cross the street. Enforcement of speed limits is not taken seriously and walking on the edges of the city both North and South is dangerous. Potholes and poor street conditions throughout town also make it hazardous to walk. The Commons park has become run down and needs attention.

Q13 **Public Safety,**
Infrastructure; future water or wastewater needs,
Library,
Streets & Storm Drains,
Other (please specify):
Parks, open land

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q11 A moderate amount

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

More public garbage cans for tourists - cost of doing business

Replace unreliable highway crosswalk switch with something reliable - it's a hazard to pedestrians and confusing for motorists.

Q13 Infrastructure; future water or wastewater needs,

Which of the following, if any, would you be willing to pay additional fees for improved city services? Streets & Storm Drains

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Focus on livability supports both the community and tourism: adequate water system, safe roads in good repair, and maintain current or similar community events

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Raised walkway from downtown to beach along US101 would be good for safety and connecting the community. Plastic bollards and delineators have been tried in the past, and were destroyed by vehicles fairly quickly. Studies show narrowing lanes is the most effective way to limit speeding, and insubstantial delineators are a very temporary solution.

Q16

Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Is there anything else you would like to share?

Livability suffers when you increase population density beyond comfortable levels. People like to live in Yachats because it's not like a dense big city neighborhood. Infill is a poisonous trap for small towns with no industry, where living space, closeness to nature and wildlife, and low traffic and crime rates are important.

If infill must happen, it must be non-coercive and granted in a case-by-case manner, with effected neighbors having a direct vote or veto. Too often city planners see dollar signs from potential permits and tax revenue projections and disregard livability and the limits of a city's infrastructure.

Q10

Satisfied

How satisfied are you with the city's recreational opportunities/facilities?

Q11

A great deal

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Yes. Infrastructure is moving apace with the Masterplan plan. I'm happy with the organization the CC chose to do that important work. Public safety is getting better thanks to the contract with Lincoln County. Environmental sustainability seems to be firing on all thrusters given the limited options in our tiny town. One area that could be improved related to this, however, would be in walkability. The Estuary Walkway is a great idea-- even a scaled down plan would be great. We just need a safe ped corridor on OVD from 101 to the state park. The work on 101 with ped stanchions will be very good. It's a county road, but walking on Yachats River Road is dangerous, particularly from 101 to just before Cedar. It's far more dangerous than OVD and 101 IMO due to the lack of visibility due to the elevation rise and the very narrow confines of the road. More people could safely walk or bike into town if this was addressed. And that's related to environmental sustainability.

Q13

Infrastructure; future water or wastewater needs,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Other (please specify):

Public safety only if crime increased quite a bit from where it is currently.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

BTW, communication from the city is about to improve thanks to emailed newsletters, etc from the city to any resident, not just homeowners. Thank you for implementing that! My answer to Question 5 above reflects the present and past, not the future :-). As to top priorities: 1- Ped Safety, 2- Earthquake resilience for water and sewer system, 3- Maintenance (and expansion where possible) of city parks and trails.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Continued management of the homeless issues. Thank you for the humane and common sense approaches that are being applied.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

I'd like to see a Workgroup formed to investigate and recommend new and untried approaches to slowing cars down entering and driving within the 25 mph zone of 101 in Yachats.

Q17

Is there anything else you would like to share?

Yachats rocks! The new CM and our current Council are doing a superlative job in leading and managing the Gem of the Oregon Coast. The utilization of the new Yachats city logos throughout the city is effective in helping to convey a feeling of unity and high quality care within the city.

Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

Q2 Full time resident

I am a

Q3 Very satisfied

How satisfied are you with the current services provided by the City of Yachats?

Q4

How would you rate the overall quality of life in Yachats?

☆ 5

Q5 Yes

Is the City of Yachats effectively communicating with its residents?

Q6 Very satisfied

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 Not so important

How important is it for the City to invest in tourism and economic development?

Q8**Agree**

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9**Somewhat satisfied**

How satisfied are you with the current level of public transportation options?

Q10**Very satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11**A great deal**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

More accountability for illegal short term rentals, serious discussions on housing crisis, serious work towards infrastructure- water security in particular, more accountability for the fire district (possibly merging with waldport fire district) and less attention on beautification and trails

Q13**Public Safety,**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

**Infrastructure; future water or wastewater needs,
Streets & Storm Drains**

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Infrastructure, water, safety, wildfire management

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Long term housing for our workers

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Water security and wild fire management

Q17

Is there anything else you would like to share?

Overall, the city is moving a great direction- better management and tightening loose ends. Keeping on track for long term sustainability should be a priority while keeping priorities and level of government actions in proportion to the needs of the community.

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Infrastructure should come first. No debate.

With regard to other projects, as my mom would say, "Eat what's on your plate first." Finish (or at least start!) work on the library, the little log church, and the Commons before allocating additional general fund dollars for pet projects.

If people want the feel and amenities of a large city, maybe this isn't the place for them. Our population is too small to pay for everyone's wants.

Residents moved here for the natural beauty, and that's what brings tourists here too. Leave it alone.

Q13**Respondent skipped this question**

Q11 **A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Cost of water and sewer is extremely high. Glad to learn that vacation rental owners and restaurants will be paying more. Good decision.

Q13 **Public Safety**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Public safety - part time deputy is a good start.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

More services for senior citizens. I.e. physical activity equipment on the playground

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Initiative for senior citizens (75 +) for lower water and sewer rates.

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Overall, my rankings are high, but this is due to the efforts of our current City Council and the incredible work and leadership of our current City Manager

Q13

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Public Safety,**Infrastructure; future water or wastewater needs,**

Other (please specify):

Parks, parks, parks!!!

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Hopefully, with an updated Civic Campus Master Plan, Council, Citizens and City Staff can come together to look at long short AND long term goals to address infrastructure and quality of life, while preserving and enhancing the natural beauty of our small village.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

-Elimination of invasive plant material, particularly Japanese knotweed.

-Explore legal action to deal with abandoned homes.

-Support for builders committed to building homes for our workers.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Continue with the Boardwalk and plans for the Estuary.

Q17

Is there anything else you would like to share?

Thanks to City Staff for all you do!

Q3 Somewhat satisfied

How satisfied are you with the current services provided by the City of Yachats?

Q4
How would you rate the overall quality of life in Yachats?

☆ 5

Q5 It's ok

Is the City of Yachats effectively communicating with its residents?

Q6 Neither satisfied nor dissatisfied

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 Somewhat important

How important is it for the City to invest in tourism and economic development?

Q8

Strongly agree

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9

Satisfied

How satisfied are you with the current level of public transportation options?

Q10

Somewhat satisfied

How satisfied are you with the city's recreational opportunities/facilities?

Q11

A lot

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

More paved streets, or portions of streets in town south of the bridge.

It would be great if the yard debris dumpster could be positioned in a trench that was 3 or 4 feet deep so that loading yard debris into it was a lot easier.

Q13

Streets & Storm Drains,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Other (please specify):

Paving more roads, or sections of roads in town south of the bridge.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

The estuary boardwalk.

The possible addition of a park at the old Landmark site.

Paving more roads, or portions of roads in town south of the bridge.

Moving the farmers market from forth street to the greenspace behind city hall.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

I swimming pool. Specifically, a pool design for lap swimming.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

The estuary boardwalk.

The possible addition of a park at the old Landmark site.

Q17

Is there anything else you would like to share?

I have examples in my email "sent" box of times when I've reached out to city staff and received no reply. Even examples of when I send a follow up email to ask about not receiving a reply that go unacknowledged. The fact that this isn't a one-of event suggests it is a business culture problem in city hall. Common courtesy would suggest that people who reach out to city staff should feel they were attended to. An email reply is the very least one should expect.

Q7 Somewhat important

How important is it for the City to invest in tourism and economic development?

Q8 **Neither agree nor disagree**

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9 **Neither satisfied nor dissatisfied**

How satisfied are you with the current level of public transportation options?

Q10 **Somewhat dissatisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11 **A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Nature and the ocean are very important. Walking trails are pretty good, but having to walk along the highway is often hazardous and the intersection of Beach St. and 2nd is downright dangerous. Vehicles go way too fast and endanger all walkers and bike riders. We need to enforce the 25 mph speed limit.

Q13 **Public Safety**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

More casual gatherings in the Commons and/or the Pavilion.
Better display of 15mph speed limit along Yachats Ocean Road and a speed bump or two.
Delineators along Hwy 101 to separate traffic and pedestrians.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Repainting the white "fog line" along Hwy 101. It is very faded and almost invisible and will be much more so as we have less daylight and rainy weather.

Q16

Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Is there anything else you would like to share?

I think Bobbi and Craig are doing a really good job. Thank you for all you do for Yachats.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Traffic downtown is becoming more and more congested at the west side intersections of 2nd St and 3rd St. / Hwy 101. The tight street entrances there are difficult to maneuver since the ODOT downtown improvements. I feel they should remove the curtains narrowing the entrances to both streets.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Streets and Storm Drains.

Q17

Is there anything else you would like to share?

There are far too many homes operating in the city as vacation rentals that are unlicensed. I am not certain why we have a vacation rental ordinance if there is no enforcement of the rules.

Q13 Public Safety

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14
What are the top three priorities you believe the City should focus on to improve the community?

Do something with the green space area. This is something that we have been "discussing" since I moved here 10 years ago. Seeing how Waldport has been able to move forward with their new park incorporating everything from a dog park to pickleball courts (both of which residents here have been clamoring for) makes it all the more frustrating.

Q15 Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Q16
Are there any specific initiatives or projects you would like to see the City undertake in the near future?

See comments above about making the green space behind the commons into something usable. Also, work on revitalizing the wetlands boardwalk before it becomes a safety hazard.

Q11 **None at all**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

City Government staff should consider all residents and refrain from being biased and political. Haven't you ever wondered why it is the same people volunteering, sharing viewpoints, participate in activities, etc... Answer: Things don't change. The 'in' crowd usually gets what they want. Consider costs for sustainability. Do we really need an electric trolley/bus? Why do we have to pay the Sheriff's office they should be providing? Some people who live here are tapped out. What about them. You all have a responsibility to each and everyone that pays taxes. I rated living in Yachats 5 stars. Why? It is beautiful here. The down side is the politics and the protesters. It isn't safe for opposing viewpoints. Read some of the personal posts on FB.

Q13 **Other (please specify):**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Why do we have to pay more? Don't you think water is a priority?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

1) Stop spending on pet projects 2) Earn trust from the regular people 3) Stop with the politics.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Water, sewer, reducing power outages, forest fire prevention

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Water, sewer, reducing power outages, forest fire prevention

Q17

Is there anything else you would like to share?

We all matter, and we are all important.

Q11

A lot

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

We really need more housing options for the working class in order to sustain all of the services we offer for tourism.

Q13

Public Safety,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Infrastructure; future water or wastewater needs,

Other (please specify):

Housing for the folks we need to work here.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

I'm not sure how much the city can help with these issues, but here goes:

1. Housing options for the local working class.
 2. Local transportation options, for tourists and residents might help with the downtown parking issues
 3. A local delivery service for those with limited transportation and for tourists
-

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

See answers in question # 14

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

See answers in question # 14

Q17

Is there anything else you would like to share?

Yachats is a wonderful community, but we don't have enough support for the local restaurants, stores, and hotels around here due to the fact that there is very little housing or adequate transport for working class people. It's a real struggle that seems to be getting worse.

Q10 **Somewhat satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11 **A great deal**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Progress can be such a slog sometimes. How long are we going to talk about the library, or log church without getting something done? Or delineators? Or delays that cost us money like paving LaDeDa Lane?

Things somehow need to be streamlined...

Q13 **Infrastructure; future water or wastewater needs,**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Other (please specify):

Expansion of commons to make a larger "event center."

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Affordable Housing: The city should prioritize creating affordable housing options for both residents and seasonal workers. As Yachats continues to attract tourists and retirees, housing costs are rising, making it difficult for younger families and local workers to live in the community.

Sustainable Tourism Development: Ensuring that the influx of tourists is managed in an environmentally and socially responsible way should be a focus. Investing in eco-friendly infrastructure, such as more public transportation options and sustainable waste management systems, would protect the natural environment while supporting the local economy.

Infrastructure Improvement: Enhancing public services such as road maintenance, emergency services, and internet connectivity is crucial, especially with the town's reliance on seasonal tourism and potential growth in remote work opportunities. Ensuring access to reliable utilities and broadband can improve quality of life for residents and businesses alike.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Affordable Housing Developments: The city could develop partnerships with local organizations or seek state and federal funding to build affordable, sustainable housing options for residents and workers, ensuring the community remains diverse and accessible.

Environmental Conservation Projects: Long-term initiatives focused on environmental conservation, such as restoring native habitats, improving stormwater systems, and enhancing coastal erosion management, would help maintain Yachats' natural beauty for future generations.

Cultural and Arts Expansion: Creating a dedicated arts and culture district or venue could enhance the town's appeal, promote local artisans, and provide more year-round cultural experiences for residents and visitors alike.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Community Space Development: Enhancing public spaces, such as parks, community gardens, or multipurpose recreational facilities, gym, senior center, could foster more community engagement and provide gathering places for residents.

Pedestrian and Cycling Infrastructure: Implementing safer pedestrian walkways and bike paths, especially along major routes used by tourists and locals, could reduce traffic congestion and promote more eco-friendly transportation options.

Small Business Support Programs: In the near term, offering small business grants or resources for local entrepreneurs, especially in tourism or the arts, could help stimulate economic growth and diversify the local economy.

Public safety

Q13 **Public Safety,**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Other (please specify):
mow along 101 and other streets

Q14

What are the top three priorities you believe the City should focus on to improve the community?

police and fire
code enforcement
allow ADUs in R-1 zoning for 30-day rentals

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

The boardwalk is well designed; lets get it built asap
toilets and parking
in front of Koho, picnic tables and benches for those who cannot walk down the stairs but would enjoy watching sunsets, perhaps fire pits there too and more parking in this area, remove boulders by the road

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

The pocket parks are coming along well as is the commercial district plantings. Keep encouraging them.

Q17

Is there anything else you would like to share?

Would like to see more younger families here. Unfortunately many are priced out of the area.

I am a

Q3 Somewhat satisfied

How satisfied are you with the current services provided by the City of Yachats?

Q4 Respondent skipped this question

How would you rate the overall quality of life in Yachats?

Q5 It's ok

Is the City of Yachats effectively communicating with its residents?

Q6 Neither satisfied nor dissatisfied

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 Extremely important

How important is it for the City to invest in tourism and economic development?

Q8 **Neither agree nor disagree**

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9 **Respondent skipped this question**

How satisfied are you with the current level of public transportation options?

Q10 **Very satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11 **A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

More affordable family type restaurants for Yachadians & tourists. Last summer our tourists were lined up outside in a line waiting to get seated. Children are unable to wait are longer period. Our restaurants are not suited say for a family as far as price. Blue Whale is a family type restaurant but they close at 3:00 due to short handed. Food trucks are an added possibility. I'm not putting down the established restaurants, just adding affordable ones.

Q13 **Public Safety**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Parking, Health Service (we had a very successful one years back), a couple gift stores that have warm/ weather proof clothing for our unpredictable weather I.e. like Patty Cakes a few years back. Wendy had a variety of items to buy. Mercantile is great store, just a little spendy.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Read above

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

The Landmark was a great gathering place for adults, large enough for dancing, having a meal or watching sports. Our current gathering spots are too small & menus are not sufficient.

Q17

Is there anything else you would like to share?

Our infrastructure is outgrown our bigger tourists visitors. Our quaint small mall needs remodeling to accommodate the large amount of growing tourists we see every year. Last summer had to be a record of people visiting in Yachats which we need, however I'm not sure we can provide the services they need.

When observed our tourist, for instance of 5 looking for a affordable place to eat dinner. Possibly just driving through on vacation. They just on to Waldport.

Q11**A lot**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Get a city planner who actually enforces building codes.

Q13**Other (please specify):**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Land purchase for raw water storage.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

1. Water security
 2. Less spent on pocket parks and fru fru trails projects. Boardwalk is a great idea but don't need the viewing platforms.
 3. Get rid of parks and commons commission.
-

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Parks and Commons has been out of control since 2019ish. They are advisory body, not a task implementer nor an overseer. Management of city property should be done by paid employees.

Q16

Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Invest time and money to increase our own water system.

Q13**Infrastructure; future water or wastewater needs**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Stop letting lot owners clearcut the trees.

Keep working on trail project over looking river.

Give credit for those that support community through being here, not just people who volunteer, not all can!

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Keep working to increase our own water system.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Just water system and preserving some of the natural environment.

Q17

Is there anything else you would like to share?

There is just too much talking about the town government.

Why did the plots in cemetery go from \$500 to \$1,000 without informing locals that would happen.

Q13

Streets & Storm Drains

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Take action on the recommendations from the housing study done a year or so ago- change zoning to allow for more development of housing for people who work in Yachats and for full time renters - not vacation homes or vacation rentals.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

As mentioned above- start looking at the recommendations from the housing study the city had done.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Same as above

Q17

Is there anything else you would like to share?

I've lived her for 35 years- we are not a sleepy little coastal village anymore. We need housing got folks tho want to work here and live here full time.

Q1 Yes

Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

Q2 Full time resident

I am a

Q3 Satisfied

How satisfied are you with the current services provided by the City of Yachats?

Q4
How would you rate the overall quality of life in Yachats?

☆ 5

Q5 It's ok

Is the City of Yachats effectively communicating with its residents?

Q6 Neither satisfied nor dissatisfied

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 Not so important

How important is it for the City to invest in tourism and economic development?

Q8**Agree**

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9**Somewhat satisfied**

How satisfied are you with the current level of public transportation options?

Q10**Satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11**A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Public safety on hwy 101

Q13**Public Safety**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

101 safety

Rebuilding the library

No tourist parking at the post office

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Beach safety

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Little log church

Q17

Is there anything else you would like to share?

I miss the Yachats of the 70's

How important is it for the City to invest in tourism and economic development?

Q8

Strongly disagree

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9

Very dissatisfied

How satisfied are you with the current level of public transportation options?

Q10

Somewhat dissatisfied

How satisfied are you with the city's recreational opportunities/facilities?

Q11

None at all

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

You have turned this quaint little village into a resort town - making it impossible to feel comfortable within town. No parking-uts overcrowded-the 101 is a nightmare during the summer. Great place for tourists - not for living long term. Don't even get me started on the post office situation!

Q13

Respondent skipped this question

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Make the community more liveable for it's residents.

Q11**A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Begin focused work on street repair and paving, especially West Fourth Street and La de Da Lane.

Q13**Other (please specify):**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

None. Use money more wisely

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Workforce housing

ADUs (the planning commission is mired in details)

Paving key streets downtown, especially West Fourth Street and La de Da Lane

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Gain ownership of Yachats State Park from OPRD to make it a cornerstone attraction for the community. Use TLT money to upgrade and then maintain it.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Begin aggressive street paving program; gravel and potholes everywhere are not acceptable.

Q17

Is there anything else you would like to share?

Require that your financial support of the Yachats chamber means slowing down its summer tourism promotion; we're over-run in the summer. Require chamber to focus promotion on shoulder/winter seasons.

Lobby Legislature to change 30/70 TLT allocation formula.

Q11

A moderate amount

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

This month's newsletter is a huge improvement over the past. It's on time (some were a month or more late and repeated). And the website with all the info tabs is really good. Perhaps providing advice on how to eliminate weeds (dandelions and "morning glories") without harming the environment would be useful. Keep the yard waste bin available continually, rather than closing at 4 and sometimes not being open even when not full.

Q13

Public Safety,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Streets & Storm Drains,

Other (please specify):

Maintaining the 804 trail.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Accessibility of City Hall. Often there is no answer when we call.
Maintaining sidewalk plantings so they don't take over the walk space.
Encouraging a medical facility for non-emergencies – e.g., urgent care.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

None I can think of.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

None I can think of.

Q17

Is there anything else you would like to share?

Nothing.

Q11

A moderate amount

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Yes. Provide enforcement of the 25 mph speed limit from the bridge north. High percentage of vehicles doing 10 mph over the speed limit in both directions. Combined with poor sight distance is very unsafe for pedestrians crossing Hwy 101 north of bridge.

Q13

Public Safety,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Other (please specify):
Speed enforcement in 25 mph zone.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

1. Safe pedestrian access along Yachats River Road.
 2. Safe pedestrian access along Hwy 101 from bridge to town.
 3. Enforcement of 25 mph speed limit on Yachats River Road for pedestrian safety.
-

Q15

Q11

A lot

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Better publicity of events for residents, like the flu shot clinics the Lincoln Co Public Health dept will be offering in October. I had to find the info on the Linc Co site. Another example is when road work or utility work will be done - location and timing for those nearby.

Q13

Public Safety,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Infrastructure; future water or wastewater needs,
Streets & Storm Drains,

Other (please specify):

Continue to provide the public portapotty - this is very helpful for our delivery folks and those who are homeless.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Communication (like what you are doing with the constant contact idea. Also, the monthly newsletter is great.)
Continue to work on long term water plans.
Pedestrian safety.

Q11**A lot**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

We should consider reducing vacation rentals in the R-1 and R-2 zones. We should also consider removing vacation rental restrictions in the commercial zone C-1.

Q13**Infrastructure; future water or wastewater needs**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Consolidating visitors into the existing hotels by restricting vacation rentals

Identifying areas where density can be increased to add dwelling units

Expand further our cooperation and partnership with our neighboring water system to the North

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Open 1st Street into the park and convert Ocean View Drive into a pedestrian friendly park

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Now that the Code Enforcement position is staffed, utilize it to enforce our municipal codes; parking, vacation rental compliance, right-of-way definition.

Q17

Is there anything else you would like to share?

Solve the Commons dilemma; how to keep our kids secure while operating a Community Center.

How satisfied are you with the current level of public transportation options?

Q10 **Satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11 **A lot**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

More communication on the limits to growth in our city. More enforcement of City Codes (lighting, etc., etc.

Q13 **Infrastructure; future water or wastewater needs,**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Library,

Streets & Storm Drains

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Enforcement of existing codes. Communication as to limits on growth (water supply, etc., etc. More information on the number of vacation rentals, i.e.- are we above or below the cap, do we know how many are operating without licenses, etc., etc.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

I would like the city to give a list of what projects have been languishing for long periods of time. Why are they not being dealt with and finally if something needs to be done and has been on hold for long periods of time that we don't waste more time on endless, expensive studies. Either they need to be finished or we need to move on. Whatever path is chosen it must be communicated to residents. If not, why not? etc., etc.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

There are lots of projects that have been languishing for years. Do something or move on.

Q17

Is there anything else you would like to share?

no

Q11

A little

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Maintenance of empty property

Q13

Other (please specify):

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Likely not feasible, but consider funding an emergency manager position or liason

Q14

What are the top three priorities you believe the City should focus on to improve the community?

**Enforcement of city codes

**Open disclosure of how and where fees are allocated (for instance, why are water and sewer fees automatically raised annually, and when will that ever cease- it feels as though fees disappear into a back hole with little or no accountability)

** Public Safety, above all (that includes concern for speeding vehicles, sea level rise, proper maintenance of traffic and tsunami signs and emergency supply containers, sufficient parking so vehicles don't block visibility of oncoming traffic, more crosswalk blocks painted on 101, and more :-)

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Get serious about emergency management - communications and maintenance

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Somehow allocate more parking, especially if building the boardwalk as planned.

Q17

Is there anything else you would like to share?

Thanks for the opportunity

Q11

A moderate amount

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Better integration between public works projects and the city planning department so that projects are not planned, developed, and completed in a vacuum without appropriate integration into the larger long term CIP and development plans. A water committee/commission to oversee implementation of the Yachats Drinking Water Protection Plan and its recommendations.

Q13

Infrastructure; future water or wastewater needs,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Other (please specify):

Housing, transportation incl. walkability & bicycle infrastructure. Rather than storm drains green infrastructure such as bioswales and permeable paving.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Housing options, revising the comprehensive plan and municipal code, resiliency; water, energy & economic.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Developing a stronger local economy that would cater to local residents rather than tourists.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

The revising of the city's Comprehensive Plan & Municipal Code to bring it up to date with the changing needs of the community including diversified housing and economic options, walkability and sustainability.

Q17

Is there anything else you would like to share?

A dedicated trained grant writer or consultant to find, manage, and write appropriate grants. Re-apply for the ODOE Energy Resiliency Grant.

Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

Q2 Part time resident

I am a

Q3 Very satisfied

How satisfied are you with the current services provided by the City of Yachats?

Q4
How would you rate the overall quality of life in Yachats?

☆ 4

Q5 Yes

Is the City of Yachats effectively communicating with its residents?

Q6 Very satisfied

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 Very important

How important is it for the City to invest in tourism and economic development?

Q8 Neither agree nor disagree

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9 Somewhat satisfied

How satisfied are you with the current level of public transportation options?

Q10 Very satisfied

How satisfied are you with the city's recreational opportunities/facilities?

Q11 A great deal

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Would love to see the Yachats river improved so that we have a thriving salmon run. There are lots of new homes and it appears that many views of older homes are marred would be nice to start a plan to raise funds to buy some of the land in our View shed, that is threatened with logging.

Q13 Infrastructure; future water or wastewater needs,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Other (please specify):
See response above.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Maintain small town feel, Keep the environment healthy, help small businesses thrive

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Limit sprawl.

Q16 Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Respondent skipped this question

Is there anything else you would like to share?

Q11**A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

I'd like to see the 25 mph speed limit start at Fistera Apartments. There is a great amount of foot traffic, with poor or no sidewalks until Dollar General. Two pedestrians have been killed in the past - one at Marine dr, one across from Fistera.

Q13**Respondent skipped this question**

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Is there anything else you would like to share?

I'd like the City to look into the feasibility that's what I read of having a vegetable garden watering discount - maybe by square footage. There are lots of great reasons to encourage folks to grow food at home.

Q10**Satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11**None at all**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

1. Open Little Log Cabin
2. Install a pay phone
3. Encourage someone to open a laundromat
4. A gas station would be great
5. Pressure the grocery store to lower prices
6. Pressure the grocery store to pay its employees more than \$14.50. And it should also get rid of the "employee owned" sticker in the window, because it's a lie. That store should be so much better than it is. They should also turn off their lights at night.
7. When I first moved here, someone made the joke that Yachats means "land of many curbs". I was confused at the time, but now I'm not. The curbs are a menace!
8. There is a TON of plastic debris along both sides of the road from here to Waldport. I know that it's not an eyesore but it is impacting wildlife and drainage and should be removed. I have been doing it myself but it's a big job. Just thought I'd mention it.
9. The campers at "the waterfall" down on Yachats River Road are destroying a beautiful place. They shit in creeks that drain into the river. Their dogs are thrashing the hillside. They have trash and bedding strewn everywhere. They get really, really, really drunk and have open campfires that could easily start the nearby trees in fire. The whole place is a unsupervised disaster. It would be awesome if the area could become a place which all could enjoy. Jay, Yoshi, Stephen, and Nick are all responsible.
9. There is a total lack of public space in town. There should be a gathering place besides the Post Office, where nobody is pressured to buy stuff and there are plenty of comfortable places to sit. I know this is a pie in the sky idea, but I'd love it if the city bought the houses between the Post Office and the bay, razed those houses, moved the PO to where the houses used to be, and turned the land where the post office used to be into a town square/Piazza. Put a big fountain in the middle.
10. Speaking of the PO, can the city pressure them to bring back their trash can? They are being so ridiculous
11. I should have started with this, but I'll end with it instead: the decision to order up a very expensive part time cop when we barely have enough money to pay the staff at city hall is outrageous. I do not want police in Yachats. We don't need them! Simply seeing them sitting there in their stupid overpriced vehicles needlessly draining our paltry coffers is a disgrace. The fire department was plenty sufficient and I hope this little experiment is merely a momentary lapse of reason. I read the contract with the sheriff's department - it's license to do whatever they want without any possible consequences whatsoever. It's ridiculous and should never have been agreed to.

Q13

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Infrastructure; future water or wastewater needs,

Library,

Streets & Storm Drains,

Other (please specify):

Town square with a fountain and benches. Additionally, maybe a coin-operated binocular viewer thing. Also, a well-built boardwalk. And make Dave empty The Underground Pub's port-a-potty. So many people walk by that thing, and it is beyond stinky.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

1. Sharply decrease the allowed number of short-term rentals.
 2. Kick Airbnb out of the town permanently.
 3. Build tiny houses.
-

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

See above

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

I think I have already said too much

Q17

Is there anything else you would like to share?

We should divest the village of Yachats from all entities complicit in the current and ongoing humanitarian crisis in Gaza and occupation of Palestine.

Q13**Public Safety**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

City Governance -effective Council, City Manager - STABILITY

Raw water storage

Affordable housing for workers

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

-Public involvement with what to do with Food Tax money once the sewer debt is paid off.

-Build up reserves so there is money in the future if/when the economy goes down again

-Develop a public safety and compliance plan for the city

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Develop a plan for the use of current Transient Rental Tax money and projected income. What is the best use of this money in relationship with the other non restricted city funds?

Q17

Is there anything else you would like to share?

Several years of dis-functioning Council, Commissions and rotation of City Managers has caused lots of problems. Lack of trust by the public, frustration that projects are given green light by one manager and then dropped by the manager. In fighting and back stabbing. Priorities changing faster than they can be recorded. Things not followup on because of changes in command lost focus on commitments. The current Council and City Manager relationship seems to be working well and positive results are being seen. Don't screw it up this time....

How satisfied are you with the city's recreational opportunities/facilities?

Q11**A lot**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Keep the focus on the taxpayers, even while knowing that tourism is so very important as well. If the residents are happy, others will be as well!

Q13**Other (please specify):**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

I'm living paycheck to paycheck already so just ask that the city be creative and stay within current budget.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Cleanliness, safety and beauty of the area.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Smart spending and saving.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Anything that keeps our area clean and cute! :) Cute, as in our beautiful and quirky area that others will desire to visit!

Q17

Q1 Yes

Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

Q2 Full time resident

I am a

Q3 Very satisfied

How satisfied are you with the current services provided by the City of Yachats?

Q4

How would you rate the overall quality of life in Yachats?

☆ 5

Q5 No

Is the City of Yachats effectively communicating with its residents?

Q6 Satisfied

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 Somewhat important

How important is it for the City to invest in tourism and economic development?

Q8**Agree**

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9**Neither satisfied nor dissatisfied**

How satisfied are you with the current level of public transportation options?

Q10**Somewhat dissatisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11**A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Would like more of a police presence in the city, not just on Thursday and Fridays and would like it made permanent. Would like a more reliable bottle/can recycling machine

Q13**Public Safety,**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Library**Q14**

What are the top three priorities you believe the City should focus on to improve the community?

Communicating events in the city. More entertainment. More affordable dining out options

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Preserve our views

Q16**Respondent skipped this question**

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Is there anything else you would like to share?

I don't agree with using city funds to payoff a landowner who is extorting the city. Agreeing to anything except a fair market purchase will encourage other landowners to engage in extorting our city

Q11**A great deal**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Having staff that travel the neighborhoods already, as code enforcement, seems to be a good plan.
Channeling water in rainy season is huge. New construction should incorporate good drainage.

Q13**Public Safety**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Public safety

Parking and toilets for visitors

Use delineators instead of rocks that cannot be seen over the hood, to guide traffic

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Consider ADUs. Allow houses in R1 zoning to divide to provide 30 day rentals. Inspect and approve living standards. Tax break if rented to employee in Lincoln county. There are people working in food service living without running water. Shame!

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Consider ADUs. The compost bin at public works is great, please keep it funded.

Q17

Is there anything else you would like to share?

Yachats staff are gems. They've had some difficult work environments but still kept showing up.

Q11**A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Disagree with the Cascadia Partners recommendations. The study takes a one size fits all approach in that it recommends rezoning for higher density housing. While this may be appropriate for a city like Corvallis or Newport, it would ruin Yachats.

Q13**Other (please specify):**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Public restroom near the Commons.

Q14

What are the top three priorities you believe the City should focus on to improve the community?

1. Enforcement of traffic speeders and aggressive driving through city limits.
 2. Enforcement of camping ordinance.
 3. Asphalt repairs on community streets.
-

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Permanent traffic law enforcement on highway 101 within city limits.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Permanent law enforcement presence for maintaining the camping ordinance.

Q17

Is there anything else you would like to share?

Bobbi Price has been a great addition to city government.

Q11 A moderate amount

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

We need to have slower traffic in town. Visitors and those passing through need more visual clues that they need to slow down such as a traffic control light at the busiest intersection or at least the devices that show their speed of travel.

Q13 Public Safety,
Infrastructure; future water or wastewater needs

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Better control traffic by making sure the light is working at the controlled crosswalk. I have had cars speed passed me when I had entered the street. I have had to wave my arms at drivers who act like they don't see me. Since this is the only controlled crossing, I'd like to see more attention to this by law enforcement.

Street repair. This should already be an item in the city budget

Q15 Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Q16

Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Is there anything else you would like to share?

Yachats could use clean, functional public toilets. The porta potties are not sized for the use they get and are often disgusting.

When considering rezoning for high density housing, the first consideration should infrastructure such as water and sewer system and the capacity of our streets. Any apartments or duplexes, triplexes or quads should be located so traffic enters or exits from 101.

Streets & Storm Drains**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Pedestrian Safety, adequate water resources, A Public Safety officer

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Speed cameras coming into the town from north and south. It would require two cameras and it pays for itself.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

One I would like the town not to do, is finance a deal with the landowner and logger in property outside the township.

Q17

Is there anything else you would like to share?

The city emphasizes attracting visitors and pushes tourism based projects and expenditures. It needs to focus on its residents.

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

More reliable flashing lights at the one downtown intersection and more flashing lights at other cross walks. Extending 25 mph zone further to the north and one of those readouts of current speed to advise of approaching densely populated downtown. The recent accident at the "Ona" curve recommends further guard rails to protect the gathering area outside of the Dream Machine. An urgent care facility intown would be a welcome addition. Longterm project would be to bury the power and utility lines that run over the town.

Q13

Public Safety,

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Infrastructure; future water or wastewater needs

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Strategic water conservation

Preserve the Yachats ridge and prevent any clear cutting; support View the future

Affordable housing for the people who work in business and in town government

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Solve the housing issue for local workers

Always protect the environment

Add an intown urgent care facility

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

What more can be done about people who have no shelter at all?

Further enhancement of parks and trails is always welcome.

Can parking for recreational vehicles in Yachats State Recreation area be limited?

Q17

Is there anything else you would like to share?

Complete the board walk along Ocean View.

What is with the whacky instructions from the Post Office about how to address the mail?

Promote good behavior for pet owners; the prevalence of "poop bags" is appreciated.

Q1 **Yes**

Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

Q2 **Full time resident**

I am a

Q3 **Satisfied**

How satisfied are you with the current services provided by the City of Yachats?

Q4

How would you rate the overall quality of life in Yachats?

☆ **5****Q5** **Yes**

Is the City of Yachats effectively communicating with its residents?

Q6 **Satisfied**

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 **Somewhat important**

How important is it for the City to invest in tourism and economic development?

Q8**Agree**

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9**Satisfied**

How satisfied are you with the current level of public transportation options?

Q10**Satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11**A lot**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Limit development. Leave yachats quaint.

Q13**Other (please specify):**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

None

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Letting this community become too busy with development of housing, businesses and public transpo will make it another eventual Newport. Everything opposite of why i settled and retired here.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

No

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

No

Q17

Is there anything else you would like to share?

There is a very delicate balance between progress and ruination of America's small towns. I believe our current population, low crime/safety, community feel is perfect at present and needs only be maintained.

Q11**None at all**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Zoning enforcement allowing illegal camping temporary living

Q13**Respondent skipped this question**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Stop the nonstop festivals geared toward flooding our community with temporary visitors. Stop relying on tourist dollars and consider full time residents. I don't even go into town for anything anymore.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Zoning & permits. The brewery, drift in housing off Starr Creek, RV living in driveways, etc

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Legitimate apartment project for hospitality workers. These "tiny home"/yurt options have the potential to be misused and abused.

Q17

Is there anything else you would like to share?

This town is far too focused on tourism vs residents. It's sad.

Q11**A great deal**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

As growth is proposed, the forest must be protected as it is the lungs of the planet. Our temperate rain forest is now larger than the Amazon and is vitally important for the human race going forward.

Q13**Infrastructure; future water or wastewater needs,**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Library**Q14**

What are the top three priorities you believe the City should focus on to improve the community?

1. Protect our forest. Without it, Yachats is no longer a destination. 2. Quaint small housing units that are affordable for hospitality workers that are within existing city limits. 3. Expanded emergency supplies for south of the bridge.

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Protect the forest, protect the forest, protect the forest.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Same.

Q17

Is there anything else you would like to share?

A new gymnasium/ meeting hall/ event space behind city hall would be beneficial to the city as we have outgrown the commons for some larger events. This would bring more business to town.

Are you a city of Yachats resident living within the city limits?City limit parameters: South of town: Windy WayNorth of town: Overleaf VillageEast of town: 921 Yachats River Road

Q2 Part time resident

I am a

Q3 Satisfied

How satisfied are you with the current services provided by the City of Yachats?

Q4

How would you rate the overall quality of life in Yachats?

☆ 5

Q5 It's ok

Is the City of Yachats effectively communicating with its residents?

Q6 Satisfied

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 Somewhat important

How important is it for the City to invest in tourism and economic development?

Q8**Agree**

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9**Neither satisfied nor dissatisfied**

How satisfied are you with the current level of public transportation options?

Q10**Somewhat satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11**A moderate amount**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12**Respondent skipped this question**

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Q13**Infrastructure; future water or wastewater needs,
Streets & Storm Drains**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

improving pedestrian and bicycle paths

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

address light pollution and lights left on by part time residents when away!

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

improve Along Ocean Drive walkway

Q17

Is there anything else you would like to share?

Turn Ocean Road into a one-way with sidewalks and bike lanes

How important is it for the City to invest in tourism and economic development?

Q8 Neither agree nor disagree

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9 Neither satisfied nor dissatisfied

How satisfied are you with the current level of public transportation options?

Q10 Neither satisfied nor dissatisfied

How satisfied are you with the city's recreational opportunities/facilities?

Q11 A lot

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

Pedestrian safety - sidewalks, crosswalks, slower speeds on 101 Highway

Q13 Public Safety,
Infrastructure; future water or wastewater needs,
Streets & Storm Drains

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

Improved sidewalk access that connects north and south Yachats

Better crosswalks to allow citizens to cross 101 safely

Slower speeds and more enforcement of speeds on 101 Highway

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

Sidewalk access along 101 Highway that connects the city and crosswalks that permit pedestrians to cross 101 Highway without feeling endangered.

Q16

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Sidewalk access along 101 Highway that connects the city and crosswalks that permit pedestrians to cross 101 Highway without feeling endangered.

Q17

Is there anything else you would like to share?

The city could put itself on the map if it would become a truly walkable city. We have wonderful trails but they remain only reachable to some and not to others. These trails and an interconnected systems of sidewalks and crosswalks would permit safe passage for those wanting to access trails and city facilities from residential areas

Are you satisfied with the city's level of community engagement in decision-making processes?

Q7 Not at all important

How important is it for the City to invest in tourism and economic development?

Q8**Strongly disagree**

Do you think the City is effectively preserving and promoting Yachat's natural beauty and cultural heritage?

Q9**Very satisfied**

How satisfied are you with the current level of public transportation options?

Q10**Satisfied**

How satisfied are you with the city's recreational opportunities/facilities?

Q11**None at all**

Overall, how would you rate your level of trust and satisfaction with the City government in Yachats?

Q12

Are there any specific areas where the City could improve in terms of infrastructure, public safety, or environmental sustainability?

The City needs to improve transparency and not allow a small number of people to make decisions for the entire City. Too often a small number of people make large decisions that negatively affect everyone who lives here. The City needs to take environmental sustainability seriously and allow state officials to assist in protecting City natural resources.

Q13**Respondent skipped this question**

Which of the following, if any, would you be willing to pay additional fees for improved city services?

Q14

What are the top three priorities you believe the City should focus on to improve the community?

- 1) Not allow the Church to develop a permanent homeless shelter
 - 2) Protect clean water sources
 - 3) Not allow City infrastructure to negatively impact private property

Q16

Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Is there anything else you would like to share?

The City needs to improve transparency and not allow a small number of people to make decisions for the entire City. Too often a small number of people make large decisions that negatively affect everyone who lives here. To encourage active participation, the City needs to communicate better with actual full-time residents who live here. Grievances from private landowners should be taken seriously. The City needs to do better at working with all residents within City limits.

river walkway
preserving viewshed
trail maintenance

Q15

Are there any specific initiatives or projects you would like to see the City undertake in the long-term ?

While I understand the importance of making more affordable housing, I disagree with the Oregon's state's goal to increase the vertical heights of dwellings. That makes sense for Portland, which is fairly full in available acreage, but not needed for Yachats and many other areas. One main problem with increasing vertical height is causing the need for elevators which inevitable end up in disrepair in affordable housing , plus they are contagion sites in times of pandemics. The other problem is they end up blocking someone's view, whether it is a scenic view or just in terms of sky, trees, and clouds, and allowing natural light so necessary to prevent S.A.D. Scenic views have a concrete financial cost, and having them blocked causes not only emotional distress, but loss of property value. Yachats has enough land north of town to be able to find room for new units without going vertical. I noticed the new unit being built across 101 from the Dollar store which certainly looks like it obliterated the view from the house adjacent to it from the east. Yachats should avoid anymore of this kind of situation.

Q16

Respondent skipped this question

Are there any specific initiatives or projects you would like to see the City undertake in the near future?

Q17

Is there anything else you would like to share?

I live in South Yachats and the planned clearcut uphill from my and many neighbors' houses is a strong concern in terms of causing landslides. A slide on the scale of the OSO landslide in Wa state which (was caused by clearcutting) could wipe out all the homes east of 101 from the Yachats river to Yachats Inn and further south. And possibly even the homes west of 101. We appreciate the Yachats city's offer to the landowner and the timber company to delay for a few decades, but I can see the amount will be way too low to accomplish that . Particularly knowing the cost of living of the landowner living in San Jose. While I wouldnt expect the city to be able to expend substantially more, is it possible to help organize the south side homeowners to contribute their own resources to increase the offer and make it more competitive? Given the home prices in the area that could be affected, and the inability to buy landslide insurance, such a sacrifice from the owners is entirely reasonable given the dire consequences. And such a mustering of effort should be able to make a competitive bid. For the north side of Yachats, the effect on the viewshed and tourism are the key concerns and are valid. But for those on the southside, it can be a matter of catastrophic financial loss and safety.

City Council Regular Meeting
Meeting Date: November 20, 2024

ITEM TITLE: Municipal Judge Review

DISCUSSION/BACKGROUND/ISSUE:

The City of Yachats has recently employed a code compliance staff member to assist residents in maintaining compliance with and familiarizing themselves with the Yachats Municipal Code. To effectively enforce the code, consequences must be imposed on those who persistently violate it without making an effort to comply. Establishing a Municipal Judge will provide these consequences for individuals who repeatedly choose not to adhere to the Yachats Municipal Code and will empower the Code Compliance officer to issue citations for court appearances.

If appointed by the City Council we will set Municipal Court on the third Thursday of the month if needed. The Municipal Judge will only be called if for court if there is a case to review.

RELEVANCE TO 2024 COUNCIL GOALS:

- a. Achieve water sustainability
 - b. Deliver efficient, effective, transparent municipal services
 - c. Provide safe access to and use of city infrastructure, trails, and parks
 - d. Environmentally responsible in all that we do
 - e. Effectively manage and plan for the city's financial needs
 - f. Synchronize and update city policies and administrative rules.
-

RECOMMENDATION:

Appoint Municipal Judge Badar

ALTERNATIVES:

Choose not to appoint Municipal Judge Badar

City Council Regular Meeting
Meeting Date: November 20, 2024

ITEM TITLE: *FEMA Information for City Council*

DISCUSSION/BACKGROUND/ISSUE:

Action Required (Source: FEMA Letter to NFIP Participating Communities July 15, 2024)

NFIP participating communities in Oregon must select one of the PICM pathways which include the following: (1) adopt a model ordinance that considers impacts to species and their habitat and requires mitigation to a no net loss standard; (2) choose to require a habitat assessment and mitigation plan for development on a permit-by-permit basis; or (3) putting in place a prohibition on floodplain development in the Special Flood Hazard Area (SFHA) to require a habitat assessment and mitigation plan for development on a permit-by-permit basis.

Communities must pick a PICM pathway by December 1, 2024. If a community fails to inform FEMA of its selection, they will default to the permit-by-permit PICM pathway. Communities will be required to report their floodplain development activities to FEMA beginning in January of 2025. Failure to report may result in a compliance visit.

[FEMA PICM Letter 7-15-24](#)

[Further background information from staff and impact on Yachats](#)

[Staff Update 11-14-24](#)

RELEVANCE TO 2024 COUNCIL GOALS:

a. Achieve water sustainability

b. Deliver efficient, effective, transparent municipal services

- c. Provide safe access to and use of city infrastructure, trails, and parks
- d. Environmentally responsible in all that we do
- e. Effectively manage and plan for the city's financial needs
- f. Synchronize and update city policies and administrative rules.

RECOMMENDATION:

Recommend the following motion: The City of Yachats will place a temporary moratorium on development in the SFHA while working toward adopting the FEMA Model Code.

CITY OF YACHATS

~~ADMINISTRATIVE POLICY~~ ADMINISTRATIVE POLICY NO. 15 ACCEPTANCE OF SYSTEM DEVELOPMENT CHARGES

OBJECTIVE

To provide a consistent procedure for collecting System Development Charges, while accommodating property owners' needs.

ACCEPTANCE OF FEES

System Development Charges must be paid prior to issuance of a building permit, ~~development permit~~, or permit to connect to the water, sewer, or storm drain system within the City.

System Development Charges ~~can only be paid at the time the plans are submitted and accepted~~ approved by the City Planner. ~~may be paid on an undeveloped lot, anytime, at the owner's election.~~

The current System Development Charges will be collected by the City and entered into the city utility billing data base system.

The System Development Charges collected will be credited to the lot indicated, and will remain a credit to the particular lot. Once applied to a specific lot, no fee may be credited to another lot.

If the lot is partitioned, the credit for System Development Charges will remain with the lot that retains the original map and tax lot number. If for any reason the map and tax lot number should change, the credit will remain with the lot that retains the majority of the "features" of the original lot, such as highway access, square footage, address, etc.

System Development Charges fees will not be returned once paid. The credit remains with the lot if ownership transfers.

If System Development Charges are paid for a specific project, and the property owner fails to get an approved building permit or construction loan build within <stated time period>, a refund will be made upon receipt of a written request. The necessary notations will be made in the data base database, and the written request filed in the map and tax lot master file. Future development will require the payment of all System Development Charges at the rate such application is made in place when a new application is approved.

Any System Development Charges the City imposes for public improvements not included in the current rate when paid will be collected prior to issuance of a building permit, ~~development permit~~, or permit to connect to the water, sewer, or storm drain system within the City.

Commented [KG1]: YMC 9.04.030 defines development as "work done on any site resulting in physical changes to that site, including, but not limited to, grading and/or excavation, vegetation removal and/or any construction or placement of facilities on that site".
I read this as SDC must be paid when a Cut and Fill permit is issued

Commented [KG2]: Do we want to address lot consolidation?

Formatted: Highlight

Commented [KG3]: If an approved permit is now a condition for payment, failure to get an approved permit doesn't make sense.
Construction loans are not the norm these days in our community. Most projects fail to reach completion because of increased cost of materials, unavailability of contractors, divorce, etc.

Formatted: Highlight

Formatted: Highlight

Formatted: Highlight

Formatted: Highlight

Commented [KG4]: If we're not allowing prepayment, this paragraph no longer makes sense. Perhaps replace with something that reflects our current policy for prepaids in regard to Storm Drain? Example:

For existing prepaid SDCs, any charges imposed after payment of the SDCs will be paid at the rate in place at the time a permit is approved.

YACHATS, OREGON

TROLLEY SERVICE

PRESENTED BY THE YACHATS AREA CHAMBER OF COMMERCE

VISION

The trolley service will support locals and visitors alike to get to and from work, shopping, dining, hiking, and exploring our area's natural beauty and attracting visitors looking for eco-friendly initiatives and infrastructure.

GOALS

- To broaden visitors' experience by providing access to recreation, dining, shopping, sightseeing, and hiking.
- Increase economic opportunity throughout the village by linking hotels, shopping, and dining opportunities.
- Allow visitors to leave their vehicles at their lodging and have access to experiencing Yachats.
- To relieve the pressures on parking in town created by increasing visitors while adding value and quality to their overall experience while visiting.
- Reduce carbon emissions created in Yachats by giving an alternate option and having fewer vehicles on the road.
- Tourism to the Oregon Coast is continually increasing, benefiting our tourism-based economy, and it is essential to consider tourism promotion through a Destination Management lens.
- This includes infrastructure support for tourism growth and how we attract people to our community.

GOALS

- To increase mobility options for visitors and residents that utilize a wheelchair and may not be able to drive themselves to access shopping, dining, and experiencing the community or sights to see.
- To increase mobility options for everyone, including disadvantaged residents who may not have regular vehicle access, offering an alternative option for shopping and employment opportunities.
- Provide an option for people to walk into town from their choice of lodging and take the trolley on the way back, avoiding parking in the village.
- Facilitate one-way hiking along the Oregon Coast Trail, Yaxkix, Gerdeman, Amanda Trail, Cape Perpetua Visitor Center, and back to town for shopping, dining, or lodging.
- It provides a service that attracts visitors looking for eco-friendly initiatives positioning Yachats as an environmentally conscious and forward-thinking destination.

- Hybrid Trolley Replica
- 14 passenger
- 24' length
- Tire vehicle - No rails
- Fold out ramp to load wheelchair passengers
- Full-speed vehicle and will travel at posted speed limits
- V8 engine with 12 mpg, with hybrid systems in place, will increase that by 25%
- The exterior can be customized with color, text or even and art wrap

THE VEHICLE

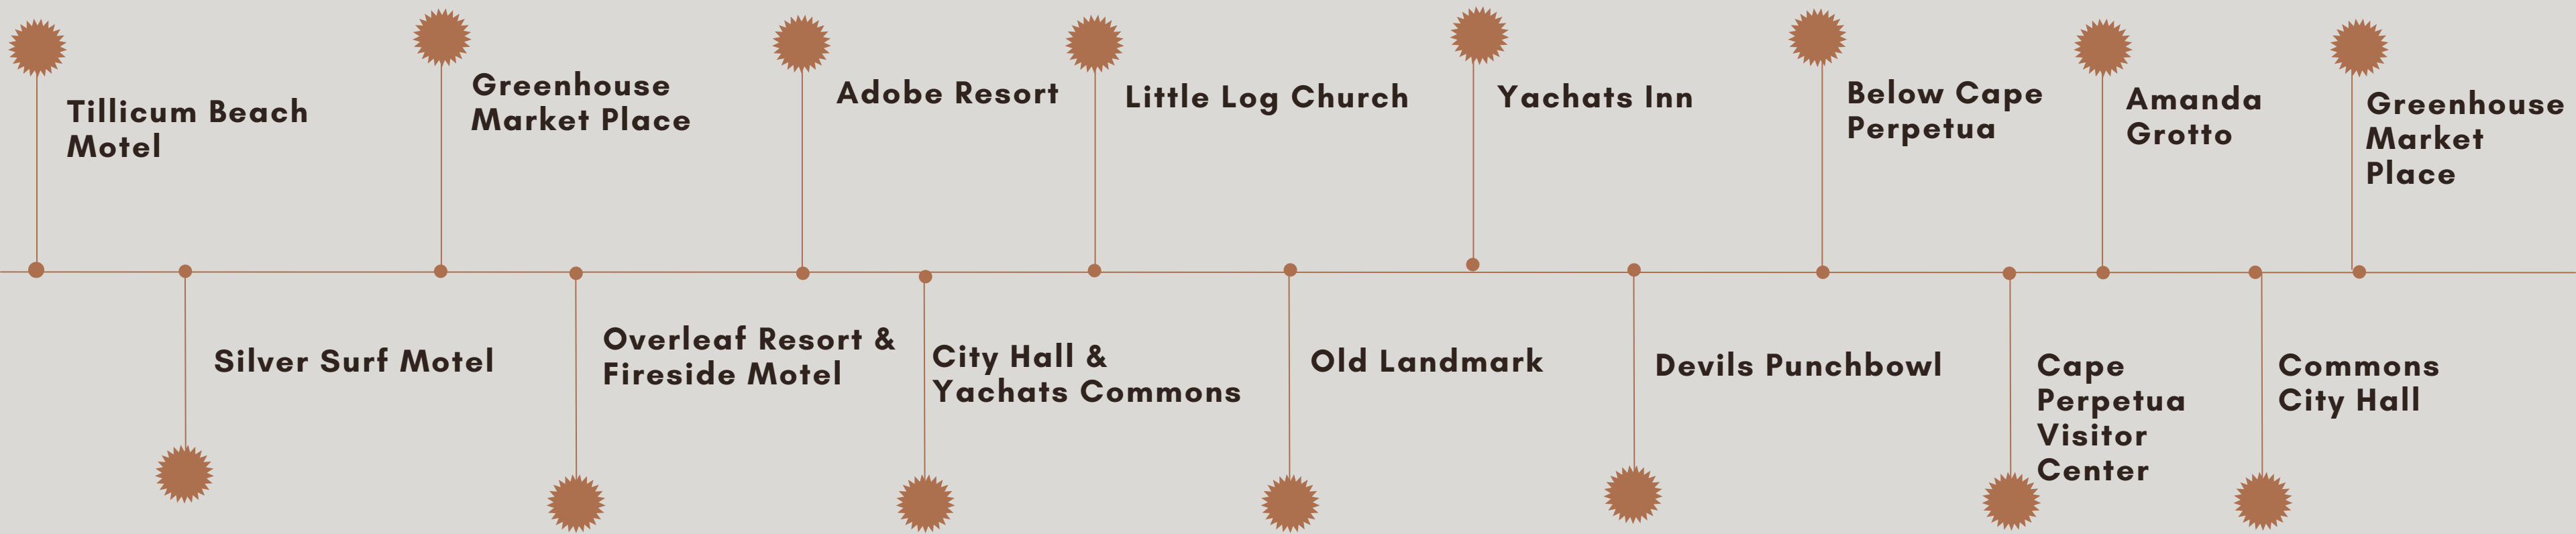

ROUTE

- Tillicum Beach Motel and the Cape Perpetua Visitor Center
- The main route will travel along Highway 101, Oceanview Drive, and 3rd Street and stop at 12 designated locations.
- Fourteen miles round-trip.
- Off-route pickups and drop-offs will be provided with reservations and accounted for in route time frames.
- The fixed route will provide about 11 round trips per service day, Thursday - Monday. Open to alternating long and shorter routes.
- Free for all to ride
- We want to work with a workgroup committee to dial in the routes and logistics to what makes the most sense.

YACHATS AREA

ROUTE STOPS

Note that there is always room for suggestions in routing as we move forward.

TROLLEY FUNDING

TRANSIENT LODGING TAX & GRANTS

- Grant funding, if approved to continue moving forward by City Council, we will apply for a Travel Oregon Competitive grant to help purchase the trolley.
- Visitor Amenities Fund receives thirty-nine percent (39%) of the lodging tax received by the City and will be requested to utilize for completing the purchase of the trolley and overall operations.
- This is set to fund tourism-related activities.
- TLT revenues are to be spent on tourism as a reinvestment in tourism
- TLT revenue has restrictions for this purpose to be spent on Tourism, Tourism Promotion, Tourism Promotion Agency, or Tourism- related facilities
- In essence, this will be funded by people who come to Yachats and stay the night in a public lodging option. Not property tax payers.

OPERATIONS

- Together the City of Yachats and the Yachats Area Chamber of Commerce will oversee the hiring and training of drivers. The driver will not require a CDL.
- Together they will come up with an agreement for providing preventative and needed maintenance, cleaning of the vehicle, insurance, and storage.
- There is a potential for the Lincoln County Transit District to take over operations and care for the vehicles, maintenance, drivers, and insurance after the initial pilot period. This is not confirmed, but the conversation has been started.
- A similar arrangement is held between the Cities of Monmouth & Independence and the Chariot Transportation District as well as the Tillamook Transportation District and Pacific City.

PACIFIC CITY, OR

- Pacific City Trolley route length is approximately 6.8 miles.
- Operates Friday through Sunday between Memorial Day and Labor Day weekends. The route has 14 stops.
- Ridership May and June 2022 & 2023
May 2022 157 trips May 2023 230 trips (+46.5%)
June 2022 522 trips June 2023 771 trips (+47.7%)

"The Pacific City Shuttle is a key destination management/parking management tool that helps this community's residents, businesses, and visitors. It's a perfect example of what can be done when identifying, coordinating, and collaborating with partners!"
-Brain Vitulli, General Manager of Tillamook County Transportation District.

"It's been quite successful. The first year, we used a shuttle bus from the Tillamook County Transportation District, and it didn't attract much ridership. But when the red trolley was brought on, ridership doubled. Last year, ridership tripled to about 33 riders per hour, and we extended the route to include Whalen Island campground and Sitka Sedge State Park, a few miles north of Pacific City. People in the campgrounds took the trolley into PC for meals, shopping, etc. This is the fourth year, and I don't have stats yet, but I passed the trolley last Saturday around 11 am, and there were at least 15 people on it. All our cities are hoping to get one, particularly Manzanita and Rockaway Beach."
-Nan Devlin, Tillamook Coast Visitors Association.

CONCERNS

- **Congestion and accidents on Highway 101**

No stops on Hwy 101 on the proposed route

- **The size of the town is only three blocks.**

The Trolley would go from Tillicum to Cape Perpetua.

- **Yachats is a walking destination.**

This would still be the case; people can ride the trolley and walk all day. People can walk into town from their hotel and ride it back.

Not everyone can walk from point A to B as easily as others, and this has the potential to ease assist that.

- **People will not use it.**

The hotel capacity of Yachats sleeps about 1,000 people when full. If 154 people used it daily, that could take an estimated 65-70 vehicles off the road daily.

- **Vacation renters are not going to use it.**

In marketing efforts, we will encourage vacation renters to use the sand super highway to get to the closest hotel to ride into town.

- **Slowing traffic too much.**

The Trolley is a full-speed vehicle and will travel at the posted speed limit.

- **It will be loud and annoying, and will it ring a bell all day long**

No, it will not ring a bell all day long as it drives through town

SUPPORT

“With our business at the edge of town, in a location that is not easily accessible by pedestrians, we’re sure this would reduce the need for people to drive to the shops in our complex and enable people who cannot drive to access the shops. There are many days when the parking lot at the complex is full, and we know of a few instances where customers told us they drove by because there was no available parking. We know of customers who cannot come to our shop unless they have someone in their family drive them; they don’t come when their other family members are out of town. We have one elderly customer who lives at the Sea Aire Assisted Living Facility, and we worry when we see her walking along the busy Highway 101.

We saw the value of a shuttle-type service in April 2023 during the Sip and Stroll Event. Virtually every time the shuttle stopped at our complex, we saw groups of 5-10 people exit the shuttle and others getting into it. This clearly demonstrates that visitors and local people are quite willing to use a shuttle service if it were available.”

-Todd Moyer, Owner of Beach Daisy Wine

"We get asked on a weekly basis about taxis or Uber into town for our guests.

We only have a few staff members that live in Yachats, so I can't speak for staff using it to commute to work. We have a staff member who lives on the property but does not have a vehicle. She has to walk to the store to get her groceries and walk back.

We have many elderly guests that get dropped off here and stay for a few days. They have no way back and forth to town. I have even shuttled a few guests to a restaurant or the store.

I see it as a benefit for our tourists and locals. Everyone complains that there's no parking at the post office or the store. This will only help the town's parking situation if tourists and locals use it."

-Heather Tincher, General Manager of Overleaf Lodge & Spa

SUPPORT

"A trolley would be great for public safety, too; it will help keep people off the roads after having drinks in town and traveling back to their respective hotels.

A trolley service that goes all the way to Tillicum Beach Motel would greatly benefit visitors and locals living on the state streets. I agree that employees would utilize it rather than walk along the 101. I'm sure some decide not to join the workforce because of transportation issues."

-Anthony Muirhead, General Manager of Adobe Resort

"We are very eager to see the free trolley as it will give people access to our amazing natural areas and reduce emissions and parking congestion at these sites."

-Katy Bear-Nalven, Program Director of Cape Perpetua Collaborative

"It's a great way for visitors that are relaxing to get around safely. We drive to Yachats and Florence often. This would be a great way to improve safety and increase the tourist experience. As a local, we'd welcome this!!! Great idea!"

-Kelly Beck

"This is so innovative and exactly the out-of-the-box thinking that we need as we move forward in the face of the climate crisis!"

-Shannon Loucks

"We recently went to Monmouth for my daughter's birthday. It was me and four girls.

We got to town, parked, and rode their adorable red trolley to the next town (very close) for a movie and then back. It was so fun for the girls, so easy for me, and such a cool thing to see cruising through town. We all wanted to go back because of it. Very convenient for tourists."

-Beth Venti

THANK YOU

YACHATS AREA CHAMBER OF COMMERCE

Yachats Area Trolley

Service-Operations Plan

The Yachats Area Chamber of Commerce and the City of Yachats are seeking funding to provide a public trolley transportation service in Yachats to serve visitors by broadening their transportation options once they arrive at their destination. Allowing the visitors to have a higher quality overall experience. The trolley service will also support locals to get to and from work, shopping, and dining.

By reducing the number of vehicles on the road, the Yachats Trolley will help ease the parking congestion as a popular destination, especially during peak visitor seasons. The trolley will serve as an alternate mode of transportation, allowing people to leave their cars behind.

This reduction of vehicles and the trolley being a Hybrid vehicle will positively impact the environment, resulting in lower fuel consumption and reduced carbon emissions. By using the trolley, people are not only using a convenient mode of transportation but also choosing a greener mode of transportation, contributing to a cleaner and healthier environment. This is especially important to a small coastal town like Yachats, where preserving the natural beauty and protecting the surroundings is a top priority.

The Yachats trolley will benefit the locals and visitors and even attract environmentally conscious visitors. Sustainable tourism is a priority, and providing a service that attracts visitors looking for eco-friendly initiatives and infrastructure positions Yachats as an environmentally conscious and forward-thinking destination.

Project Goals

- To broaden visitors' experience by providing access to recreation, dining, shopping, sightseeing, and hiking.
- Increase economic opportunity throughout the village by linking hotels, shopping, and dining opportunities.
- Allow visitors to leave their vehicles at their lodging and have access to experiencing Yachats.
- To relieve the pressures on parking in town created by increasing visitors while adding value and quality to their overall experience while visiting.
- Reduce carbon emissions created in Yachats by giving an alternate option and having fewer vehicles on the road
- To increase mobility options for visitors and residents that utilize a wheelchair and may not be able to drive themselves to access shopping, dining, and experiencing the community or sights to see.
- To increase mobility options for everyone, especially disadvantaged residents who may not have regular vehicle access, offer an alternative option for shopping and employment opportunities.
- Provide an option for people to walk into town from their choice of lodging and take the trolley on the way back, avoiding parking in the village.

- Facilitate one-way hiking along the Oregon Coast Trail, Yaxkix, Gerdeman, Amanda Trail, Cape Perpetua Visitor Center, and back to town for shopping, dining, or lodging.
- Provide transportation to visitors and locals to minimize drinking and driving.

Service Vehicle

- The desired vehicle for the new transportation service is a trolley replica vehicle (rubber-tire trolley) that can transport 12 seated passengers plus one wheelchair passenger. The wheelchair position includes a fold-down seat for two passengers that can seat up to 14 seated passengers when no wheelchair is present (see Figure 1).
- The trolley is a 24-foot low-floor vehicle equipped with a fold-out ramp to load wheelchairs and passengers with mobility aids and tie-downs to secure the passenger's wheelchair. Low-floor vehicles provide an entry step closer to the ground, almost level with a sidewalk, facilitating boarding and off passengers (see Figure 2).
- One trolley vehicle is looking to be acquired by the City of Yachats and the Yachats Area Chamber of Commerce. It is anticipated that one vehicle will be able to deliver the service. There will be two days the trolley does not operate to perform routine and preventative maintenance on them without interrupting service for the community.
- The vehicle is a low-emission, hybrid technology vehicle. The current operation plan will have it operate for about 160 miles per service day. Given the limited mileage range of current small and mid-size battery electric vehicles, a hybrid gasoline vehicle is likely to be acquired to demonstrate the feasibility of the service. The desire is to move to a 100% electric vehicle once the battery range improves.

Figure 3: Trolley Interior

Service Route

- The service route between Tillicum Beach Motel and the Cape Perpetua Visitor Center will be fixed. It will allow for pre-scheduled deviations up to .5 miles off the main route (from a designated stop along the main route).
- The main route will travel along Highway 101, Oceanview Drive, and 3rd Street and stop at 12 designated locations.
- Off route, pickups, and drop-offs will be provided with reservations, primarily to service parts of the community beyond a 5-minute walk from the main route and riders with wheelchairs or mobility aids.
- The fixed route will provide about 11 round trips per service day, Thursday - Sunday. The on-demand service will allow one on-demand passenger time slot per trip. On-demand service time slots will be built into the vehicle schedules to allow drivers to maintain adequate service and reliability for all passengers.
- Other alternate routes are being explored

Service Stops

- The 12 stops identified on the main route will provide access to most hotels, vacation rentals, shops, restaurants, and recreation and view access points.
- The service will follow the main route and serve these stops in sequence on every trip.

- Off-route deviations will be provided between stops and at the start and end of each trip by reservation only.

Table 1: Trolley Service Stops

South Bound	North Bound
1. Tillicum Beach Motel	1. Amanda Grotto
2. Silver Surf Motel	2. City Hall & Yachats Commons
3. Greenhouse Market Shops & Galleries	3. Greenhouse Market Shops & Galleries
4. Overleaf Resort & Fireside Motel	
5. Adobe Resort	
6. City Hall & Yachats Commons	
7. 3rd Street	
8. Old Landmark pullout	
9. Yachats Inn	
10. Devils Punchbowl	
11. Trailhead below Cape Perpetua Visitor Center	
12. Top of Cape Perpetua Visitor Center	

Alternate Service Plan

- The alternate option would be to go to the far north and south stops every other loop to give more frequent stops between the Greenhouse Market Shops and the Yachats Inn.

Service Days and Hours

- The service will be provided Thursday - Monday, from 10 am to 9 pm

Service Frequency

- The service will be operated every 45 - 60 minutes, Thursday through Monday. This is based on a 45-minute round-trip route plus a delay to service off-route deviations.

Fare

- The service will be fare-free
- No collection of fares will be required; therefore is no need to install a fare box on vehicles.

- Operators will have a tablet on board to track passengers getting on and off and the type of passenger boarding (i.e., visitor, resident, senior, youth, adult, bicycles, wheelchairs, etc.)

Operations

- The Chamber & City will have an MOU on how they work together to hire and train drivers, stops, customer service, tracking, and visitor information to provide riders.
- The Chamber will oversee the program.
- The City will hire the drivers
- The vehicle does not require a CDL drive
- The City of Yachats will provide fueling, preventative maintenance, and periodic washing and cleaning of vehicles.
- The City will acquire a tablet to track users.
- Customers who wish to schedule an off-route stop will contact the Visitor Center and schedule their pick-up time. The Visitor Center will relay the off-route pick-ups to the driver on schedule.
- The Chamber & City will ask the Council for approval to purchase the Trolley after receiving grant funding from Travel Oregon.
- The City and Chamber will ask the Council for approval to use Transient Lodging Dollars to fund the additional cost above grants secured; trolley, insurance, drivers, tablet, stop signage, maintenance, storage, and fuel.
- There are conversations with the Lincoln County Transit District and County Administration to look at the first year as a pilot and ridership to see if they could work it into their budget as a Yachats City Loop additional service and take over the operations and fund the operations into the future. This is not confirmed; only a conversation about potential future operations.
- The Chamber will organize the facility for the trolley to be parked while not in service.
- Would like to work with a community steering committee as the project moves into finalizing details.

Service Standards

- The goal of the Trolley is to provide a frequency of stops in 45-60 minute round trip loops.
- Passengers can board and deboard the trolley at designated stops along the route only.
- Passengers wanting to be picked up or dropped off at off-route locations must make a reservation at least 24 hours in advance. Off-route pickups and drop-offs will only be provided within .5 miles of the main route.
- Trolley will be ADA-accessible and will be able to provide curb-to-curb service. No door-to-door service will be provided.
- Service animals will be allowed on the trolley.

~~Trolley Budget: Cost known and estimated for full-year operations~~

Cost Item	Upfront Cost (Fixed)	Year 1 Ops(Variable & estimated)	Year 1 Subtotal
Trolley Vehicle	\$227,544		\$227,544
Service Operation; driver, fuel, insurance, storage		\$170,000	\$170,000

Pacific City Trolley

- It is worth noting that Pacific City has park-and-ride locations at Chester's Market, the Boat Launch, and Bob Straub Park.

- There may be locations in Yachats that would be willing to create park-and-ride locations. Both State Parks, 4th Street, Adobe, Yachats Inn?
- The Pacific City trolley is operating Memorial Day - Labor Day with expenses of \$50,000 to operate.
- The Pacific City trolley started with a test transit bus from the Tillamook Transit District. Once they changed to the trolley, ridership doubled, then tripled.
- Population of Pacific City is 1,200
- Adding the campgrounds increased ridership
- The route is just under 1 hour, 10-11 hours per day
- “2023 is our 6th or 7th year of operating the PC Shuttle. It operates Friday through Sunday from Memorial Day weekend through Labor Day. It is designed to be a travel demand management/destination management tool for the PC area which sees tremendous seasonal tourism pressure. It seeks to provide alternative means to travel in and around the Pacific City area for both visitors and residents. Ridership has increased every year since it was introduced, with a substantial increase in 2022 when one trolley-replica bus was added to the fleet.” Brian Vitulli, General Manager of Tillamook Transit District

City Council Regular Meeting
Meeting Date: November 20, 2024

ITEM TITLE: Yachats Area Trolley Update

DISCUSSION/BACKGROUND/ISSUE:

In August 2023, the Yachats Area Chamber of Commerce introduced the concept of a trolley system to serve both tourists and locals. The proposed trolley would alleviate parking congestion and reduce carbon emissions by offering a seasonal public transportation option. Community surveys indicated favorable support for the idea. Subsequently, the city council approved the joint application of the Chamber and the City of Yachats for a grant of \$100,000. This would cover \$200,000 for the purchase and \$90,000 annually for operational needs, funded from the Transient Lodging Tax fund, also known as Visitor Amenities.

The City of Yachats' request for \$100,000 in funding was denied, while the Chamber's request was approved, resulting in a funding shortfall of \$100,000 for the project. As a result, the Chamber and the City have been collaborating to brainstorm alternative approaches to complete the project.

The Oregon Coast Visitors Association has expressed interest in partnering on the project and providing the missing \$100,000 needed to purchase the Trolley. Through extensive research and surveys, their organization identified micro-transportation within communities visited by tourists along the Oregon Coast as a crucial missing piece.

As a result, they have prioritized transportation as a focus area for their strategic investments this year. Recognizing the potential value of this project for Yachats, they see the opportunity to address this transportation need and contribute.

Travel Oregon, the grantor, needs to know by December 15th if and how the City of Yachats wishes to proceed with this project.

The City and Chamber would like to purchase the Trolley using the funds granted by Travel Oregon and Oregon Coast Visitors Association, identify a committee to assist with identifying the route and seek a contractor to operate the route and the driver and schedule.

The City and Chamber propose to form a committee to:

- Use Travel Oregon and Oregon Coast Visitors Association grant funds to purchase a Trolley.
- Determine the Trolley's route.
- Select a contractor to operate the route, and hire a driver.

FISCAL IMPACT:

\$90,000 from Visitor Amenity is the annual estimation of a seasonal operation May-September.

FY 24-25, starting operation in May-June would impact the current budget \$36,000 and an estimated \$10,000 for signage for basic stops.

RELEVANCE TO 2024 COUNCIL GOALS:

- a. Achieve water sustainability
- b. Deliver efficient, effective, transparent municipal services
- c. Provide safe access to and use of city infrastructure, trails, and parks
- d. Environmentally responsible in all that we do
- e. Effectively manage and plan for the city's financial needs
- f. Synchronize and update city policies and administrative rules.

RECOMMENDATION:

Authorize the Chamber and City to collaborate on the purchase of a 14-passenger Hybrid Trolley. Additionally, form a committee to establish a route and solicit bids for a company to manage the routes and provide drivers.

ALTERNATIVES:

Make the final decision not to have a Yachats Area Trolley and send the \$100,000 grant back to Travel Oregon.
